Adaptation

This task is designed to be adaptable in order to meet local needs. Therefore, the assessor may wish to amend task materials to make them more appropriate to learners. Questions may also be re-phrased to take into account learner needs.

The assessor is permitted to change the context and use an alternative name, item or scenario.

An alternative context is given below.

[A friend/name] has asked you for help with a flyer.

The flyer must tell people about what [work/services] [your friend/name] can do.

The flyer has been started. You must finish it.

The assessor is allowed to change the task materials to reflect the context, but **must** maintain the same level of assessment and provide appropriate information for learners to complete the given activities.

The assessor may use the task materials provided if these are suitable for learners. If this is not the case, the assessor must prepare a document, which includes these items:

- a) a single image and title identifying the work/services being offered
- b) an address, which includes a different number to the one given in the email or text message to the learner e.g. number 6 rather than 7.

Working safely

The assessor must ensure that learners work safely and follow relevant safe and secure practices throughout the task. For example, learners must ensure they are sitting comfortably, and the workstation area and environment is safe and free from hazards. Health and safety guidelines must be followed at all times. The assessor is allowed to provide health and safety support and assistance during the assessment.
