Adaptation

This task is designed to be adaptable in order to meet local needs. Therefore, the assessor may wish to amend task materials to make them more appropriate to learners. Tasks may also be re-phrased to take learner needs into account.

The assessor is permitted to change the context.

An alternative context is given below.

A [tutor/person/organisation] wants to tell people about [lessons/service].

The [tutor/person/organisation] needs a **flyer**.

A **flyer** has been started. You need to finish it.

The assessor is allowed to change the task materials to reflect the context, but **must** maintain the same level of assessment and provide appropriate information for learners to complete the given activities.

If the task materials provided are not suitable for learners, the assessor must prepare alternatives.

To change the flyer, the assessor must prepare a data file named **Music14E2Set2**. This must include:

- (a) a logo (see below)
- (b) some basic information about the [lessons/service] e.g. name of [tutor/person/organisation]
- (c) some details about the [lessons/service]
- (d) a day which is different to that given in the message
- (e) some information about the contact details of [tutor/person/organisation]. This could be a contact name and address for more information.

Note: The text in this data file must all be in the same font, font size and style, allowing the learner the opportunity to apply text formatting to make key information stand out.

Logo as used in the original data file named **Music14E2Set2** - this can be used, or an alternative provided:

To change the email, the assessor must prepare an email or text message to send to the learner. This must include:

- (a) a day to be changed
- (b) some additional information about the [lessons/service]
- (c) additional contact details.

To change the headings, the assessor must prepare a data file which includes 4-6 images of headings appropriate for a flyer. Only one of the headings must be relevant to the context. The data file should be named **Heading14E2Set2**.

To change the images, the assessor must prepare a data file which includes 4-6 images (e.g. photographs or clipart). Only one of the images must be relevant to the context. The data file should be named **Image14E2Set2**.

Working safely

The assessor must ensure that learners work safely and follow relevant safe and secure practices throughout the task. For example, learners must ensure they are sitting comfortably, and the workstation area and environment is safe and free from hazards. Health and safety guidelines must be followed at all times. The assessor is allowed to provide health and safety support and assistance during the assessment.

Evidence of use of email / messaging

After the assessment, a copy of the learner's reply to the assessor's email or text message should be printed and added to the other evidence for each learner.
