The Silent Getaway

Their first gig at Riff's Bar since the release of their debut E.P. and the first time they have headlined the venue, this promises to be a ferocious performance from one of Swindon's hottest talents. With the release of their CD The Silent Getaway begin working on the second stage of their plan to take over the world by taking the show on the road around the UK in the New Year. Don't miss this chance to see them in action as Swindon gigs could be few and far between after this one.

The Band X Phenomenon

While not heard for over two years many regular gig go-ers in Swindon get teary eyed when Band X is mentioned. While they have been compared to bands such as Godspeed

You! Black Emperor and Pink Floyd, the band themselves shun these comparisons preferring to let the music do the talking. Containing members of Buswell & The Omegas and The Shaun Barry Mood Foundation, expect an epic, enigmatic and ethereal set from this interesting four piece.

Newcomers on the Swindon music scene that are sure to make big waves. Playing a distinctive brand of Melodic Acoustic Blues this trio are guaranteed to impress. Featuring forum darling Jayohatchenn, Shed on guitars and vocals and Terry on percussion, girls and guys alike will love the sounds of Apple.
