INSTRUCTIONS TO CANDIDATES

Questions in this examination are based on the context of *Jones and Jones Building Contractors* (*JJBC*), details of which can be found in the introduction.

You are required to answer all questions.

Quality of written communication will be assessed in question 5.

Write your answers in the spaces provided in this booklet or as guided by the question.

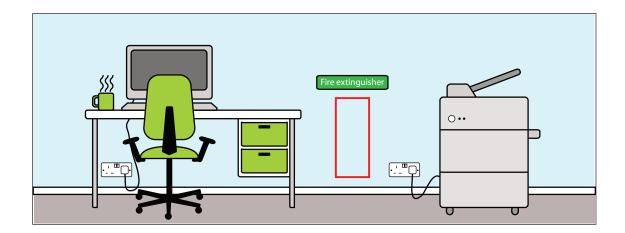

Jones and Jones Building Contractors (JJBC) was set up five years ago and has completed many successful construction projects over this period. The new contracts manager, Jonathan Douglas, is very concerned about safety and security issues, in particular, that workers and visitors are kept safe when entering JJBC sites.

Answer all the questions in the spaces provided.

1. The most likely cause of fire in the site office shown below is electrical.

(a) Choose a suitable fire extinguisher for the site office from those shown below.

[1]

Water

Dry powder

n Carbon dioxide

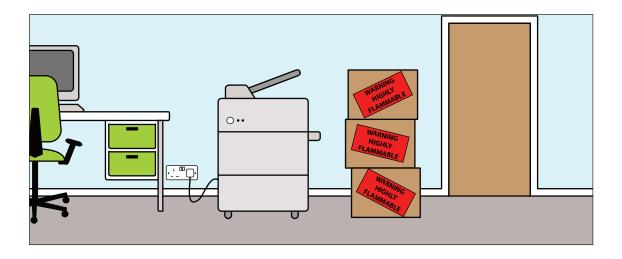

Wet chemical

(b) Name **one** type of fire extinguisher that must never be used to put out an electrical fire.

[1]

4. State three responsibilities under the Health and Safety at Work Act 1974 of:

[3]	(a) Employers	(a)
		•••••
		•••••
		•••••
		(h)
[3]	(b) Employees	(D)
[3]	(b) Employees	(<i>D</i>)
[3]	(b) Employees	

only

It has been noted that the security fence surrounding *JJBC*'s Cardiff site (as shown in the photograph) is very lightweight and can be pushed over or climbed over very easily.

Explain why the lightweight perimeter fence may be a security risk.	[4]

- **6.** Safety signs are a very important part of health and safety practice for all of *JJBC*'s sites and offices.
 - (a) The following are safety signs and sign types. Draw a line to match **each** sign to the correct sign type. [5]

Mandatory	Prohibition	Fire sign	Safe condition	Warning
-----------	-------------	-----------	----------------	---------

(b) Explain the meaning of the sign shown below.

7. Jonathan Douglas is very keen to ensure that all staff and contractors are working safely. He has placed the following sign at the entrance of each of *JJBC*'s sites.

Explain the control measures that are required in **each** of the building site operations listed below. [8]

Building site operation	Control measures
Managing traffic.	
Paint spraying a ceiling in a small room without windows.	
Fixing and erecting scaffolding.	
Laying drainage services at a 3 m depth.	

8. Jonathan would like some information about the Health and Safety Executive (HSE), in particular the powers it has.

State three main powers of the Health and Safety Executive.	[3]
Power 1	
Power 2	
Power 3	

9. This photograph was taken at *JJBC*'s Bristol site and shows a worker operating ten metres above the ground.

(a)	Identify one hazard in the photograph.	[1]
•••••		
(b)	Describe two potential effects of the hazard identified in (a).	[2]
•••••		
•••••		

- **10.** The photographs below were taken in one of *JJBC*'s workshops. The two employees shown are about to use the mechanical saw to cut the sheet material.
 - (a) Complete the risk assessment form opposite. Some of the form has been completed already.

JJBC Jones & Jones Building Contractors	Risk assessment form	
Hazard	Risk	Control Measures
Sawdust in the workshop.	Employees and visitors could be affected by inhaling sawdust. This could lead to serious illness. It is also a possible source of fire and could cause staff or visitors to slip.	Install a dust extraction unit to effectively remove all sawdust from the working area. Good housekeeping procedures should be in place and there should be training provided to staff.
No barrier around the mechanical saw.		
Employees cutting sheet material without appropriate personal protective equipment.	[3]	[3]
	[3]	[3]

(b) Identify **one** other hazard not noted previously, then complete the rest of the risk assessment form below.

Hazard	Risk	Control Measures
