DESIGN AND TECHNOLOGY  
PRODUCT DESIGN**

**A552/TS**

Designing and Making Innovation Challenge

**TASK SHEET**

**JUNE 2010**

**To be opened on the day of the examination  
between 1 May 2010 and 23 June 2010**

**INSTRUCTIONS TO CANDIDATES**

You will have a total of 6 hours to complete the examination in 2 × 3 hour sessions.

At the end of the examination you must have:

- selected **one** of the challenges detailed on this paper;
- completed an answer booklet showing your creative thinking and how your idea works;
- produced a **model/prototype** to show the important features of your design;
- at least **four** photographs fixed in your workbook showing your modelling, trialling and prototyping activities;
- completed the 'Time to Reflect' section of the workbook at some time between 24 and 72 hours after completion of the challenge.

**INFORMATION FOR CANDIDATES**

- This document consists of **2** pages. Any blank pages are indicated.

## SCHOOL SPORTS DAY

### Situation:

On a school sports day, not all students participate in the sporting events. The opportunities for these students still to be involved and support the event and its arrangements are numerous.

From the lists of challenges below select **one** challenge for which you will design and manufacture a prototype solution.

### Challenge 1 'Temporary Signs'

The sports day attracts many visitors to the school. Visitors are often unfamiliar with the layout of the school. Temporary signs to direct visitors around the school site that are easy to erect and store are required.

### Challenge 2 'Snack Pack'

Local primary school pupils have been invited to attend the sports day. These pupils are to be provided with a nutritious drink and snack pack. The pack should have a sporting theme and should encourage the pupils to watch each of the events.

### Challenge 3 'Temporary Shelter'

The judges at the sports day event need to move around the sports field for different events. Weather conditions are going to be changeable. Sunshine and showers are expected. A method of providing portable, temporary shelter for the judges is required.

### Challenge 4 'Measurement and Display'

One of the races will involve carrying liquid over a number of obstacles during a set time period. A method of measuring the quantity of liquid that is successfully carried by competitors and displaying the result is required.

#### Copyright Information

OCR is committed to seeking permission to reproduce all third-party content that it uses in its assessment materials. OCR has attempted to identify and contact all copyright holders whose work is used in this paper. To avoid the issue of disclosure of answer-related information to candidates, all copyright acknowledgements are reproduced in the OCR Copyright Acknowledgements Booklet. This is produced for each series of examinations, is given to all schools that receive assessment material and is freely available to download from our public website ([www.ocr.org.uk](http://www.ocr.org.uk)) after the live examination series.

If OCR has unwittingly failed to correctly acknowledge or clear any third-party content in this assessment material, OCR will be happy to correct its mistake at the earliest possible opportunity.
