In the extract we can see that Sukh's father is supporting Rani and Sukh and he wants to end this feud that had been going for all these years. He is also supporting them with the baby that they are going to have. Even though both of them are really young to have a baby Resham is trying to help them. The language in the extract makes me feel sad and emotional from the way Sukh's father is making Rani feel like she is a part of their family.

no matter what happened before. His brother got killed because of Rani's family but he left that behind and he wants to get back together with his best friend, Rani's father. "In time I realized that I had not lost one brother that day but two. Your father was my first friend." That shows that Resham does care about Rani's father, from the sentence where he said I lost two brothers that day. It shows the reader that they were close friends just like brothers as Resham described. "He swallowed hard to hold back his emotions". This shows that everything that happened in the past is something really sad for both families. It brings back memories and makes people's eyes full of tears. Both families lost members of their family. In the extract we can see that Divy is one of those who can not forget what happened and desperately wants revenge back. We can see this in the extract, "Divy might never let go of the feud, just as Rani had said." Resham is going to try and solve out all these problems and bring the family back together. He will make a visit to an old friend of his.

and Rani's father, Ganni Balwant Singh, He will try and help Resham as he said, and he will ask his advice. Also in the extract Resham hugged Rani and her eyes were steamed with tears. She said Thank you for all the support and love they showed and welcomed her to their house. "Are you OK babe?" ^{he} asked in a whisper "I'm just a bit shocked", she replied. "I wasn't expecting him to react like that". This shows how much love there is between Rani and Suh. They are teenage lovers and it's really tough for them to go through all this. It wasn't their fault that their families had ~~the~~ problems so many years ago. They never knew until they both met and fell in love with each other. It looks like they both care for one another and both are there for each other and they don't just care for themselves. It's real love between ~~the~~ two teenagers.

b) (Section A continued)

In the extract, Resham, & Sukh's father shows and emphasizes how important the family feud is. There are also other ~~parts~~ parts of the novel where we can see this again.

Divy

"Divy pulled to a stop fifty metres away from them..." Divy ~~real~~ thought that Rani and Sukh were going out and he wanted to make this sure by stalking his sister Rani. This also shows how strict and horrible Rani's brother, Divy is. It also shows that Divy doesn't leave Rani alone, do her own life, give her some freedom. He really wanted to ~~go~~ get revenge ^{back} from Sukh's family. ~~He~~ "He said it out loud, his face set in a grimace." This shows how angry Divy was starting to get. It was actually a really big deal for Divy what his sister was doing and who is her boyfriend. He was always horrible to Rani. If he only knew that Rani is pregnant. He knows ^{his auntie} Billah died but he also knows that Sukh's uncle died as well. Even though he doesn't refuse not to be bad and horrible with
 ↪ his sister's decisions.
