### Mark Scheme

*2009 examination - June series*

This mark scheme uses the [new numbering system](#) which is being introduced for examinations from June 2010

Mark schemes are prepared by the Principal Examiner and considered, together with the relevant questions, by a panel of subject teachers. This mark scheme includes any amendments made at the standardisation meeting attended by all examiners and is the scheme which was used by them in this examination. The standardisation meeting ensures that the mark scheme covers the candidates' responses to questions and that every examiner understands and applies it in the same correct way. As preparation for the standardisation meeting each examiner analyses a number of candidates' scripts: alternative answers not already covered by the mark scheme are discussed at the meeting and legislated for. If, after this meeting, examiners encounter unusual answers which have not been discussed at the meeting they are required to refer these to the Principal Examiner.

It must be stressed that a mark scheme is a working document, in many cases further developed and expanded on the basis of candidates' reactions to a particular paper. Assumptions about future mark schemes on the basis of one year's document should be avoided; whilst the guiding principles of assessment remain constant, details will change, depending on the content of a particular examination paper.

Further copies of this Mark Scheme are available to download from the AQA Website: [www.aqa.org.uk](http://www.aqa.org.uk)

## Section A - How to Mark

### 1 The Positive Approach

Always evaluate what is in the answer and reward the candidate appropriately: never look for what is 'missing'.

The main criterion is quality of comment, displaying, in some degree, knowledge, understanding and insight.

Reward highly any answer which keeps the question firmly in mind and offers textual evidence in support of assertions.

### 2 Flexibility

Use the mark-range definitions to help you place the answer.

Look out for answers which do not fit neatly into a range. They may show real sensitivity, flair and originality. Your own judgement is of crucial importance.

### 3 The Text

All questions require reasonably accurate and detailed reference to the text.

Candidates will choose their own references to support their arguments. Reward consistent and confident use of the text.

Beware of the fluent answer full of conjecture and speculation but empty of the reference which shows knowledge.

### 4 'Narrative'

Many answers recount episodes in apparently unpointed narrative. Look for key words which indicate that the question is being answered.

In poetry answers a line-by-line paraphrase has value if accompanied by commentary.

Interest can be implicit through the choice and recounting of incidents.

Do not be quick to condemn 'mere' storytelling, look instead for relevance.

If the narrative is rambling, irrelevant and generalised the mark must reflect this.

### 5 'Prepared' answers

Notes obviously taken from secondary sources should only be credited where they have been properly assimilated by the candidate and made relevant to the question.

You will meet some cover-all accounts. Mark what is relevant to the question.

## **6 Use of ‘technical terms’**

If lists of technical terms are offered instead of fresh response to the effects of words and phrases, mark according to your judgement of the candidate's understanding.

## **7 Use of background material**

Biographical information should be given little credit unless it has, by some means, been made relevant. It is no substitute for textual evidence.

## **8 Personal response**

Reward highly evidence of genuine response which will come through a thoughtful engagement with the text.

Do not be misled by comments of the “I couldn’t put the book down” variety: evidence is needed to make this effective.

## **9 The process of marking**

Check for any rubric infringements (see point 10) and indicate these clearly on the front of the script by writing a large red R.

Show that you have read every page.

If you use ticks they must mean something.

Judge each of the three answers independently. If the script is very unbalanced, comment on this.

Your own comments are vital. They must show clearly why you have given this specific mark rather than, for example, a higher one.

There must be no sarcasm in your comments.

Your comments must be appropriate for your mark. Do not write “Good sound answer” and give, say, 9.

There is no point in commenting “There’s much more to say”. There always will be. These are young candidates working against the clock.

Do not judge an answer as if it were coursework.

Show your reasons, particularly if you withhold marks, by indicating errors. Do not routinely award a particular mark.

Having marked the candidate’s script for subject content, recording the question totals for each question, you must review the script as a whole and according to the ranges of marks defined on the next page, decide on the mark to be awarded to the candidate for Quality of Written Communication (QWC). This mark should be written in the next available mark box on the front of the answer book, and ‘QWC’ written next to it in the corresponding question number box. Then you should add the question total marks together and add the QWC mark to give the

grand total and enter this in the box for the total mark. The grand total for the whole paper (including QWC) is the mark you should write and encode on the Examiner's Mark Sheet.

<b>Marking Criteria for Quality of Written Communication</b>	
The candidate presents relevant information coherently, employing structure and style to render meaning clear. The text produced is legible. Spelling, punctuation and grammar are sufficiently accurate to render meaning clear.	3 Marks
The candidate presents relevant information in a way which assists with communication of meaning. The text produced is legible. Spelling, punctuation and grammar are sufficiently accurate not to obscure meaning.	2 Marks
The candidate presents some relevant information in a simple form. The text produced is usually legible. Spelling, punctuation and grammar allow meaning to be derived, although errors are sometimes obstructive.	1 Mark
The candidate's presentation, spelling, punctuation and grammar seriously obstruct understanding.	0 Marks

Remember that your work will be seen by others who may include Senior Examiners, Script Checker, Awarder and Re-Viewer. If any alterations are subsequently required, your own written comments and marks will be scrutinised carefully. Your initials on each script are helpful.

## 10 Rubric Infringements

Check that only one question has been answered from each of the three sections.

Mark everything and award the best combination of marks permitted by the rubric.

If candidates have referred to only one character/episode/poem when the question requires reference to two, the answer is marked on a reduced scale of 19 marks instead of 25, as follows:

Mark Range	Reduced mark range
0-1	0-1
2-4	2-3
5-7	4-5
8-10	6-7
11-13	8-9
14-16	10-12
17-19	13-15
20-22	16-17
23-25	18-19

When candidates use poems from the incorrect era to answer a question they should not be penalised as long as the poems are appropriate to the question, for example, using post-1914

nature poems to answer a question on nature in the pre-1914 Poetry Section. Obviously, if the poems are not appropriate, the candidate cannot meet the mark criteria.

If the candidate has used poems from the incorrect era please write ERA on the front of the question paper.

If the candidate chooses to use poems within the correct era but not the prescribed poems, they should not be penalised.

## Section B – Mark Ranges – Definitions

Range	Marks
RANGE 1	0–7
RANGE 2	8–13
RANGE 3	14–19
RANGE 4	20–25

### The Assessment Objectives and Guidance

The Skills and content descriptors provide an outline of the characteristics which might, in some combination, be associated with specific mark ranges. Answers do not always fit unequivocally and tidily within one range so be positive and flexible in approach.

### Assessment Objectives and Ranges

Place the answer in a range by measuring it against the assessment objectives.

The full range is to be used for both Foundation Tier and Higher Tier. Individual answers may deserve marks beyond the high or low range expected for that Tier. This compensatory range may balance other marks in the script.

## **Assessment Objectives**

Assessment objectives will be tested as follows.

Candidates will:

- 1) respond to texts critically, sensitively and in detail, selecting appropriate ways to convey their response, using textual evidence as appropriate;
- 2) explore how language, structure and forms contribute to the meanings of texts, considering different approaches to texts and alternative interpretations;
- 3) explore relationships and comparisons between texts, selecting and evaluating relevant material.
- 4) relate texts to their social, cultural and historical contexts and literary traditions.

### **Range 1 bottom**

### **Marks 0-1**

- 1) Candidates provide some writing about text or task;
- 2) no comment on language or form;
- 3) no comment on connections between texts;
- 4) no awareness of context of texts.

### **Range 1 lower**

### **Marks 2-4**

- 1) Candidates write simple statements about the text or task;
- 2) candidates write simple comments about the writer's use of words;
- 3) simple connections made between texts;
- 4) basic implicit awareness of contexts of texts.

### **Range 1 higher**

### **Marks 5-7**

- 1) Candidates select some appropriate material;
- 2) show some awareness of the writer's use of words;
- 3) begin to explore obvious connections between texts;
- 4) limited implicit awareness of the context of texts.

**Range 2 lower**

**Marks 8-10**

- 1) Candidates refer to texts to support their views;
- 2) recognise features of language and structure;
- 3) recognise possible comparisons and relationships between texts, e.g. connections in themes and ideas and similarities and contrasts in writing style;
- 4) implicit awareness of the contexts of texts.

**Range 2 higher**

**Marks 11-13**

- 1) Candidates support deductive and personal response to meanings of texts by textual reference;
- 2) recognise and respond to features of language and structure;
- 3) recognise and respond to opportunities to compare texts and show relationships between them;
- 4) show some awareness of the context of texts.

**Range 3 lower**

**Marks 14-16**

- 1) Candidates make well-chosen and effective references to support a structured personal response to texts;
- 2) begin to show understanding of elements of critical awareness;
- 3) make comparisons and draw relationships between texts;
- 4) show awareness of context of texts.

**Range 3 higher**

**Marks 17-19**

- 1) Candidates discriminate in their selection of textual evidence to support personal and analytical response;
- 2) demonstrate critical awareness of texts and analyse meaning;
- 3) analyse perceptively comparisons and relationships between texts;
- 4) refer to the context of texts appropriately.

**Range 4 lower**

**Marks 20-22**

- 1) Candidates support responses with discriminating textual reference. Their reasoning is clear and effective;
- 2) sustain detailed critical and sensitive analysis of texts;
- 3) sustain perceptive analysis of comparisons and relationships between texts;
- 4) identify and comment on texts in context.

**Range 4 higher**

**Marks 23-25**

- 1) Candidates support evaluative responses with textually apposite reference used discriminately;
- 2) sustain insight into meanings and stylistics of texts with precision and originality;
- 3) evaluate comparisons and relationships between texts in detail;
- 4) evaluate the place of texts in their total context.

Descriptors for skills and content have been included for the full range 0-25 (U to A\*).

When using the detailed marking schemes which follow:

- decide which of the performance criteria best match the candidate's response to the question;
- award a mark within the mark range according to the quality of the response; the full spread of marks within each range should be used.

## Section A Drama

Candidates are reminded to:

- Answer the questions using appropriate evidence from texts
- Explore language and structure
- Relate texts to their contexts and traditions

If you choose a question which has a short extract at the beginning, you should use the extract to remind yourself where to look in your text and to give you a starting point for your answer.

### Question 01

Read again this extract from Act 2, Scene 4, in which Lorenzo is explaining Jessica's plan to dress up as a boy. Write about disguise in this play.
