### Mark Scheme

*2009 examination - June series*

This mark scheme uses the new numbering system which is being introduced for examinations from June 2010

Mark schemes are prepared by the Principal Examiner and considered, together with the relevant questions, by a panel of subject teachers. This mark scheme includes any amendments made at the standardisation meeting attended by all examiners and is the scheme which was used by them in this examination. The standardisation meeting ensures that the mark scheme covers the candidates' responses to questions and that every examiner understands and applies it in the same correct way. As preparation for the standardisation meeting each examiner analyses a number of candidates' scripts: alternative answers not already covered by the mark scheme are discussed at the meeting and legislated for. If, after this meeting, examiners encounter unusual answers which have not been discussed at the meeting they are required to refer these to the Principal Examiner.

It must be stressed that a mark scheme is a working document, in many cases further developed and expanded on the basis of candidates' reactions to a particular paper. Assumptions about future mark schemes on the basis of one year's document should be avoided; whilst the guiding principles of assessment remain constant, details will change, depending on the content of a particular examination paper.

Further copies of this Mark Scheme are available to download from the AQA Website: [www.aqa.org.uk](http://www.aqa.org.uk)

## Tier F Mark Scheme

### INTRODUCTION

Examiners will be expected to read the scripts in their allocation carefully and to make every effort to look positively for achievement throughout the ability range. They will be expected to annotate the scripts in order to show subsequent readers what evidence they have found for the achievement of the particular descriptors in the mark range and will be expected to give a mark for each answer in the right-hand margin at the end of the answer.

There is a common marking spine which runs across all components. In this way the whole examination can be integrated by using a common grade related system for all components.

There are some rules, however, about the mark ranges that can be given.

### TIER F

On Tier F, questions are targeted at Grades U to C. Performances which fall above the targeted grades should be given marks below those targeted, according to the descriptors which are included for all grades.

### DECIDING ON A MARK

Examiners must use the full range of marks. Work exhibiting the highest skills should be considered for full marks.

Marking throughout must be on a 'best-fit' principle. Where there are both strengths and weaknesses in a particular answer, examiners should consider carefully which range is the best fit for the performance overall.

The descriptors are an attempt to guide examiners to an understanding of the qualities normally expected of, or 'typical' of, work in the range. **They must not be interpreted as hurdle statements.**

Once the mark has been decided upon, by the identification in the body of the script where the descriptor has been met, then the mark should be placed, circled, in the right-hand margin.

### ANNOTATION OF SCRIPTS

It is important that while they are marking in red, examiners note on the script where they have found specific evidence of candidates having achieved a descriptor. It is likely that examiners will be making more extensive annotations at the beginning of the marking period than at the end, but every mark must be justified by a written comment. Ticks should be used to identify evidence of particular skills. Random ticking is extremely unhelpful.

The best kinds of comments are where a particular element of the descriptors is identified clearly and concisely. The point of making such comments is to allow subsequent readers to understand what you are identifying as positive achievement and where you are seeing material which gains credit. It is to share your marking process with those reading your scripts later (Team Leaders, Assistant Principals, Principals, the Chief Awarders, QCA, scrutineers etc.).

## PROBLEMS

Where an examiner has great difficulty in assessing a script, (s)he can draw it to the attention of the Principal Examiner at the end of the marking season by placing RSE (Refer to Senior Examiner) on the script and attaching the relevant Form EX/SRF. This means that it will be sent to the final meeting of examiners, the occasion where all the problems are looked at and a decision arrived at. Very occasionally a script is very hard to read or illegible. If you have one of these, you should give the mark you think it deserves, but you must also mark it RSE and complete Form EX/SRF so that it can be deciphered fully later on.

## RUBRIC INFRINGEMENTS

There may well be a few candidates who answer the wrong number of questions. If so, mark all the answers, and count the highest score for those eligible under the terms of the rubric. Thus the marks should be entered which are the highest according to the allowable rubric.

Candidates attempting only one question instead of two are not fulfilling the basic requirements of the syllabus and therefore do not receive special attention.

It is conceivable that candidates may offer two answers on the same text or from the same section. In this case the higher of the two marks should be recorded.

In Section B, candidates' selection of poems to write about from the English Literature section of the AQA *Anthology* might not be in strict accordance with the terms of the question. For instance, they may not have chosen both Pre-1914 or Post-1914 poems, or may have written about a poem not named in the question. In those cases, mark the response as if the candidate had chosen the right poems, and write 'Minor Rubric' on the front of the script.

If candidates have written about poems from the English section of the AQA *Anthology*, they cannot be awarded marks for responding to those poems. If the response is based solely on those poems, you must award 0. If they have used both English poems and English Literature poems, award a mark based only on their writing about the English Literature poems. In either case, write 'Major Rubric' on the front of the script.

## RECORDING

When the mark for each question has been recorded at the end of the answer, examiners should enter the marks for each question against the appropriate question number in the e-marker programme. When the total mark is calculated by the software, this should be recorded on the front cover of the script.

Put the total mark for the paper in the box on the top right-hand corner of the cover marked 'For Office Use Only'. Put your initials underneath this total.

## MARKING CRITERIA FOR QUALITY OF WRITTEN COMMUNICATION

### **3 marks**

The candidate presents relevant information coherently, employing structure and style to render meaning clear. The text produced is legible. Spelling, punctuation and grammar are sufficiently accurate to render meaning clear.

### **2 marks**

The candidate presents relevant information in a way which assists with communication of meaning. The text produced is legible. Spelling, punctuation and grammar are sufficiently accurate not to obscure meaning.

### **1 mark**

The candidate presents some relevant information in a simple form. The text produced is usually legible. Spelling, punctuation and grammar allow meaning to be derived, although errors are sometimes obstructive.

### **0 marks**

The candidate's presentation, spelling, punctuation and grammar seriously obstruct understanding.

## Mark Scheme

### Section A Post-1914 Prose

#### Assessment Objectives

The following objectives are tested in each question in this section:

- 3.1 • respond to texts critically, sensitively and in detail, using textual evidence as appropriate
- 3.2 • explore how language, structure and forms contribute to the meaning of texts, considering different approaches to texts and alternative interpretations
- 3.3 • explore relationships and comparisons between texts, selecting and evaluating relevant material.

The Foundation Tier targets Grades U to C\*, but candidates may gain any mark on a particular component or question.

Descriptors and content guides have been included for performance from U to A\*.

The range of marks targeted by the Section (notional U to C\*) is 0 – 18. Each of the questions is marked out of 27.

Compare the ending of *Superman* and *Paula Brown's New Snowsuit* with the ending of **one** other story.

Compare:
