Mark Scheme

2005 examination – November series

Mark schemes are prepared by the Principal Examiner and considered, together with the relevant questions, by a panel of subject teachers. This mark scheme includes any amendments made at the standardisation meeting attended by all examiners and is the scheme which was used by them in this examination. The standardisation meeting ensures that the mark scheme covers the candidates' responses to questions and that every examiner understands and applies it in the same correct way. As preparation for the standardisation meeting each examiner analyses a number of candidates' scripts: alternative answers not already covered by the mark scheme are discussed at the meeting and legislated for. If, after this meeting, examiners encounter unusual answers which have not been discussed at the meeting they are required to refer these to the Principal Examiner.

It must be stressed that a mark scheme is a working document, in many cases further developed and expanded on the basis of candidates' reactions to a particular paper. Assumptions about future mark schemes on the basis of one year's document should be avoided; whilst the guiding principles of assessment remain constant, details will change, depending on the content of a particular examination paper.

GCSE English 2005

Paper 1 Tier H Mark Scheme

INTRODUCTION

Examiners will be expected to read the scripts in their allocation carefully and to make every effort to look positively for achievement throughout the ability range. They will be expected to annotate the scripts in order to show subsequent readers what evidence they have found for the achievement of the particular descriptors in the mark bands and will be expected to give a mark for each answer in the right hand margin at the end of the answer.

There is a common marking spine which runs across all components. In this way the whole examination can be integrated by using a common grade related system for all components.

There are some rules, however, about the mark ranges that can be given.

TIER H

On Tier H, the questions are targeted at Grades A to D. However, it is quite possible that on an individual essay or component candidates may perform below grade D and so there are also descriptors for grades below D.

DECIDING ON A MARK

Examiners must use the full range of marks. Work exhibiting the highest skills should be considered for full marks.

Marking throughout must be on a ‘best-fit’ principle. Where there are both strengths and weaknesses in a particular answer, examiners should consider carefully which band is the best fit for the performance overall.

The descriptors are an attempt to guide examiners to an understanding of the qualities normally expected of, or ‘typical’ of, work in the band. **They must not be interpreted as hurdle statements.**

Once the mark has been decided upon, by the identification in the body of the script where the descriptor has been met, then the mark should be placed in the right hand margin.

ANNOTATION OF SCRIPTS

It is important that while they are marking in red, examiners note on the script where they have found specific evidence of candidates having achieved a descriptor. It is likely that examiners will be making more extensive annotations at the beginning of the marking period than at the end, but every mark must be justified by a written comment. Ticks should be used to identify evidence of particular skills. Random ticking is extremely unhelpful.

The best kinds of comments are where a particular element of the descriptors is identified clearly and concisely. The point of making such comments is to allow subsequent readers to understand what you are identifying as positive achievement and where you are seeing material which gains credit. It is to share your marking process with those reading your scripts later (Team Leaders, Assistant Principals, Principals, the Chief, Awarders, QCA, scrutineers etc.).

Examiners are asked to number the scripts in their allocation in the order in which they mark them. The first script marked is '1'. Go right through the allocation. Number the script in the top left hand corner of the front cover of the script. If you do extra scripts just keep numbering through.

PROBLEMS

Where an examiner has great difficulty in assessing a script, (s)he can draw it to the attention of the Principal Examiner at the end of the marking season by placing RSE (Refer to Senior Examiner) on the script and attaching the relevant Form EX/SRF. This means that it will be sent to the final meeting of examiners, the occasion where all the problems are looked at and a decision arrived at. Very occasionally a script is very hard to read or illegible. If you have one of these, you should give the mark you think it deserves, but you must also mark it RSE and complete Form EX/SRF so that it can be deciphered fully later on.

RUBRIC INFRINGEMENTS

There may well be a few candidates who answer the wrong number of questions. If so, mark them all and count the highest score for those eligible under the terms of the rubric. Thus the marks should be entered which are the highest according to the allowable rubric.

RECORDING

In addition to recording the mark for a question at the end of the answer, examiners must also fill in the marks on the front cover of the answer booklet.

The grid on the front of the answer booklet should look like this:

1a	5
1b	3
2a	7
2b	4
3	14
	7

Then put the total mark for the paper in the box on the top right hand corner called 'For Office Use Only'.

Please make sure that you add your initials underneath the total for the paper.

Paper 1 Tier H

Section A: Reading

This section covers the following Assessment Objectives:

AO2 Reading (En2)

Candidates are required to demonstrate their ability to:

- (i) read, with insight and engagement, making appropriate references to texts and developing and sustaining interpretations of them;
- (ii) distinguish between fact and opinion and evaluate how information is presented;
- (iii) follow an argument, identifying implications and recognising inconsistencies;
- (iv) select material appropriate to their purpose, collate material from different sources, and make cross references;
- (v) understand and evaluate how writers use linguistic, structural and presentational devices to achieve their effects, and comment on ways language varies and changes.

Specification A Paper 1, Higher and Foundation, Section B: Writing to Argue, Persuade or Advise

Assessment Objectives

AO3 (i) communicate clearly and imaginatively, using and adapting forms for different readers and purposes

AO3 (ii) organise ideas into sentences, paragraphs and whole texts using a variety of linguistic and structural features

AO3 (iii) use a range of sentence structures effectively with accurate punctuation and spelling

Descriptors have been included for performance from U to A*. The skills descriptors represent the base line generic expectations whilst the content descriptors offer guidance on how those expectations are likely to be demonstrated in a response.

For each question, examiners are to record one mark out of 18 for AO3 (i) and (ii) combined and a **separate** mark out of 9 for AO3 (iii). The total available marks for Section B questions is therefore 27.

For AO3 (i)/(ii), assess answers in terms of the levels which follow, i.e. the Communication and Organisation descriptors. For AO3 (iii), use the separate set of levels which follow. Place the marks in the margin at the end of the answer, with the AO3 (i)/(ii) total above the AO3 (iii) total. Note that two marks will be awarded.

The Skills descriptors embody the two equally weighted Assessment Objectives in the Communication and Organisation Mark Schemes. These are amplified and customised for the question in the Content Descriptors. Examiners will need to look closely at the Content Descriptors in order to find the appropriate band, and then to check across to the Skills Descriptors to confirm or modify the preliminary judgement. Taking both Skills and Content Descriptors together will determine how high or low in the band the mark should be. Remember that to be placed in a particular band the work will satisfy some (but not necessary all) of the criteria at that level. The precise mark awarded will be determined by the extent to which the answer matches the descriptors set out in the appropriate level.

The one Assessment Objective tested in the Sentence Structures, Punctuation and Spelling Mark Scheme has been split into its three constituent parts. These are amplified and customised in the Content Descriptors. The same process should be followed as in the previous Mark Scheme to determine the mark to be awarded.

In each case, a best fit principle may need to be applied where performance in response to the Assessment Objectives or parts of Assessment Objectives is uneven.

Any valid responses should be rewarded. Remember that candidates are writing in timed conditions.
