

**GCSE 2010**

**UNIT 5EH2F**

**SCRIPT AE**

**Q11**

Write your answer to Section C here:

Continuing Education  
I think continuing in education after the age of 16 is important because ~~the~~ the more qualifications you have the easier it is to find work and get a well paid job. There are lots of courses for over 16's such as hair dressing, art and the core subjects. The advantages are unreal you can retake your GCSES and have more time to think about what you want to do in ~~your~~ life and what you want to achieve from it. There are many ~~other~~ more advantages than disadvantages. a disadvantage ~~would~~ would be less time

looking for jobs as you would be studying a lot of the time and be very busy with that but you would still have time on the weekends or after ~~school~~ ~~4pm~~ school/college to have a look at what is around. The alternatives could be stay at home for a while until you know your ready to get a job and feel comfortable in work surroundings or just find a job you like and are comfortable with doing what it requires ~~to~~ to do. ~~school~~ go if you stay on would make a lot of advantages come your way and help your future a lot if its a private school. Hopefully the ~~concrete~~ council would pay for your education and you would

get the funding for it  
as I'm sure someone could  
help you get it as long  
as you're here for  
the right reasons  
and want to ~~forfeit~~  
forfeit your education  
needs and get to where  
you want to be in life  
and ~~increase~~ achieve  
more than you ever  
thought was actually  
possible to do and  
succeed in mostly  
everything you do.
