Unit 3 Creative English  
Poetry Reading Collection A Relationship

Task  
Explore the way poets present  
their feelings about relationships

You should refer to the poem below  
and two poems from the Relationship  
collection.

~~Father is showing how much he  
loves his son~~

Kettles By Vernon Scammell  
It's about the relationship between  
him and his son. Firstly the  
father shows a lot of love to his son  
Secondly he thinks about his son  
and about his future. He also uses  
a lot of connecting words that  
is called lexical field or imitation.  
The last word of each sentence rhymes  
with one word on the line but on the  
last sentence the word does not rhyme  
because the father realised he will  
not be able to look after  
his son when he gets older  
and bad stuff will happen. He  
said Wabey, Ginn he means  
to make us feel sorry for

more understanding  
explanation  
form...

2 Its a onomatopoeic quat moreover  
the father is using onomatopoeia  
also he is really worried  
about his son growing up because his  
son got many problems now his  
father is helping him but what  
will happen when he grows up  
he cant keep getting help  
from his Dad

In 04/01/07 Poem was written  
by Ian McEwan the poem  
is about passing on being the  
leader and about the family.

The writer uses alot of  
onomatopoeia some words that  
explain the word "onomatopoeia"  
shatters, smashed, clinked, diones  
and slap, some of those words  
we said like "slap" poet shock  
only environment sounds silence is broken

one  
explanation

Some from APB Rhyme Pattern  
Rhyme couple at the end  
example of a AB Rhyme "feeling  
that the story ends just here the  
stream, dried up the smashed glass  
clear this shows that you have to move  
on and forget about the past  
like he did "smashed glass clear"  
the trouble that he had has clear  
now its time to start a new  
life. Draw attention to conclusion sees  
new day past stopped Rhyme pattern etc

one  
reunderstanding

Moreover the writer used emotional language. Same example "I am trapped inside that empty space you float in when your mother dies." He says that he's trapped inside that empty space and he's still thinking about his mother's death and can't control it he can't change it.

It's a space comparison, lack of control or emotional shock. The shock trapped him in the empty space. Another technique used is connectives between himself, family. There is an example and in the moment it takes a life to pass from walking to sleep, I feel you there it shows that you need to wait a hole life to be the leader. When the leader dies the leader gets passed on onto the next family member, some other stuff he thought of. "Always in mind more than physical." He feels that his mother is always with him, not only in his mind but she stands next to him all the time. "Believe that the story ends just here but for him it is the beginning of a dream. The leader main person in the family."

To begin with I would like to show you how my mom is used in the poem

4

There's a example of a my man  
Raptors pain, divest anguish,  
Two of those words are positive and  
other two are negative.

Raptors pain so she's saying  
those memories were good but  
when she thinks she can't get  
them back she feels the pain.

Some understanding  
We can say she has got two  
minds and so one of them

she responds different  
Now I am going to talk about repetition  
Some examples "all my bliss from the  
dear life was given all my wife  
bliss is in the grave with thee,  
two really close sentences.

Journal  
point.

She says that she was getting  
all her happiness from the lover  
and she is all the happiness  
is in the grave with the lover.  
Those two sentences are loss of emotions.

Personification it to do with danger  
times all sending waves it means  
that the time will come for  
everyone.

Use of metaphor  
She says "Sweet love of gods  
forgive if I forget thee"  
She's saying if she forgets  
the love and all memories sent with him  
she want to be forgiven because  
so much time has gone past

5

She also says that  
while she looks like a ~~happy~~ beauty  
me along. ~~She~~ ~~she~~  
She is in the situation when she  
really needs somebody and time  
changes every thing changes but  
she can not forget him.

The feelings in the poem  
are mixed. She is upset all her  
happiness is gone but she realizes  
that she can be sad all her  
life so she can be more happier  
and she remembers well happy  
for her.

Effective  
List

The house has fallen apart  
It has been bombed the people  
that were in it probably died some  
had survived but they are homeless  
another house got bombed more and  
homeless people people were screaming  
and crying out were calm down  
and help were given to them  
but there are massive crowds looking  
for help I can't see through this  
thick air alot of dust in the  
air but I am trying my best and  
I can see that they have had  
lost the control of the city  
every few minutes another house gets  
bombed although it's really bad the  
police and other forces are trying  
to calm it all down that for  
about 60 minutes there was no house  
getting bombed there was alot of  
ambulances going through the hole city  
and helping people it is so loud  
there is alot of different sounds  
people screaming, crying ambulances  
police cars, like people's people

looking for their family this  
is not a disaster place, so  
be in 120 minutes ago this was  
a normal city but now you cant  
call it a city no more

I am sure, while the houses  
were getting bombed people parents  
were sleeping and their children  
were out side so alot of  
children will be homeless the  
streets are covered with dead bodies  
and buildings that were bombed  
there is life, the fire will get  
bigger if it gets to the (Red)  
Station

dramatic  
close
