- 1 (a) (iv) Study **Figure 2** an article about the coastal city of Miami, (shown on **Figure 1**) in the USA.

Figure 2

Miami – the Place to Be!

“The State of Florida is known as the sunshine state in America because of its fantastic climate, and Miami is the major city in the state. It is the fifth largest urban area in the USA and is the ‘cruise capital of the world’, with more cruise liners using the port than anywhere else, mainly as a starting point for Caribbean cruises. People just love Miami – it is a great place to work and play. There is lots of business around the city, including the American headquarters of over 1000 world-known companies including Disney, Microsoft and Sony. The warm climate and amazing beaches make it an ideal place for holidays or retirement.”

Using **Figure 2** and your own knowledge, explain why increasing numbers of people live in coastal areas.
