GCSE GEOGRAPHY B

B561/01 Sustainable Decision Making (SDM) (Foundation Tier)

Candidates answer on the Question Paper.

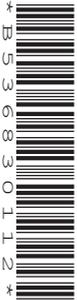

OCR supplied materials:

None

Other materials required:

- Resource Booklet (B561/01/02/RB – previously supplied)

Duration: 1 hour

Candidate forename		Candidate surname	
--------------------	--	-------------------	--

Centre number						Candidate number				
---------------	--	--	--	--	--	------------------	--	--	--	--

INSTRUCTIONS TO CANDIDATES

- Write your name, centre number and candidate number in the boxes above. Please write clearly and in capital letters.
- Use black ink. HB pencil may be used for graphs and diagrams only.
- Answer **all** the questions.
- Read each question carefully. Make sure you know what you have to do before starting your answer.
- Write your answer to each question in the space provided. If additional space is required, you should use the lined pages at the end of this booklet. The question number(s) must be clearly shown.
- Do **not** write in the bar codes.

INFORMATION FOR CANDIDATES

- The number of marks is given in brackets [] at the end of each question or part question.
- You will be awarded marks in Questions 4(b) and 5(a) for the quality of written communication of your answer.
- Resources 1–7 are contained in the Resource Booklet.
- The total number of marks for this paper is **40**.
- This document consists of **12** pages. Any blank pages are indicated.

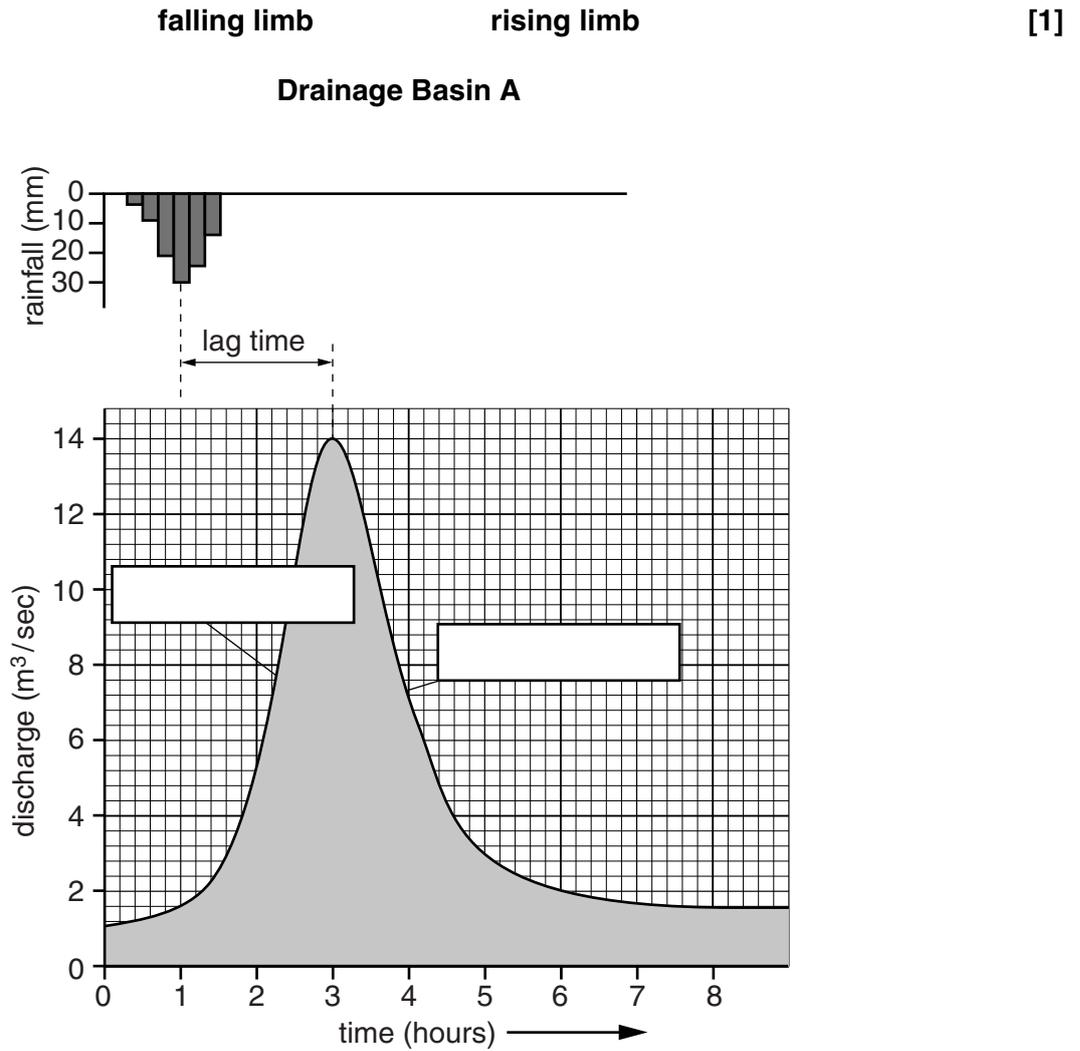

This paper has been pre modified for carrier language

SECTION A: THE BACKGROUND

Question 1

Use **Resource 1**.

- (a) This storm hydrograph shows a rainfall event in Drainage Basin A. Add these labels in the correct boxes.

- (b) What was the peak rainfall?

Circle the correct answer.

- 10 mm 20 mm 30 mm** **[1]**

- (c) What was the lag time for this drainage basin?

..... hours **[1]**

[Total: 3]

Question 2

Use **Resource 1**.

(a) Complete the table by adding the peak discharge for Drainage Basin B.

Drainage Basin	Peak Discharge (m ³ /sec)
A	14
B

[1]

(b) Study the OS maps. Tick (✓) the **two** correct statements in the table below.

Statement	
Drainage Basin B has more streams than Drainage Basin A	
Both drainage basins have steep slopes	
There are waterfalls shown on the map for Drainage Basin A	
Drainage Basin B has more forest than Drainage Basin A	

[2]

(c) Complete the passage by choosing the correct words from the word box below.

Drainage Basin A has impermeable rocks, low growing vegetation, slopes and a drainage density. This means that it is likely to flood than Drainage Basin B.

Word box

low	trees	more	gentle	less	steep	high	moorland
-----	-------	------	--------	------	-------	------	----------

[4]

[Total: 7]

Section A: 10 marks

SECTION C: THE DECISION**Question 5**

Use **Resources 6** and **7** plus your own knowledge and any ideas from other resources in the booklet.

In January 2011 the city of Brisbane, Queensland, Australia suffered the worst flooding in over 20 years. New flood management methods are being considered to cope with any future flood problems in Brisbane. These methods will need to be sustainable.

The government is considering **three** possible options:

OPTION 1

Enforce zoning on the floodplain.

OPTION 2

Improve monitoring and warning systems.

OPTION 3

Develop a large scale scheme to improve flood management in the drainage basin.

Tasks

- (a) Choose **one** of the above options. Give reasons to explain why you think this would be the best way for the government to manage the flood problem in Brisbane.
- (b) Suggest possible disadvantages of your chosen option.
- (c) Explain **one** possible advantage of **each** of the other **two** options.
- (d) Select **one** of your rejected options and suggest why it is **not** sustainable.

(d) Suggestion about why **one** of my rejected options is not sustainable.
