Edexcel
Success through qualifications

Look through the Source Booklet and the questions below to see how they relate to each other.

Study Sources A-K and then answer questions 1-8 below.

1. Study Sources A and B.

What can you learn from Sources A and B about the work of Alexander Fleming?

(4)

2. Study Sources B and C.

Compare the value of Sources B and C for someone enquiring into the development of penicillin.

(6)

3. Study Source D.

How did this experiment help in the development of penicillin? Use source D and your own knowledge to explain your answer.

(7)

4. Study Source E.

What contribution did the USA make to the development of penicillin? Use Source E and your own knowledge to explain your answer.

(7)

5. Study Sources F, G and H.

Does the evidence of Sources G and H support Florey's complaint (Source F) that Fleming was given too much credit for the discovery of penicillin? Explain your answer.

(7)

6. Study Sources I and J.

In what ways do the sources differ in their portrayal of Fleming's role?

(8)

7. Study Source I.

Although the author of Source I has not included information about Florey, he has given a fair and accurate account of Fleming's role in the development of penicillin. Do you agree? Explain your answer.

(9)

8. Do you think that the influence of war was the most important factor in the development of penicillin? Use the sources and your own knowledge to explain your answer.

(12)

(Total 60 marks)
