

VISIT FIVE: I will observe Demilyn dressing / undressing to see how Demilyn copes with buttons and ties. How long it takes will depend on Demilyn.

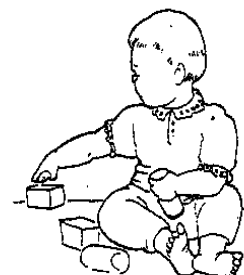

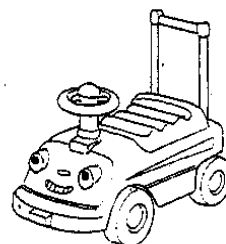

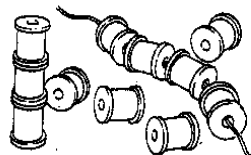

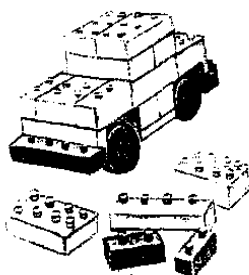

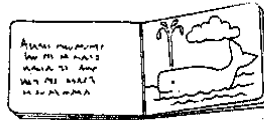

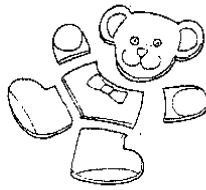

Problems I might come across

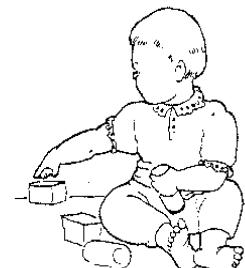

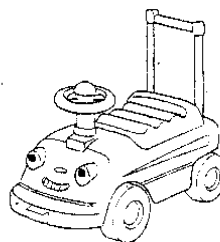

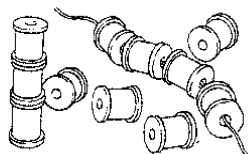

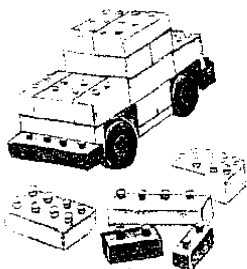

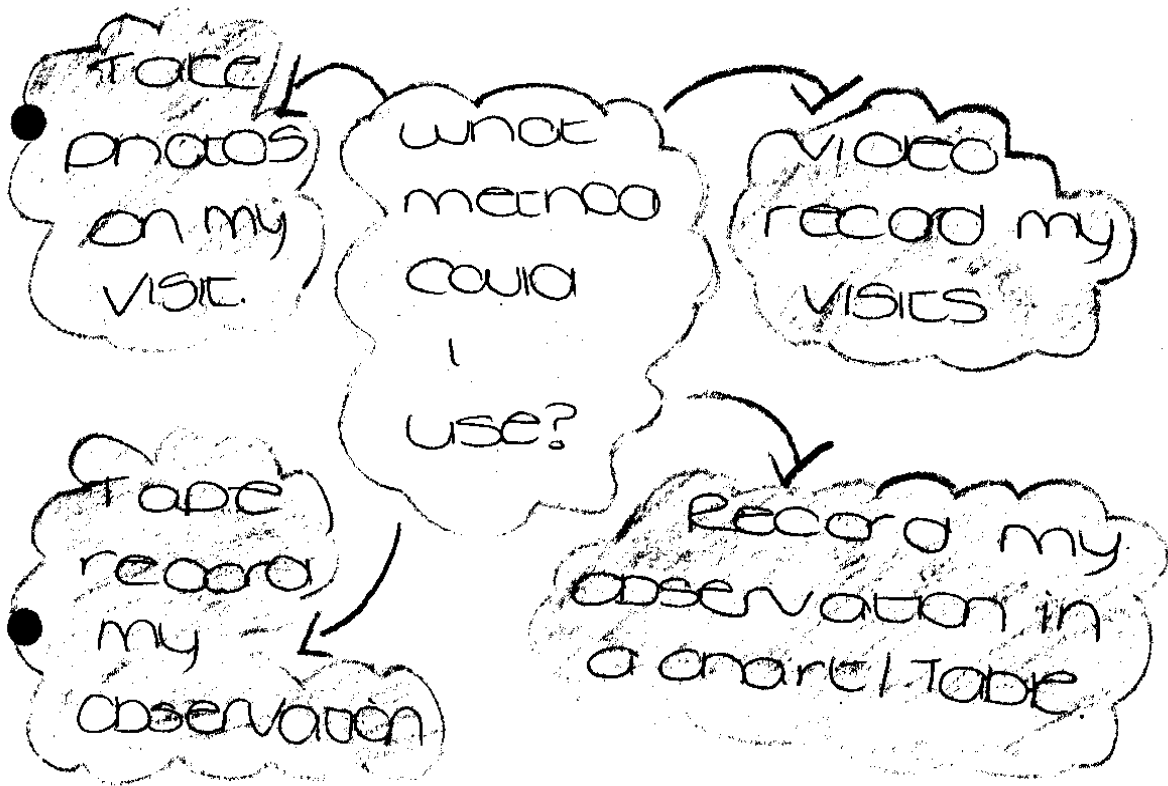

- All my activities are inside except for throwing and catching
- a ball that will be outside but I will overcome that by using a smaller ball inside if it rains.

- If Demilyn will not co-operate or if any of us are ill, I will reschedule my
- visit because I will be able to visit Demilyn as often as I want.

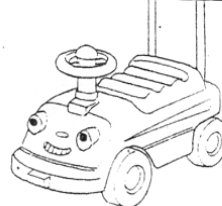

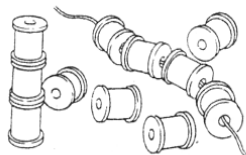

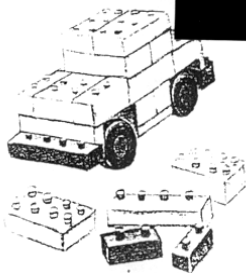

How I can record my observations

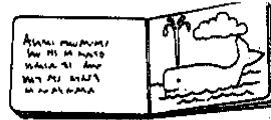

Activity	Does Dem use both hands?	Did Dem use one hand?	Which one right or left?	Did Dem enjoy it?	Can Dem catch the ball?
Throwing	Yes, to throw	NO.	both hands	Yes. very much	NO
Catching					
a ball.					

The time of the visit was tea-time on 30th September, it took place at other parents house, it lasted about 40 minutes.

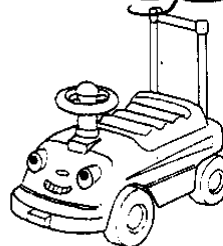

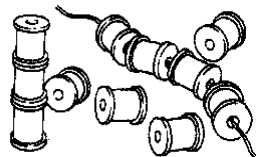

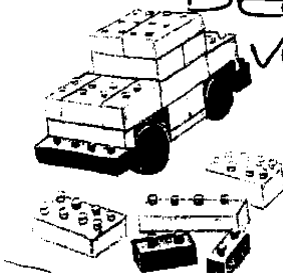

OBSERVATION

1

Throwing and catching a ball

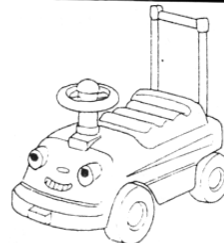

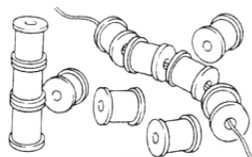

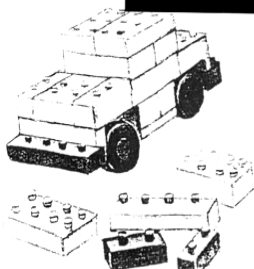

- When I arrived Demilyn was excited to see me. Her mum had told her beforehand that I was coming to play. I have a good relationship with Demilyn so that made things easier. Demilyn got all different kinds of toys out and I picked out the ball. Demilyn got a little moody, so I gave her the ball. Demilyn started to throw the ball and I caught it, but when I threw the ball back Demilyn would not co-operate. After about 10 minutes Demilyn tried to catch the ball with two hands she did not succeed. Demilyn didn't want to stop playing but she had to calm down because she was getting very excited.

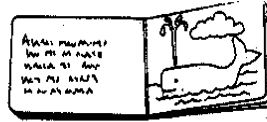

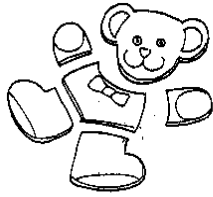

ACTIVITY	Does Demi use both hands?	Does she hold just her fork?	Does Demi handle her food well?
Meals/ eating	Yes	NO	It depend something she likes to pick up with her fingers.

I visited Demi about 12:00pm on 17th October, it took place at her house, it took about 25 minutes, as she kept getting excited

OBSERVATION

2

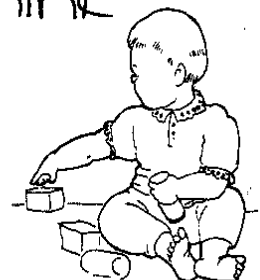

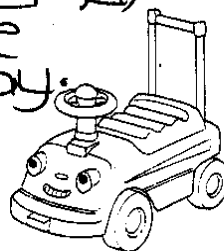

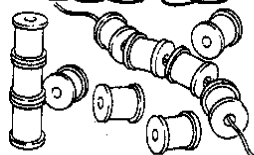

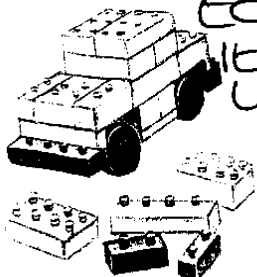

meals/learning

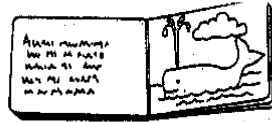

I arrived at Demilyn's house about 12:00pm, Demilyn was lying on the sofa watching her favourite video 'Gordy'. Demilyn wasn't very interested in me but when her mum set out the dinner, Demilyn didn't want it but instead she wanted to play with me.

Her Mum soon got her settled for dinner. To make things easier for my observation I stayed for dinner too.

Demilyn handles her cutlery very well for her age. When she came to the sausage her mum had already cut it up but she still picked it up with her fingers.

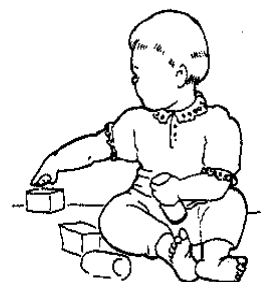

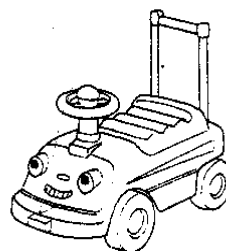

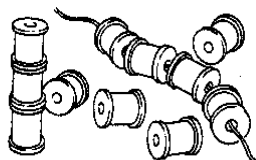

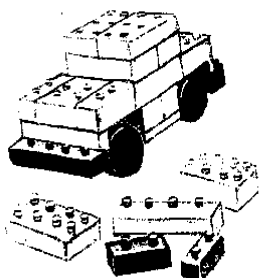

Demilyn was quite unsettled towards the end, I think it was that she wanted to play.

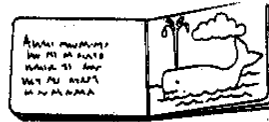

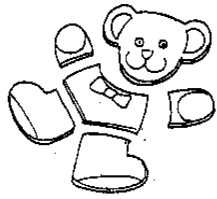

ACTIVITY	Does Demilyn jump around?	Does she read with her hands?	Which body parts does she move?
NURSERY rhymes/ actions	Yes, quite a lot	Yes, when she tried to copy me.	legs, body by keep moving it and her hands.

I visited Demi about 4:0'clock on 25th October, it took place at my house and it only took about 10 minutes because Demilyn gave up as she was tired.

OBSERVATION 3

Nursery Rhymes / Actions

This observation took place at Demilyn's house.

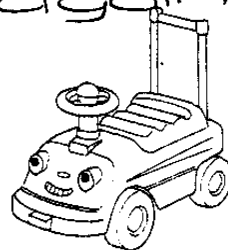

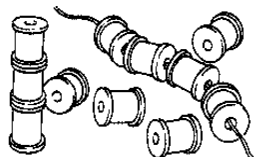

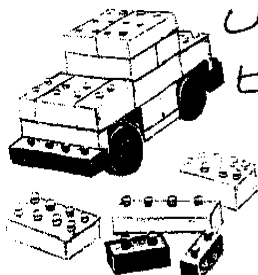

Demilyn was very hyperactive because she had just visited her cousins.

Demilyn was very interested in wanting to sing and she wanted to put her sing-a-long tape on, that made it easier because I could concentrate more on her actions.

We sang Twinkle Twinkle Little Star because it is Demilyn's favourite and was the first on the tape.

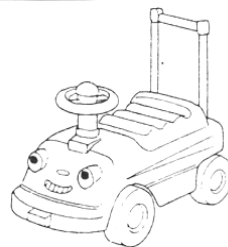

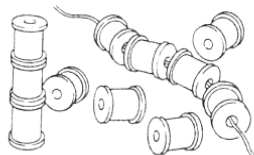

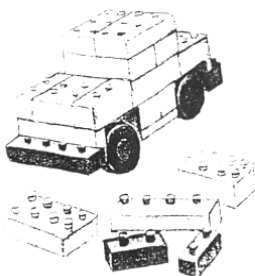

Demilyn was jumping up and down and pointing at the sky, because Demilyn liked that one

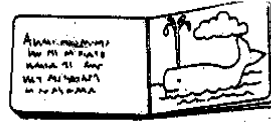

we did it again but this time I

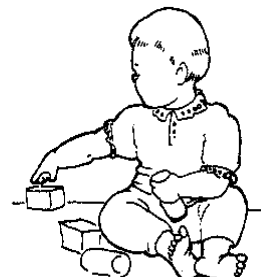

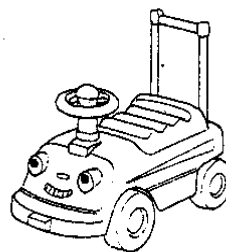

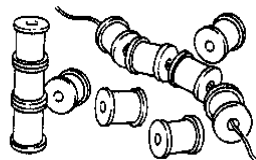

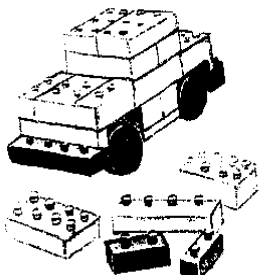

made different actions with my hands and Demilyn really tried hard to copy me, by this time Demilyn was getting restless, I suppose it was because she'd been out all day. As a result to Demilyn's tiredness I had to calm her down or she would have got very mardy.

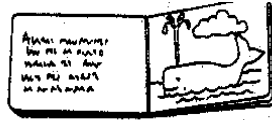

Activity	can she use a pencil properly?	does she use her hands steadily?	does she use her hands rapidly?
Drawing	no, quite as well as a pencil is meant to be held.	no, she likes to just scrawl along the page.	yes, she cannot draw much that means anything such as a tree or man.

I visited Demillyn about 7:00pm on 27th October, it also took place at my house and she was drawing for about 15 minutes.

OBSERVATION

L

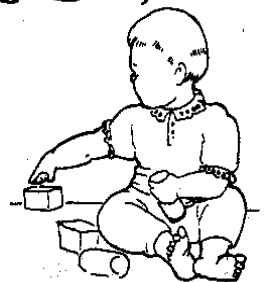

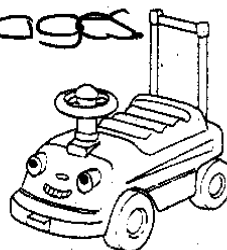

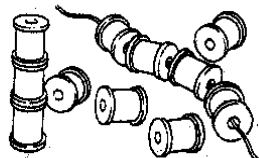

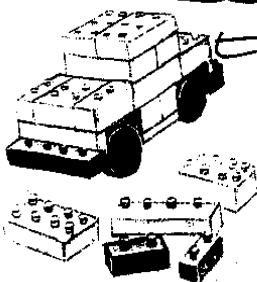

Drawing.

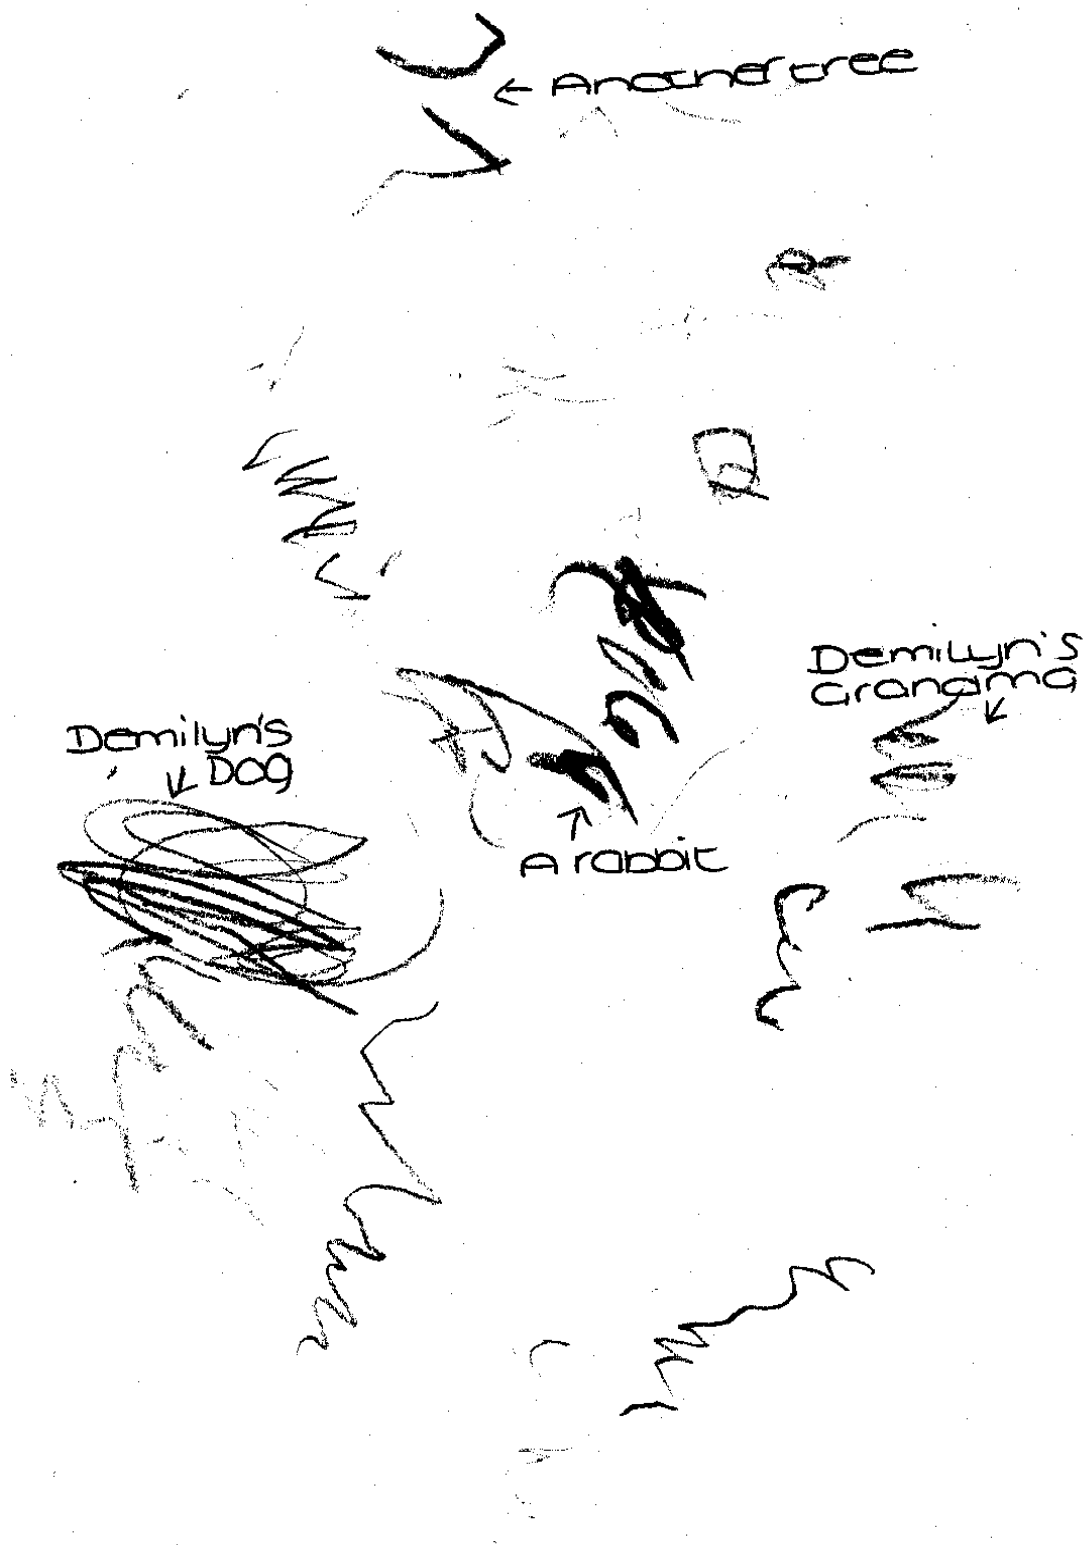

This visit took place at my house because Demilyn was sleeping the night. Demilyn was in a good mood and she'd just been to sleep so she was fully aware of what I was asking her.

Demilym does not hold a pencil properly but she manages.

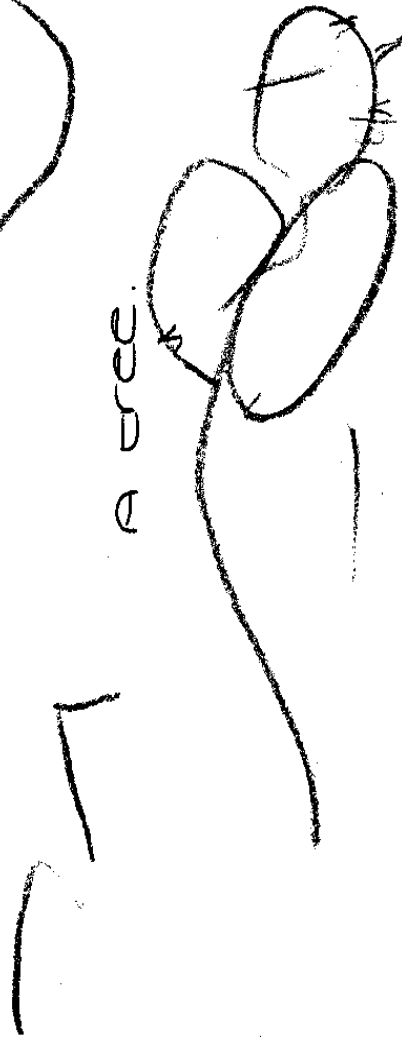

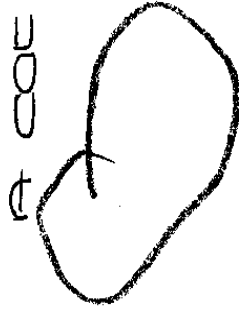

Demilyn cannot draw objects e.g trees or cats, I asked her and she drew me a little scribble, Demilyn loves to draw and thinks she is drawing real objects.

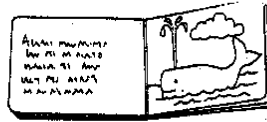

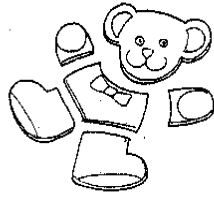

Some of her work is on the other pages.

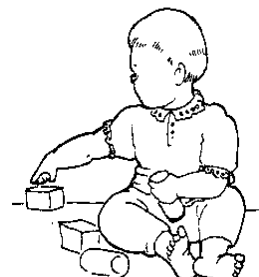

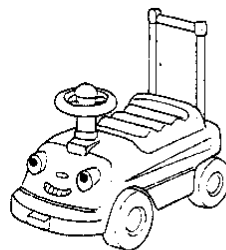

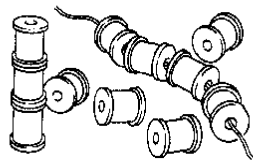

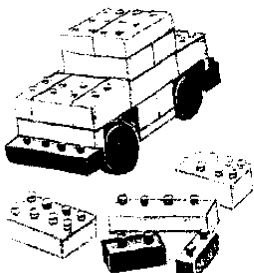

Her name with
me holding
a paper with
her
Dermilyn

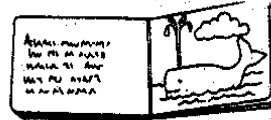

Activity	Does Demi use both her hands?	Does Demi struggle with buttons?	Which does she cope best with: buttons or buttons?
Dressing/ Undressing	yes	yes, she needs help when doing buttons up but not undoing them.	Demi can not tie

I visited Demilyn about 10:00am on 30th October, the visit took place at her house.

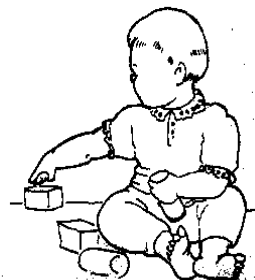

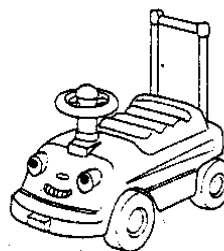

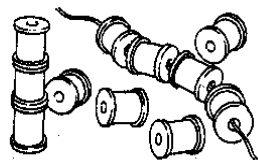

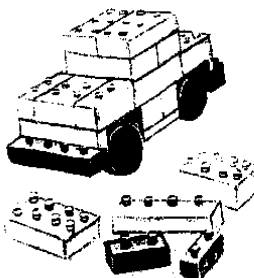

OBSERVATION 5

Dressing/Undressing

The visit took place at Demilyn's house, I had to go at 10:00am because I had to catch Demilyn getting ready.

Demilyn can get dressed all by herself, she is not that good at doing buttons up but is alright when she has a little help. Demilyn cannot tie her shoes but I suppose she is not old enough.

Overall Demilyn is very good at coping by herself except for ties. Demilyn co-operated very well, I think that was because it was a daily thing.

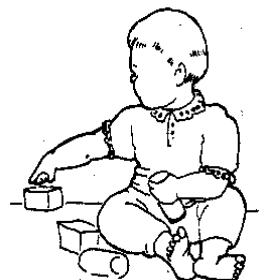

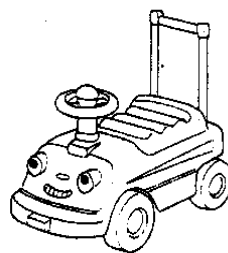

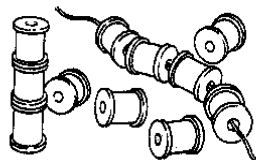

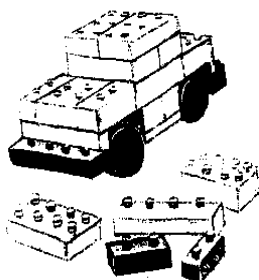

APPLICATION OF KNOWLEDGE.

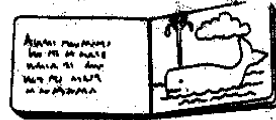

PHYSICAL DEVELOPMENT

✿ At 30 months a child should be able to,

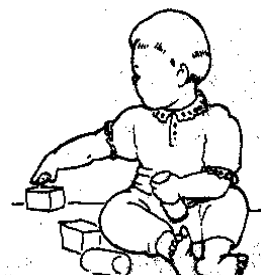

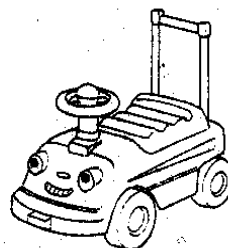

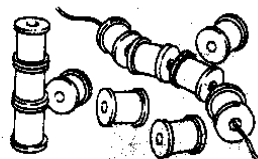

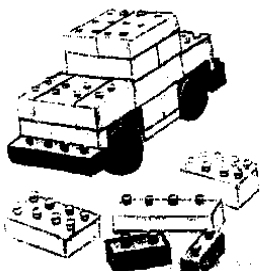

- * Jumps.
- * tiptoes
- * begins to point something meaningful
- * threads beads.

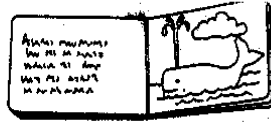

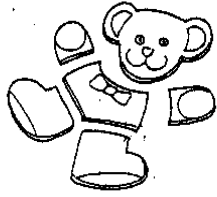

Application of
knowledge.

What she should be able to do.	What Demilyn can do.
Demilyn should be able to jump stably.	Demilyn can jump.
Use a ball without falling over.	Demilyn is stable while being a ball.
Undress herself, dress herself but need help with buttons.	Demilyn has no problem undressing herself. Demilyn has no problem dressing herself but needs help with buttons & ties.
Walk up & down stairs easily.	Demilyn can do this fairly good.

Comparing Demilyn
with a child around the
same age as her.

Demilyn	Sam.
<u>Throwing and catching a ball</u>	
Demilyn uses both hands to throw the ball and only sometimes can catch the ball.	Sam uses both hands too and he can catch the ball everytime he is thrown it.
<u>meals/eating</u>	
Demilyn uses both hands, she is quite capable except when something has not	Sam also uses both hands but sam is also very messy.
