Shawl	— —
Socks	€1.00 - €2.99
Cardigans	€5.99 - €9.99
Bonnetts	€2.50 - €4.00

Evaluation

I have found out that the Cot, Pushchair and Car seat is what the people I asked chose as the most necessary equipment for their babies. Also 3 people chose the pram as well but only 1 person chose the baby alarm. Out of all the people I asked nobody chose the Moses basket. The pram was the most expensive costing from around £199.99 - £249.99. The pushchair and the Car seat was also quite expensive. Which is unfair because they are quite necessary things that a baby needs.

The most necessary Layette items that the people chose were the Vests and baby grows. 3 people chose that the baby grows were the most expensive. They also said that the Cardigans and Shawl were the most expensive. The baby grows are very expensive costing from around £11.99 - £13.00.

Strengths / Weaknesses

I think I have done quite well with this resource task. I have used bright colours and made my graphs clear and presentable. So that I can get a clearer view of opinions of people, I should of gave my questionnaire to more people.
