2 A student has a desktop computer at home.

2 (a) The desktop computer system includes the following.

Label	
A	printer
B	mouse
C	screen
D	scanner
E	keyboard
F	processor box

Label	
G	1 Megabyte RAM memory
H	100 Gigabyte Hard Disk drive
I	DVD drive
J	modem
K	router
L	flash memory stick

2 (a) (i) Write in the box the label of **one** input device.

(1 mark)

2 (a) (ii) Write in the box the label of **one** output device.

(1 mark)

2 (a) (iii) Write in the box the label of **one** backing storage device.

(1 mark)

2 (b) At the student's home, several computers can access the Internet at the same time.

2 (b) (i) Write in the box the label of the device that is needed to access the Internet.

(1 mark)

2 (b) (ii) Write in the box the label of the device that is needed for several computers to have access at the same time.

(1 mark)

2 (c) Describe **two** ways to increase the speed at which the student's computer can access the Internet.

Way 1:.....

- 3 A finance officer uses a spreadsheet to record sales from an equipment shop. This is part of the spreadsheet.

	A	B	C	D
1	Sales	13/06/2008		
2				
3	Description	Price	Quantity Sold	Sales Value
4	Trolley jack	£24.50	6	£147.00
5	Digital thermometer	£70.00	5	£350.00
6	Generator	£500.00	3	£1500.00
7	Pressure washer	£120.25	4	£481.00
8	Drill	£55.00	10	£550.00
9				
10			Total Sales Value =	£3,028.00

- 3 (a) The cells in the spreadsheet contain different types of data. Complete the sentences using words from this list:

an equation
currency
a formula
a date
a number

3 (a) (i) The content of cell D5 is (1 mark)

3 (a) (ii) The format of cell D5 is (1 mark)

3 (b) Write down the formula in cell D10.

..... (2 marks)

3 (c) (i) The price of a generator is reduced to £400.00. When the spreadsheet was edited, the values displayed in some cells changed automatically.
Write in the box the cell reference of **one** cell that changed automatically.

(1 mark)

3 (c) (ii) Explain why the value displayed in this cell changed automatically.

5 A garden centre uses a computer controlled greenhouse to grow plants. The computer is in the garden centre office which is remote from the greenhouse.

The computer can:

- turn the heater on or off
- turn the water sprinklers on or off
- open or close the windows.

The plants will die if the temperature is too hot or too cold, or the humidity is too wet or too dry.

- 5 (a) Complete the sentences using words from this list:
 actuators
 tractors
 agricultural workers
 sensors
 digital cameras

5 (a) (i) To collect data from the greenhouse, the computer uses.....
(1 mark)

5 (a) (ii) To alter the temperature and humidity in the greenhouse, the computer
 uses
(1 mark)

5 (b) In the context of the computer controlled greenhouse, describe what is meant by
feedback.

.....

.....

.....

.....

.....

.....

(3 marks)

5 (c) Discuss the advantages and disadvantages to the garden centre in using a computer
 controlled greenhouse.

6 (a) Data is entered into a computer from a questionnaire. This data is verified and then validated.

6 (a) (i) Tick **one** box to show a verification check.

	Tick one box
One person enters the data from the questionnaire; the same person enters the same data again	
One person enters the data from the questionnaire; another person enters the data from the same questionnaire; the computer checks that both people have entered the same data	
A table lookup can be used, for example, to check spelling	
A type check can be used, for example, to check there are no numbers in someone's name	
The person who filled in the questionnaire is asked to sign it	

(1 mark)

6 (a) (ii) Describe **one** other verification check.

.....

(1 mark)

6 (a) (iii) State the purpose of verification.

.....

(1 mark)

6 (b) A range check has been set up in a spreadsheet to accept numbers within the range 0 to 10. The spreadsheet is being tested.

6 (b) (i) Tick **two** boxes to show tests that should be done and their expected outcome.

	Tick two boxes
Enter the letter B and this is accepted	
Enter the number -6 and this is accepted	
Enter the number 15 and this is accepted	
Enter the number 12 and this is rejected	
Enter the number 0 and this is accepted	

(2 marks)

6 (b) (ii) Complete the sentence to describe **one** other test and its expected outcome.

Enter the number and this is
(1 mark)

6 (c) A desktop computer is not working properly and a technician has been asked to repair it. The technician sets up the computer and switches on the power at the electric socket. The screen remains blank and does not show any activity.

6 (c) (i) Tick **one** box to show what the technician should check.

	Tick one box
The zip drive has a disk in it	
The computer has been switched on at the processor box	
The computer has a DVD drive	
The PDA is not attached to the computer	
There are no USB cables plugged into the computer	

(1 mark)

6 (c) (ii) Describe **one** other check the technician should make.

7 A computer controlled fork lift truck is used in a warehouse.

These are examples of instructions that can be used to control the fork lift truck.

Instruction	What the fork lift truck does
L90	Turn left 90 degrees
R90	Turn right 90 degrees
F3	Move forward 3 units
U3	Lift the forks to the third shelf
Push	Move the load onto the shelf
Pull	Take the load off the shelf

This is a floor plan of the warehouse.

Beginning at the Start shown, these instructions make the fork lift truck take the load off the 4th shelf at position H.

F2
R90
F3
L90
U4
Pull

7 (a) Write the instructions so that the fork lift truck puts a load on the 3rd shelf at position C. Begin at the Start shown.

.....
.....
.....
.....
.....
.....

(3 marks)

7 (b) When the fork lift truck was at the Start shown it was given these instructions:

- F2
- L90
- F3
- L90
- U5
- Push

7 (b) (i) Explain why these instructions do not place the load on the 5th shelf at B.

.....
.....

(1 mark)

7 (b) (ii) Describe what happens to the load.

.....
.....

(1 mark)

Question 7 continues on the next page
