Unit 3: Understanding ICT
Systems in Everyday Use and
its Implications for Individuals,
Organisations, Society and
the Wider World

[GIT31]

GIT31

THURSDAY 6 JUNE, MORNING

TIME

2 hours.

INSTRUCTIONS TO CANDIDATES

Write your Centre Number and Candidate Number in the spaces provided at the top of this page.

You must answer the questions in the spaces provided. Do not write outside the box, around each page or on blank pages.

Complete in blue or black ink only. **Do not write in pencil or with a gel pen.** Answer **all twenty-one** questions.

INFORMATION FOR CANDIDATES

The total mark for this paper is 180.

Figures in brackets printed down the right-hand side of pages indicate the marks awarded to each question or part question.

Quality of written communication will be assessed in questions **3(c)(ii), 5(a), 7(a), 9(c), 13(b), 14(b) and 20(a).**

For question 1 parts (a)–(l) insert the appropriate letter in the space provided.

Marks Remark

1 (a) A WAN is:

- A A World Area Network
- B A Wide Applications Network
- C A Wide Area Network
- D A World Applications Network

Answer _____ [1]

(b) RSI is:

- A Repetitive Strain Injury
- B Repetitive Serious Injury
- C Realtime Strain Injury
- D Realtime Serious Injury

Answer _____ [1]

(c) The law designed to protect against software copying is:

- A The Copyright, Designs and Software Act
- B The Copyright, Designs and Patents Act
- C The Copyright, Data and Patents Act
- D The Computer, Data and Software Act

Answer _____ [1]

(d) ADSL is:

- A Asymmetric Data Subscriber Line
- B Asymmetric Digital Sensor Line
- C Asymmetric Digital Subscriber Line
- D Asymmetric Data Sensor Line

Answer _____ [1]

Marks Remark

(e) Four main features of a GUI are:

- A Windows, Icons, Applications, Menus
- B Icons, Menus, Pointers, Windows
- C Software, Icons, Applications, Menus
- D Menus, Icons, Pointers, Software

Answer _____ [1]

(f) Which statement is true about ROM?

- A ROM can be written to but not read from.
- B ROM holds the programs currently being used by the computer system.
- C ROM can be read from but not written to.
- D Programs stored in ROM can be updated.

Answer _____ [1]

(g) Which statement is true about RAM?

- A RAM is non-volatile and the amount of RAM in a computer cannot affect its performance.
- B RAM is non-volatile and the amount of RAM in a computer can affect its performance.
- C RAM is volatile and the amount of RAM in a computer cannot affect its performance.
- D RAM is volatile and the amount of RAM in a computer can affect its performance.

Answer _____ [1]

(h) A template is:

- A a program which helps the user to complete a task
- B a standard layout for a document which can be reused
- C a program which protects the computer against viruses
- D a document which has been merged with a database

Answer _____ [1]

[Turn over

(i) Select the statement which is true about a LAN.

- A** A LAN is a Logical Area Network, allows peripherals to be shared and has a file server for storing software.
- B** A LAN is a Local Area Network, allows data to be shared across the Internet and has a file server for storing software.
- C** A LAN is a Local Area Network, allows peripherals to be shared and allows users to share data.
- D** A LAN is a Logical Area Network, allows data to be shared and has a file server for storing software.

Answer _____ [1]

(j) Select the statement which is true about a fax machine.

- A** It must be switched on to receive faxes and can transmit hand written documents.
- B** It does not need to be switched on to receive faxes and can transmit hand written documents.
- C** It must be switched on to receive faxes and cannot transmit handwritten documents.
- D** It cannot transmit handwritten documents and information received can be edited electronically.

Answer _____ [1]

(k) Select the statement which is true about EFTPOS.

- A** It provides itemised receipts but does not allow payments to be processed.
- B** It allows barcodes to be scanned but does not allow payments to be processed.
- C** It provides itemised receipts but does not allow barcodes to be scanned.
- D** It provides itemised receipts and allows payments to be processed.
