KEY SKILLS GUIDANCE

OCR GCSE IN INFORMATION AND COMMUNICATION TECHNOLOGY A (1994), (SHORT COURSE) (1094)

Introduction

Key Skills are central to successful employment and underpin future success in learning independently. Whilst they are certificated separately, the Key Skills guidance for this qualification has been designed to support the teaching and learning of the content. Opportunities for developing the generic Key Skills of Communication, Application of Number and Information Technology are indicated through the use of a  'key symbol' in Section C of the specification. The wider Key Skills of Working with Others, Problem Solving and Improving Own Learning and Performance may also be developed through the teaching programmes associated with the specification.

The following matrix indicates those Key Skills for which opportunities for at least some coverage of the relevant Key Skills Unit exist within Information and Communication Technology A.

	Communication	Application of Number	IT	Working with Others	Improving Own Learning and Performance	Problem Solving
Level 1	✓	✓	✓	✓	✓	✓
Level 2	✓	✓	✓	✓	✓	✓

This document offers detailed guidance on the Key Skills evidence that a candidate might produce during the course. It focuses on the evidence required to meet the criteria for the internally assessed Key Skills portfolio. For example, in producing the work for assessment as evidence of C2.1a (Contribute to a discussion about a straightforward subject) a candidate is required to:

- Make clear and relevant contributions in a way that suits their purpose and situation.
- Listen and respond appropriately to what others say.
- Help to move the discussion forward.

The Key Skills and Evidence Requirements on the following tables are quoted from Part B of the QCA Key Skills specification and, as such, are addressed to the candidate. The Opportunities for Development provide guidance for teachers about how the specification might be used to provide teaching and learning opportunities and/or assessment opportunities for the Key Skill.

For further information about the requirements of these units, teachers should refer to QCA's Key Skills specifications (2000 version).

For further information about the assessment and certification of Key Skills, teachers should contact OCR.
