All of the coursework tasks can be centred on either real or imaginary organisations.

**The assignments above offer guidance only** as to the types of activities that candidates might wish to undertake to fulfil the requirements of the coursework units. In completing the assignments, candidates must identify the data requirements, select the correct hardware and software and design a system that would be appropriate in the set context. Candidate portfolios will be assessed in accordance with the marking criteria for internally assessed work outlined on page 40 of the specification.
