- Additional Exemplar Tasks: Controlled Assessment Writing

Autumn 2011

Many teachers have requested examples of tasks they can use with more able students. The tasks in this booklet show how the contexts and topics in the specification can form the basis of tasks which are both stimulating and engaging. In some cases, we have shown how they can be adapted for use with students of differing abilities. In most cases, however, these tasks will be most suitable for use with more able students. They would be particularly appropriate for students who plan to progress beyond GCSE in the future.
