#### **Having Children**

Having children is a wonderful experience but it can also be very demanding for both parents. Parenthood can be described as a 24-hour a day, 365 days a year job, with no time off, no pay and little recognition. Most women find they take on the main responsibility for childcare. Mothers may find it difficult to manage the change with having a career, going out socially and doing things on the spur of the moment to looking after a demanding baby, having a reduced social life and less money to spend.
