Learning for Life and Work: Modular

Unit 4

Personal Development

[GLW51]

FRIDAY 9 MAY, MORNING

SOURCE A

Insert: Personal Development

For use with Questions 4 and 5.

SOURCE A

Managing Risk Taking Behaviour

Through the school curriculum, e.g. Home Economics and Learning for Life and Work, teachers can help young people learn about the dangers of smoking cigarettes, drinking alcohol and taking illegal drugs, etc.

Visiting guest speakers can help to get the message across to young people about the risks they may face and challenge many of the ideas they may have about anti-social and sexual behaviour.

Young people and their peers may become involved in negative risk taking behaviour and must be aware of the consequences of their actions. For example, a group of underage teenagers drinking alcohol and behaving badly may affect the community where they live especially elderly people, neighbours and parents with young children.

Positive risk taking is more likely to give a young person and their peers a sense of achievement through taking up new challenges or raising money for charity.
