

Mathematics C (Graduated Assessment)

General Certificate of Secondary Education

Unit **B275**: Module M5 (Sections A&B)

Mark Scheme for January 2011

OCR (Oxford Cambridge and RSA) is a leading UK awarding body, providing a wide range of qualifications to meet the needs of pupils of all ages and abilities. OCR qualifications include AS/A Levels, Diplomas, GCSEs, OCR Nationals, Functional Skills, Key Skills, Entry Level qualifications, NVQs and vocational qualifications in areas such as IT, business, languages, teaching/training, administration and secretarial skills.

It is also responsible for developing new specifications to meet national requirements and the needs of students and teachers. OCR is a not-for-profit organisation; any surplus made is invested back into the establishment to help towards the development of qualifications and support which keep pace with the changing needs of today's society.

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which marks were awarded by Examiners. It does not indicate the details of the discussions which took place at an Examiners' meeting before marking commenced.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes should be read in conjunction with the published question papers and the Report on the Examination.

OCR will not enter into any discussion or correspondence in connection with this mark scheme.

Marking instructions for examiners (January 2011)**GCSE Mathematics C (Graduated Assessment) – J517
Units B271 to B282****Marking instructions**

1. Mark strictly to the mark scheme.
2. Make no deduction for omission of units except as indicated on the mark scheme (although if this leads to a later error this will of course be penalised).
3. Work crossed out but not replaced should be marked.
4. **M** (method) marks are not lost for purely numerical errors.
A (accuracy) marks depend on preceding **M** (method) marks. Therefore **M0 A1** cannot be awarded.
W (workless) marks are independent of **M** (method) marks and are awarded for a correct final answer or a correct intermediate stage.
5. Subject to 4, two situations may be indicated on the mark scheme conditioning the award of **A** marks or independent marks:
 - i. Correct answer correctly obtained (no symbol)
 - ii. Follows correctly from a previous answer whether correct or not (“FT” on mark scheme and on the annotations tool).
6. As a general principle, if two or more methods are offered, mark only the method that leads to the answer on the answer line. If two (or more) answers are offered, mark the poorer (poorest).
7. Always mark the greatest number of significant figures seen, even if this is then rounded or truncated on the answer line, unless the question asks for a specific degree of accuracy.
8.
 - i. Allow full marks if the correct answer is seen in the body and the answer given in the answer space is a clear transcription error, unless the mark scheme says ‘mark final answer’ or ‘cao’.
 - ii. Allow full marks if the answer is missing but the correct answer is seen in the body.
 - iii. Accuracy marks for an answer are lost if the correct answer is seen in the working but a completely different answer is seen in the answer space. Method marks would normally be given.
9. When the data of a question is consistently misread in such a way as not to alter the nature or difficulty of the question, please follow the candidate’s work and allow follow through for **A** and **W** marks. Deduct 1 mark from any **A** or **W** marks earned and record this by using the **MR** annotation. **M** marks are not deducted for misreads.

10. For methods not provided for in the mark scheme give as far as possible equivalent marks for equivalent work.
11. For answers scoring no marks, you must either award NR (no response) or 0, as follows:
Award NR if:
 - Nothing is written at all in the answer space
 - There is a comment which does not in any way relate to the question being asked (“can’t do”, “don’t know”, etc.)
 - There is any sort of mark that is not an attempt at the question (a dash, a question mark, etc.)Award 0 if:
 - There is any attempt that earns no credit. This could, for example, include the candidate copying all or some of the question, or any working that does not earn any marks, whether crossed out or not.
12. Where a follow through (FT) mark is indicated on the mark scheme for a particular part question, you must ensure that you refer back to the answer of the previous part question.
13. In cases where there is clear evidence that a calculator has been used in section A, mark the script as normal then raise an exception.
14. Anything in the mark scheme which is in square brackets [...] is not required for the mark to be earned, but if present it must be correct.

Abbreviations

The following abbreviations are commonly found in GCSE Mathematics mark schemes.

- Where you see **oe** in the mark scheme it means **or equivalent**.
- Where you see **cao** in the mark scheme it means **correct answer only**.
- Where you see **soi** in the mark scheme it means **seen or implied**.
- Where you see **www** in the mark scheme it means **without wrong working**.
- Where you see **rot** in the mark scheme it means **rounded or truncated**.
- Where you see **seen** in the mark scheme it means that you should award the mark if that number/expression is seen anywhere in the answer space, including on the answer line, even if it is not in the method leading to the final answer.
- Where you see **figs 237**, for example, this means any answer with only these digits. You should ignore leading or trailing zeros and any decimal point e.g. 237000, 2·37, 2·370, 0·00237 would be acceptable but 23070 or 2374 would not.

Section A

1	(a)	Thorpe (Farm)	1		
	(b)	5487	1		condone separators eg comma, full stop or brackets condone 54x 87y
	(c)	2200 – 3600	1	allow 2·2 - 3·6 if km is stated	
2	(a)	37·2	1		NOT 37·20
	(b)	40	1		
3	(a)	5a + 13b final answer	2	M1 for 5a or 13b seen or 3a + 2a + 6b + 7b oe	NOT -13b
	(b)	(i) 7	1		condone embedded answer including 7+5
		(ii) $^{-}3$	2	M1 for $4x = 5 - 17$ or better or for $x = \frac{c}{4}$ soi after $4x=c$ seen. Award 2 marks if flowchart used correctly and the correct answer is seen at the end if the answer line is blank	condone fully embedded answer a fully correct flowchart scores M1
4	(a)	3^5	1		5 must not be on the line
	(b)	73	2	M1 for 64 or 9 soi	
5	(a)	$\frac{3}{5}$	1		
	(b)	(i) $\frac{3}{10}$	1		ISW if there is a clear attempt at simplification
		(ii) $^{-}15$	1		

6	<p>(0)·65 (or $\frac{65}{100}$ oe) <u>and</u> (both probabilities) add to 1 or one of 35 and 65 adding to 100 <u>Or</u> 65% <u>and</u> (both probabilities) add to 100</p>	2	<p>1 for either (0)·65 oe or ‘add to give 1(100)’ accept any correct statement about the probabilities adding to 1 or 100</p>	<p>condone “add to a whole (or hole) ...” or implied : “1 - 0·35 “ or “you take (0) ·35 from 1” NOT “add to a whole number..” SC2 for (0)·65 (or $\frac{65}{100}$ oe) and “add to (subtract from) 100 and put a 0· in front”</p>
7	<p>(a) one correct comment on the mean such as “11A have a higher average (or mean)” <u>and</u> one correct comment on the range such as “11B have a larger spread(or range)”</p>	1	allow any correct comment	accept two correct comments in one space and mark the best two comments
	(b) 63	1		
8	(a) C and M	1		
	<p>(b) 72 www <u>Or</u> 72 000 www</p> <p>cm³ (with 72) <u>Or</u> mm³ (with 72 000)</p>	2	<p>1 for two correct measurements seen from 6, 4 and 3 or 60, 40 and 30 (<i>these may be on the diagram</i>) Or M1 for <i>their</i> three measurements multiplied together</p>	<p>Note : 72³ scores 2,0 ,</p> <p>Condone cc for cm³</p>
		1	<p>1 for units cm³ or mm³ if answer > 1000 or one measurement > 10</p>	

Section A Total: 25

Section B

9	(a)	472	2	M1 for $35 \times 14 - 18$ seen or better or 490 seen										
	(b)	536	2	M1 for $7 \times 48 + 12.5 \times 16$ seen or better or either 336 or 200 seen allow £5.36(p) for 2 marks if units included										
10		68	2	M1 for $\frac{17}{25} \times 100$, $100 \div 25$ or 4 seen	not $\frac{1}{4}$									
11	(a)	12	2	M1 for 90 or $\frac{1}{4}$ or $\div 4$ seen	allow marks for work on pie chart									
	(b)	correct and labelled sector	2	allow angle $117^\circ - 123^\circ$ M1 for $\frac{16}{48} \times 360$, 120 or $\frac{1}{3}$ seen or correct unlabelled sector	allow freehand line									
12	(a)	<table style="border: none; margin: 0; padding: 0;"> <tr><td>✓</td><td>✓</td><td>✓</td></tr> <tr><td>✓</td><td>✓</td><td>✓</td></tr> <tr><td>x</td><td>x</td><td>✓</td></tr> </table>	✓	✓	✓	✓	✓	✓	x	x	✓	3	1 for each correct row (count correct columns and award marks for these if this gives a better result than rows)	
✓	✓	✓												
✓	✓	✓												
x	x	✓												
	(b)	Q	1	allow any indication of property Q										
13	(a)	correct triangle ie sides AC and BC within tolerance	2	allow sides to be 5.8 - 6.2 cm M1 for either AC or BC within tolerance and ABC must be a triangle										
	(b)	5 - 5.4	1	must FT <i>their</i> diagram if 0 or 1 scored in (a)										

14	(a)	2 (6) 10 14	1		
	(b)	correct ruled line	2	M1 for three points plotted correctly (FT <i>their</i> table)	
15		correct drawing	1		condone a freehand line
16		4·50 www	4	M1 for $65 \times 0\cdot3$ oe M1 for $65 - \textit{their}$ '19·5(0)' (Or M2 for $65 \times 0\cdot7$) M1 for $50 - \textit{their}$ '45·5(0)' soi <u>Or</u> numbers seen; 3 for answer of 4·5 2 for 45·5(0) or 30·5(0) 1 for 19·5(0)	ignore p on the answer line can be implied by answer eg <i>their</i> 45·5 + <i>their</i> answer = 50 eg 35 with answer of 15 scores M1
