## **GCSE Religious Studies B**

OCR GCSE in Religious Studies: J621

Unit: B603 (Christianity)

These candidate style answers are designed to accompany the OCR GCSE Religious Studies B specification for teaching from September 2009.

## GCSE Religious Studies B

## B603 Ethics 1 (Relationships, Medical Ethics, Poverty and Wealth)

OCR has produced these candidate style answers to support teachers in interpreting the assessment criteria for the new GSCE specifications and to bridge the gap between new specification release and availability of exemplar candidate work.

This content has been produced by senior OCR examiners, with the support of the Qualification Manager, to illustrate how the sample assessment questions might be answered and provide some commentary on what factors contribute to an overall grading. The candidate style answers are not written in a way that is intended to replicate student work but to demonstrate what a "good" or "excellent" response might include, supported by examiner commentary and conclusions.

As these responses have not been through full moderation and do not replicate student work, they have not been graded and are instead, banded "medium" or "high" to give an indication of the level of each response.

Please note that this resource is provided for advice and guidance only and does not in any way constitute an indication of grade boundaries or endorsed answers.

14e) "People must look after their family before they worry about the poor." Discuss this statement. You should include different, supported points of view and a personal viewpoint. You must refer to Christianity in your answer. (12)	
Candidate style answer	Examiner's commentary
Natural human instinct dictates that we look after our family, and others that we know well, before we look after those that we don't know personally.	<b>High level response</b> This answer would score very high marks because it tries to give a balanced answer, using the word family in a personal and wider sense. The candidate explains that caring for your own
In fact many animals also operate with this social structure, with the parents looking after their offspring but not helping others. However, Christians would not agree	family goes without saying and caring for your own family goes without saying and caring for others should be equally important for Christians. The candidate appears to have recognized the idea of timing in that it is of course important to care for the poor once your own family are looked after.
with this statement. Christian teachings are that they have a duty to help the poor and those in need of help. Whilst of course, Christians should look after their own family, they cannot use this as a reason not to help others as well.	The Christian response to caring for the poor as a duty is explained and backed up with relevant biblical teachings. Although the quotation <i>"love</i> <i>your neighbour as yourself"</i> has been wrongly attributed, it is relevant within the context of the answer and would be credited.

<i>it is easy to support poor people in other countries by supporting one of the charities who work in these areas eg OXFAM or CAFOD.</i>	
Some people, like Mother Teresa have	
given up most priority to helping the	
poor above everything else including their own friends and family.

Helping the poor is an important part of Christianity and Christians believe		
that by helping the poor they are in		
fact helping God. One of the ten		
commandments is to "love your		
neighbour as yourself".		
Christians believe we are all equal in		
the eyes of God and are all part of one		
wider family so they have a duty to		
help everyone in that wider family.		
Jesus told the parable of the Sheep and		
Goats. This showed that caring for the		
poor is the same as caring for Jesus		
and ignoring the poor is ignoring		
Jesus. When people die they will be		
judged on whether or not they have		
helped the poor.		
I think we should help people without		
money whether they are family or not.		
Just because people are poor doesn't		
mean they are stupid or lazy they often		
just need a bit of help to start with to		
grow food for there family. This is why I		
always try and help with fundraising		
in school.		
Some people, like Mother Teresa have		
given up everything to help the poor,		
but I don't think I could do this.
