#### Introduction

This is the first year of the new specification. Previously this component was assessed via Controlled Assessment and now the new specification is assessed by an examination at the end of the course of study.

Questions are set in common contexts, addressing a range of relevant contemporary and cultural themes. They are organised into five themes, each broken down into topics and sub-topics. The five themes are: Identity and culture, Local area, holiday and travel, School, Future aspirations, study and work and International and global dimension.

Each question is set in a context drawn from the themes and topics. The assessment tasks feature general content that is familiar and accessible to all students. Students are required to produce responses of varying lengths and types to express facts, ideas and opinions in Spanish. The length of each response required and complexity of language increases across the paper. Recommended word counts are specified for each question. Students will not be penalised for writing more or fewer words than recommended in the word count or for going beyond the mandatory bullet points. All questions are marked against the assessment criteria as published in the current specification. The instructions to students are all in Spanish. The use of dictionaries is not permitted.

The assessment time for paper 4H is 1 hour and 20 minutes in length and it carries 60 marks. The paper consists of two questions and one translation from English into Spanish. Students must answer all questions.

Question 1 has two options from which students have to select one. This question assesses students on their ability to convey information, narrate, express opinions, interest, and convince the reader about a certain point. Students should use the informal register. This question is common to the Foundation tier.

Question 2 has two options from which students have to select one. This question assesses students on their ability to convey information, narrate, express and justify ideas and opinions, and interest or convince the reader. Students must use the formal register.

Question 3 is the translation question. Students are required to translate a short paragraph from English into Spanish. The individual sentences are ordered by increasing level of difficulty.
