Technology and Design

Unit 3: Product Design

[GTD31] *GTD31*

MONDAY 8 JUNE, AFTERNOON

TIME

1 hour.

INSTRUCTIONS TO CANDIDATES

Write your Centre Number and Candidate Number in the spaces provided at the top of this page.

You must answer the questions in the spaces provided.

Do not write outside the boxed area on each page or on blank pages.

Questions which require drawing or sketching should be completed using an H.B. pencil. All other questions must be completed using blue or black ink only.

Do not write in pencil or with a gel pen.

Answer all eight questions.

INFORMATION FOR CANDIDATES

The total mark for this paper is 80.

Figures in brackets printed down the right-hand side of pages indicate the marks awarded to each question or part question.

Answer a	II qu	estions
-----------------	-------	---------

	hropometrics and ergonomics are important factors that need to be considered in design of products.
(i)	Outline what is meant by the term anthropometrics.
	[1]
(ii)	Explain why it is important to consider anthropometric data when designing or developing products.
	[3]
(iii)	Outline two specific anthropometric factors that would have an important influence on the design of a mobile phone. For each factor selected explain its influence on the design.
	Specific factor 1
	Influence
	[2]
	Specific factor 2
	Influence [2]

G:

Fig. 5

The design must satisfy the following specification points:

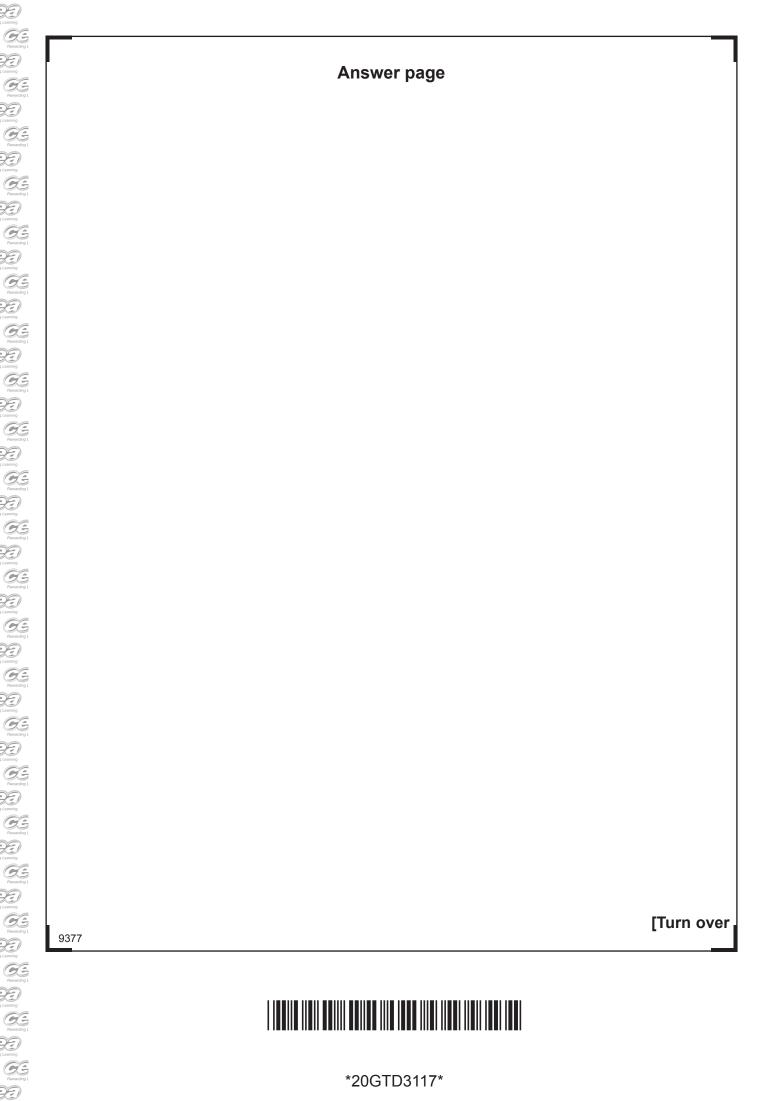

- Hold up to six cups securely. Cups need to be easily attached and removed from the holder.

 [4]
- Material(s) selection, justification and the economy of material(s) used.
- The construction of the holder must be clearly shown.
- Must be stable when resting on a kitchen worktop and holding one or more cups.

 [4]
- Must be aesthetically pleasing.
- Include good quality sketches with notes and three key overall dimensions. [6]

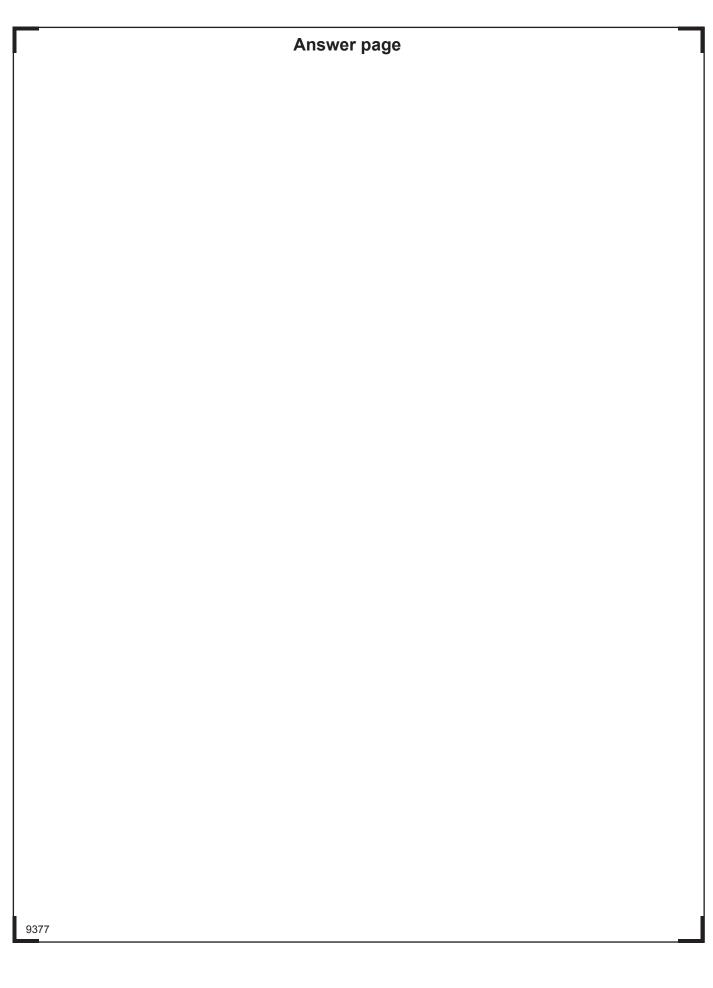

Use the next two pages for your answer.
