About Educational Testing Service

• Founded in 1947 by:

- American Council on Education
- Carnegie Foundation for the Advancement of Teaching
- College Entrance Examination Board

• ETS today

- Private, nonprofit organization devoted to educational measurement and research
- Advancing quality and equity in education for people worldwide by creating assessments based on rigorous research
- Develops, administers and scores more than 50 million tests annually — including the TOEFL[®] and TOEIC[®] tests, the GRE[®] tests and The Praxis Series[™] assessments — in more than 180 countries, at over 9,000 locations worldwide

GRE® Test Acceptance

- The GRE[®] revised General Test is the most widely accepted standardized assessment for graduate and business school
- The GRE revised General Test provides a broad, diverse applicant pool
 - More than 675,000 people from about 230 countries test each year
 - The test is widely accessible, with availability at about 700 test centers in more than 160 countries

The *GRE*[®] revised General Test Launched on August 1, 2011

Enhanced to provide even better results — with the validity, security and fairness you trust

Features a new level of sophistication in psychometric design and delivery

- More closely aligned with the skills needed to succeed in graduate and business school
- More simplicity in distinguishing performance differences between candidates
- More test-taker friendly for an enhance test experience

Verbal Reasoning Measure

- Measures reading comprehension skills and verbal and analytical reasoning skills, focusing on the ability to analyze and evaluate written material
- An emphasis on complex reasoning skills
 - More text-based materials such as reading passages
 - Less dependence on vocabulary knowledge alone; no antonyms and analogies
- New question types and new computer-enabled tasks, such as highlighting a relevant sentence to answer a question

All other trad

Quantitative Reasoning Measure

- Measures problem-solving ability, focusing on basic concepts of arithmetic, algebra, geometry and data analysis
- An emphasis on quantitative reasoning skills
 - Increased proportion of questions involving real-life scenarios and data interpretation
 - An on-screen calculator to reduce the emphasis on computation
- New question types and new computer-enabled tasks, such as entering a numerical answer

All other trad

Analytical Writing Measure

- Measures critical thinking and analytical writing skills, specifically the ability to articulate complex ideas clearly and effectively
- The Analytical Writing measure has not changed dramatically
- Test takers are asked to provide more focused responses to questions, reducing the possibility of reliance on memorized materials

Test Administration

- The GRE[®] revised General Test is administered in a secure testing environment on a continuous basis at computer-based test centers around the world
- In Mainland China, Hong Kong, Taiwan and Korea, the test is offered at computer-based test centers 1–2 times per month
- In areas of the world where the computerbased test is unavailable, paper-based tests are administered up to 3 times per year

Paper-Based GRE® revised General Test

- Will be offered up to three times per year (in October, November and February)
- First paper administration of the revised test is in October 2011
- Will continue to be a linear test
- Will contain most new question types
- Test takers will record their responses in a scannable test book
- ETS calculators will be provided to test takers for use during the Quantitative Reasoning sections

Structure of the Computer-Based GRE® revised General Test

Section	Number of Questions	Time
Analytical Writing (2 sections)	1 "Analyze an Issue" task	30 min.
	1 "Analyze an Argument" task	30 min.
Verbal Reasoning (2 sections)	Approximately 20 questions per section	30 min. per section
Quantitative Reasoning (2 sections)	Approximately 20 questions per section	35 min. per section
Unscored* (Position varies)	Varies	Varies
Research ** (At end of test)	Varies	Varies

*An unidentified unscored section that does not count toward a score may be included and may appear in any order after the Analytical Writing section.

** An identified research section may be included in place of the unscored section. The research section will always appear at the end of the test. Questions in this section are included for ETS research purposes and will not count toward your score.

Listening. Learning. Leading.*

The Computer-Based *GRE®* Verbal Reasoning and Quantitative Reasoning Sections Are Section-Level Adaptive

- The computer selects the second section of a measure based on the test taker's performance on the first section
- Within each section, all questions contribute equally to the final score
- Both sections are important, since the final score on each measure is based on the total number of correct answers and the level of difficulty of the questions

All other trad

More Test-Taker Friendly for an Enhanced Test Experience

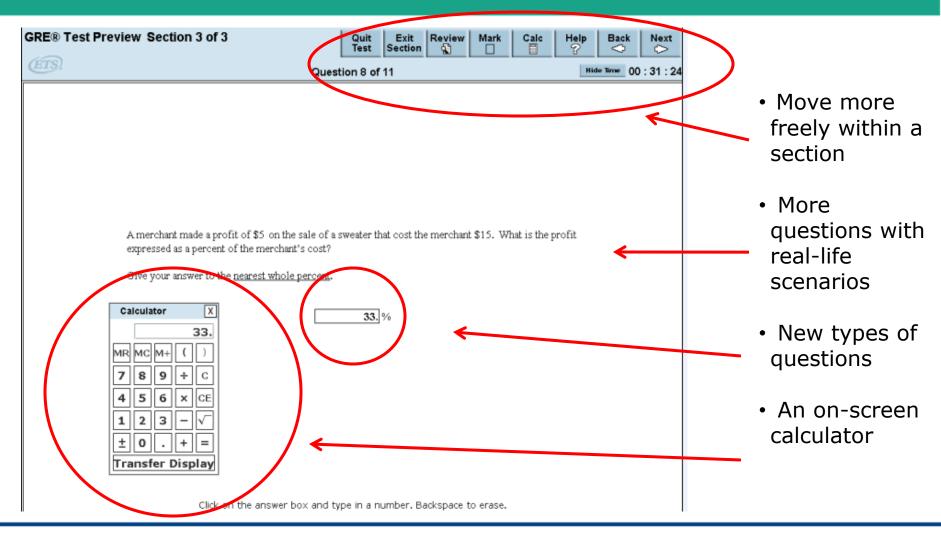

- Questions are more aligned with the types of work students will do in graduate or business school
 - includes more text-based questions and more reallife scenarios
- The test experience is enhanced
 - new functionality, including review, go back, change an answer, etc.
 - test takers can navigate freely within a timed section
- An on-screen calculator is provided on the Quantitative Reasoning measure*

*For those taking the paper-based *GRE*[®] revised General Test, calculators will be provided at the test center for use during the test.

More Simplicity in Distinguishing Performance Differences Between Candidates

 Verbal Reasoning and Quantitative Reasoning scores will be reported on a **new score scale** of 130–170, in 1-point increments

– Prior score scale: 200–800, in 10-point increments

 The Analytical Writing scores will continue to be reported on the same 0–6 score scale, in half-point increments

A New Score Report

- Along with introducing the new score scale, there will be a redesigned GRE® Score Report, starting in November 2011 (when the first GRE revised General Test scores are released)
- This score report will include concordance information to help score users compare candidates who took the GRE General Test before August 2011 with those who take the GRE revised General Test
- Information will be included in both the paper reports as well as electronic files through SCORELINK[®] Internet delivery service and CD-ROM
- Concordance tables will also be available on the GRE website

Why Did ETS Develop the PPI?

ETS[®] PPI was developed to address a need:

- Based on 10 years of groundbreaking research
- Developed in response to requests from graduate deans and admissions professionals who expressed a need for a tool that could measure noncognitive skills to offer a more "rounded" student application
- The first admissions tool that standardizes the evaluation of noncognitive skills necessary for graduate and business school

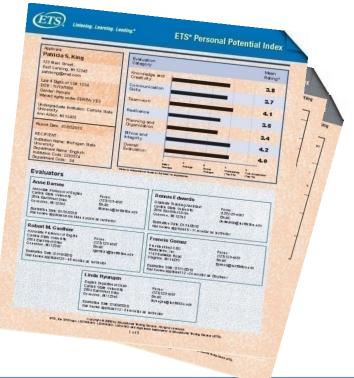

All other trad

The ETS® PPI Evaluation Report

- Yields an overall evaluation rating of the applicant
- Provides ratings on six core attributes identified as critical for success in graduate and professional school:
 - Knowledge and Creativity
 - Communication Skills
 - Teamwork
 - Resilience
 - Planning and Organization
 - Ethics and Integrity
- All GRE[®] revised General Test registrants can send four free ETS PPI Evaluation Reports

What Is the Research Basis for the *ETS*[®] PPI?

• Multiple sources:

- Input from GRE[®] Board noncognitive symposium (June 2001)
- Research by ETS scientists and others in the field
 - ${\scriptstyle \circ}$ personality theory
 - measurement of personal qualities and noncognitive skills
- Feedback from hundreds of graduate and professional school deans and faculty members
- Analysis and refinement of the instrument

Three-year pilot with:

- Project 1000 at Arizona State University
- Commitment to:
 - Ongoing validity studies exploring the relationship between these attributes and success in graduate and professional school

Verbal Reasoning: Reading Comprehension Multiple Choice — Select One Answer Choice

Questions 1 to 3 are based on this passage

Reviving the practice of using elements of popular music in classical composition, an approach that had been in hibernation in the United States during the 1960s, composer Philip Glass (born 1937) embraced the ethos of popular music without imitating it. Glass based two symphonies on music by rock musicians David Bowie and Brian Eno, but the symphonies' sound is distinctively his. Popular elements do not appear out of place in Glass's classical music, which from its early days has shared certain harmonies and rhythms with rock music. Yet this use of popular elements has not made Glass a composer of popular music. His music is not a version of popular music packaged to attract classical listeners; it is high art for listeners steeped in rock rather than the classics.

The passage addresses which of the following issues related to Glass's use of popular elements in his classical compositions?

- O How it is regarded by listeners who prefer rock to the classics
- O How it has affected the commercial success of Glass's music
- Whether it has contributed to a revival of interest among other composers in using popular elements in their compositions
- Whether it has had a detrimental effect on Glass's reputation as a composer of classical music
- Whether it has caused certain of Glass's works to be derivative in quality

Consider each of the choices separately and select all that apply.

The passage suggests that Glass's work displays which of the following qualities?

- A return to the use of popular music in classical compositions
- An attempt to elevate rock music to an artistic status more closely approximating that of classical music
- A long-standing tendency to incorporate elements from two apparently disparate musical styles

Verbal Reasoning: Reading Comprehension Select in Passage

Questions 1 to 3 are based on this passage.

Reviving the practice of using elements of popular music in classical composition, an approach that had been in hibernation in the United States during the 1960s, composer Philip Glass (born 1937) embraced the ethos of popular music without imitating it. Glass based two symphonies on music by rock musicians David Bowie and Brian Eno, but the symphonies' sound is distinctively his. Popular elements do not appear out of place in Glass's classical music, which from its early days has shared certain harmonies and rhythms with rock music. Yet this use of popular elements has not made Glass a composer of popular music. His music is not a version of popular music packaged to attract classical listeners; it is high art for listeners steeped in rock rather than the classics.

Analytical Writing: Analyze an Argument Task

"In surveys Mason City residents rank water sports (swimming, boating, and fishing) among their favorite recreational activities. The Mason River flowing through the city is rarely used for these pursuits, however, and the city park department devotes little of its budget to maintaining riverside recreational facilities. For years there have been complaints from residents about the quality of the river's water and the river's smell. In response, the state has recently announced plans to clean up Mason River. Use of the river for water sports is, therefore, sure to increase. The city government should for that reason devote more money in this year's budget to riverside recreational facilities."

Write a response in which you examine the stated and/or unstated assumptions of the argument. Be sure to explain how the argument depends on these assumptions and what the implications are if the assumptions prove unwarranted.

How Scoring for the TOEFL® Test Works

Innovation in Scoring

The *TOEFL*[®] program uses the *e-rater* [®] automated scoring engine in a limited and responsible way for the Writing section

- Independent writing task
 - one human rater + one automated rating
- Integrated writing task
 - one human rater + one automated rating

Combines the judgment of humans for content and meaning and the consistency of automated scoring for linguistic features

Score Reporting

- Scores are usually available to test takers online in 10 calendar days
- Test takers notified via email that their scores are available online
- Score reports include new information
 - Test taker's email address
 - Test center country
- Scores are sent weekly to score users receiving TOEFL[®] scores electronically or via CD-ROM
- Official paper score reports are sent to score users three times per week

Why ETS Created a Comparison Table

- Concordance tables and similar documents are published in various media
 - Some of the information on these tables is inaccurate and misleading
- Universities have asked for a way to compare TOEFL iBT[®] and IELTS[™] scores

Listening. Learning. Leading.*

Research to Support the Comparison Table

- ETS collected more than 1,100 sets of TOEFL iBT[®] and IELTS[™] scores from individuals who had taken both tests
- An equipercentile approach was applied to each IELTS band score to develop the comparison table
 - e.g., a TOEFL iBT score of 115 represents the 90th percentile of the test takers in the sample, the same as an IELTS score of 8.5

Using the Comparison Table

- The comparison table was created as an initial step for universities that wanted to compare *TOEFL iBT*[®] and IELTS[™] scores
- ETS recommends the table be used for purposes of general understanding and not for establishing cut scores
- It is not appropriate to use the comparison table to project an applicant's IELTS or TOEFL iBT score
- Follow up validity studies are recommended to validate the score comparisons

Make Scores Work for Your Institution

Reconsider your score requirements regularly and adjust as needed

- How much English is enough?
 - Different departments have different needs
 - What language skills are important for success in this program?
- Level of ESL support available on campus
- Competitive situation
 - Higher score requirements could reduce applications
 - Lower scores could result in student failure, need for ESL support, or slowing down the rest of the class

Increasing Score Requirements

- Don't automatically increase the total score
 - Increasing the total score may not meet your needs
 - Applicants can reach your minimum via points in other skills
- Ask faculty and staff which skill is most critical
 - Routinely review that section score in the admission process
