

Exam resources - Geriatric

Murtagh "the bible"

Don't forget to read all the chapters relating to Aged care. This is always the first place to start when studying each system for the exam. Ideal for the approach to the case and diagnostic options, look elsewhere for up to date management guidelines.

NPS Medicinewise News/ NPS News

These are probably the best summaries on this website

Medicines for aging population - <http://www.nps.org.au/publications/health-professional/medicinewise-news/2013/older-wiser-safer>

How to treat – Australian Doctor

The weekly Australian Doctor magazines inside section "How To Treat" have great summaries. Not all the articles are online, some are available through their iphone/ipad app or in their annual yearbooks available to purchase

<http://www.australiandoctor.com.au/education/how-to-treat>

You must be logged on and registered to be able to access the articles. It is free to register online with Australian doctor. There are lots of articles, but the main ones to focus are on some of the common or important conditions

Aged care –

GP learning – includes check and multiple choice questions

Since it's up date, only has small number of questions available. Your best options are to search for multiple choice questions, or clinical challenge.

Check GP learning closer to the exams as this is where they will give you some practice papers prior to the exam, and they give you feedback on how you went.

Text books and other resources

Murtagh – is essential reading but its greatest use is for his diagnostic framework, diagnostic triads and red flags

Medicine Today is a journal you can get for free – too much detail for the exams, but good articles

Australian Medicine Handbook – introductory pages in each section are a great way to revise management.
