

**PSYCHOLOGY  
STANDARD LEVEL  
PAPER 1**

Monday 17 November 2003 (afternoon)

2 hours

---

**INSTRUCTIONS TO CANDIDATES**

- Do not open this examination paper until instructed to do so.
- Section A: answer all the questions.
- Section B: answer one question.

## SECTION A

Answer **all** questions in this section. Marks will be awarded for clear presentation of **theories**, inclusion of appropriate **empirical studies** and **evaluation**. When structured questions are set (that is, with parts a and b) candidates should clearly label each part of their answer a and b.

### Biological Perspective

1. Explain why a reductionist approach adopted by many biological psychologists is controversial. [8 marks]

### Cognitive Perspective

2. (a) With reference to **one** research study, describe the main features of **one** method of investigation used by cognitive psychologists. [4 marks]
- (b) Outline **one** strength and **one** limitation of this method. [4 marks]

### Learning Perspective

3. Identify and evaluate **one** contribution of the learning perspective to the scientific study of behaviour. [8 marks]

**SECTION B**

Answer **one** question in this section. Marks will be awarded for clear presentation of **theories**, inclusion of appropriate **empirical studies** and **evaluation**.

4. “Behavioural change can be regarded as arising from an interaction between innate disposition and environmental factors.”

Describe and evaluate theories or studies within the biological perspective related to this statement.

[20 marks]

5. To what extent is determinism integral to the cognitive perspective? Illustrate your answer using relevant theories and studies.

[20 marks]

6. Consider ways in which the learning perspective has produced recommendations for change in lifestyles.

[20 marks]
