UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS

International General Certificate of Secondary Education

MARK SCHEME for the May/June 2009 question paper for the guidance of teachers

0452 ACCOUNTING

0452/03

Paper 3, maximum raw mark 100

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the May/June 2009 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

[3]

(d) Financial information is only relevant if it can be used –

To correct or confirm prior expectations about past events
To assist in forming, revising or confirming expectations about the future
As a basis for financial decisions
In time to be able to influence decisions

Explanation of any 1 point (2)

[2]

(e) (ii) Money measurement

Accounts only record information which can be expressed in monetary terms. (1) This means that many factors which affect the performance of a business will not appear in the accounting records. (1)

[2]

[2]

(iii) Time factor

Accounting statements are a record of what has happened in the past. (1)

Either They are not necessarily a guide to future performance (1)

Or Significant events can occur between the end of the financial period and the time when the accounting statements are available. (1)

(c) (i) Either

Opening balance or closing balance (1)

Opening/closing bank balance is neither income nor expenditure for the year as it represents the amount of money in the bank on that particular date. (1)

Or

Transfer to bank deposit account (1)

Transferring money from one bank account to another is neither income nor expenditure. (1)

Or

Purchase of equipment (1)

This is not regarded as revenue expenditure as it is the purchase of a fixed asset. (1)

(ii) Either

Subscriptions prepaid on 1 April 2008 (1)

This item represents an amount received during the previous financial year which relates to the current financial year. Application of matching principle. (1)

Or

Subscriptions owed by member 31 March 2009 (1)

This item represents an amount relating to the current financial year which has not yet been received. Application of matching principle. (1)

Or

Rent accrued (1)

This item represents an amount relating to the current financial year which has not yet been received. Application of matching principle. (1)

Or

Depreciation of equipment (1)

This is a non-monetary expense but must be taken into account in calculating the surplus/deficit. Application of matching principle. (1)

Or

Deficit for the year (1)

This is the difference between the income and expenditure and is the "loss" for the year and does not represent money paid/received. (1)

Alternatively accept surplus with a suitable comment if a surplus is shown in the answer to (b).

5 (a) Selling goods at lower prices

Allowing higher rates of trade discount for bulk buying Not passing on increased costs to customers Buying more expensive goods

Or other suitable point

Any 2 reasons (1) mark each

[2]

(b) Reduce expenses e.g. reduce staffing levels, reduce advertising etc. Increase gross profit e.g. increase profit margin, increase selling prices etc. Increase other income e.g. rent out part of premises, earn more discount etc.

Or other suitable point

Any 1 reason (1) mark

[1]

(c) (i) 25% - 10% = 15% (1)

(ii)
$$21\% - 9\% = 12\%$$
 (1)

[2]

(d) Percentage of expenses to sales has reduced so the efficiency of the business in controlling expenses has increased.

Or suitable answer based on O/F answers to (c)

[2]

(e) Payment period for creditors

$$\frac{44\,500}{320\,000} \times \frac{365}{1}$$
 (1) = 50.76 days = 51 days (1)

Collection period for debtors

$$\frac{38\,500}{400\,000} \times \frac{365}{1}$$
 (1) = 35.13 days = 36 days (1) [4]

(f) In both years the debtors are paying Kalpna Khan earlier than she is paying the creditors (though the gap is smaller in the second year). (1)

She is able to make use of the money within the business for this period. (1)

Or other suitable comments up to (2) marks

[2]

Page 10	Mark Scheme: Teachers' version	Syllabus	Paper
	IGCSE – May/June 2009	0452	03

(g) Offer cash discount for prompt payment

Charge interest on overdue accounts

Improve credit control

Refuse further supplies on credit until outstanding balance paid

Invoice discount and debt factoring

Or other relevant points

Any 2 points (1) each

[2]

(h) (i) Non-monetary factors

One example – goodwill, quality of management, or other suitable example (1) Such items will not appear on the accounting statements but can influence the profitability and prospects of a business. (1)

(ii) Accounting policies

One example – methods of depreciation, methods of stock valuation, or other suitable example (1)

These will affect calculation of the profit and the profitability ratios and the value of the assets. (1)
