

CAMBRIDGE INTERNATIONAL EXAMINATIONS
International General Certificate of Secondary Education

MARK SCHEME for the October/November 2013 series

0452 ACCOUNTING

0452/23

Paper 2, maximum raw mark 120

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2013 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

- (b) Preference shares receive a fixed rate of dividend: debentures receive a fixed rate of interest
Preference share dividend may not be paid if there is no profit: debenture interest is payable irrespective of profits

In the event of a winding-up, debenture holders are repaid before preference shareholders

Preference shareholders are members of the company: debenture holders are creditors

Debentures are often secured on the non-current assets of the company: preference shares are not secured

Any 2 statements (2) each

[4]

- (c) (i) Information provided in financial statements must be reliable (1)

Either

It must be capable of being depended upon as a true representation of the events it represents (1)

Or

It must be capable of being independently verified (1)

Or

It must be free from bias (1)

Or

It must be free from significant errors (1)

Or

It must be prepared with suitable caution being applied to any judgments and estimates (1)

[2]

- (ii) Comparability (1)

Relevance (1)

Understandability (1)

[3]

[Total: 25]
