CAMBRIDGE INTERNATIONAL EXAMINATIONS

International General Certificate of Secondary Education

MARK SCHEME FOR the June 2002 question papers

0547 Foreign Language Mandarin Chinese

0547/2   Paper 2 Reading and Directed Writing, maximum raw mark 99

0547/3   Paper 3 Speaking, maximum raw mark 100

0547/4   Paper 4 Continuous Writing (Extended), maximum raw mark 50

These mark schemes are published as an aid to teachers and students, to indicate the requirements of the examination. They show the basis on which Examiners were initially instructed to award marks. They do not indicate the details of the discussions that took place at an Examiners' meeting before marking began. Any substantial changes to the mark scheme that arose from these discussions will be recorded in the published *Report on the Examination*.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the *Report on the Examination*.

- CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the June 2002 question papers for most IGCSE and GCE Advanced (A) and Advanced Subsidiary (AS) Level syllabuses.

Question 16

Accomplishment of task – award 2, 1 or 0 for each task complete. (In the case of 16(c), apply this mark scheme to each of the two activities mentioned.

2 for accomplishment: getting the message across sufficiently well to be understood by a sympathetic native speaker. This does not imply accuracy, so full marks can be obtained with errors of spelling and syntax which do not obstruct comprehension. Where the candidate uses incorrect verb forms, such as the continuous present in a language that does not have one, this is deemed to impede communication.

1 for partial accomplishment: with doubts remaining as to whether the message gets through.

0 otherwise.
