**IGCSE History, Summer 2007 Series, online marking  
Unit 4380/03**

Now we have received your entries for the Summer 2007 examination series, I am writing to inform you of some changes to the format of the question paper for IGCSE History 4380/03. Although the requirements and demands of the question paper remain unchanged, there are some changes to the format of the paper in order that it can be marked online by examiners. The format changes, which will be introduced in Summer 2007, are as follows:

- Each page has a box around the edge. Candidates must NOT write outside this box.
- If candidates require additional writing space for any question, they must use additional sheets and fasten them to the booklet, using treasury tags, at the end of the examination.
- Where there is a choice of question, the candidates are required to indicate which question paper they have chosen by crossing the appropriate box. Instructions are provided in the examination paper.

The paper will continue to be a question and answer booklet. The candidates will answer the questions in the space provided under each question.

I would like to take this opportunity to inform you that detailed information about the performance of your candidates in the papers that are marked online, after the results have been issued, can be accessed by using the services available on the Edexcel website.

To assist you in preparing your candidates for the change, a sample of exemplar papers, along with some general guidance on online marked papers, can be obtained online by following the links below. For further information, please contact our customer call centre on the phone numbers below.
