## munter .

## INFORMATION AND COMMUNICATION TECHNOLOGY

## International General Certificate of Secondary Education

Grade thresholds taken for Syllabus 0417 (Information and Communication Technology) in the October/ November 2012 examination.

	maximum	minimum mark required for grade:				
	mark available	А	С	E	F	
Component 11	100	60	44	34	28	
Component 12	100	62	42	35	28	
Component 13	100	66	46	37	31	
Component 2	80	65	42	22	18	
Component 3	80	69	48	27	19	

The threshold (minimum mark) for B is set halfway between those for Grades A and C. The threshold (minimum mark) for D is set halfway between those for Grades C and E. The threshold (minimum mark) for G is set as many marks below the F threshold as the E threshold is above it.

Grade A\* does not exist at the level of an individual component.

The thresholds for the **syllabus** are determined first by adding together the thresholds for the components taken by the candidate. A reduction may be made at the higher grades depending on the correlation of the papers. If the maximum raw marks for the components are not in the weighting/relationship specified in the syllabus, a weighting is applied to arrive at the overall thresholds. The A\* threshold is calculated using the difference between A and B as a starting point.

The maximum total mark for this syllabus is 300

The overall thresholds for the different grades were set as follows.

Option	Combination of components	<b>A</b> *	Α	В	С	D	E	F	G
EX	02, 03, 11	254	221	187	154	125	96	75	54
EY	02, 03, 12	258	223	187	152	124	97	75	53
EZ	02, 03, 13	263	228	192	157	128	100	79	58

Grade Thresholds are published for all GCE A/AS and IGCSE subjects where a corresponding mark scheme is available.
