

**MARK SCHEME for the October/November 2010 question paper  
for the guidance of teachers**

**0581 MATHEMATICS**

**0581/11**

Paper 1 (Core), maximum raw mark 56

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

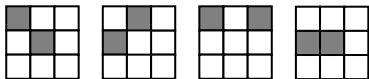

- CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the October/November 2010 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

### Abbreviations

|     |                            |
|-----|----------------------------|
| cao | correct answer only        |
| cso | correct solution only      |
| dep | dependent                  |
| ft  | follow through after error |
| isw | ignore subsequent working  |
| oe  | or equivalent              |
| SC  | Special Case               |
| www | without wrong working      |

| Qu. | Answers   | Mark          | Part Marks   |
|-----|---|---------------|--|
| 1   | -8  | 1             | Accept negative or minus in place of '-'   |
| 2   | $3.87 \times 10^{-3}$   | 1             |  |
| 3   | (Triangular) prism  | 1             |  |
| 4   | 17.5  | 1             |  |
| 5   | 54(.00) final answer  | 2             | <b>M1</b> for $\frac{450 \times 8 \times 1.5}{100}$ oe<br>or <b>SC1</b> for 504(.00)   |
| 6   | Perpendicular bisector of AB<br><b>with</b> 2 pairs of arcs   | 2             | <b>SC1</b> accurate, but without arcs  |
| 7   | 11.5, 12.5  | 1, 1          | Independent<br><b>SC1</b> if answers reversed  |
| 8   | 14  | 2             | <b>M1</b> for $\frac{230}{(108+7)} \times 7$ or better<br>or <b>SC1</b> for 216 as answer (steel)  |
| 9   | 8.36(0)   | 2             | <b>M1</b> for $\frac{h}{6.3} = \tan 53^\circ$ or $\frac{6.3}{h} = \tan 37^\circ$<br>or better  |
| 10  | (a) 5.062608(024)<br><br>(b) 5.063  | 1<br><br>1ft  | ft (a) to 4sf only if their (a) is 5 digits or more  |
| 11  | (a) 2 lines joining opposite vertices<br><br>(b) Centre square and any other<br>or 2 adjacent corner squares<br>or 2 centre squares on adjacent edges | 1, 1<br><br>1 | Independent<br>Accept reasonable freehand<br><br>Any of these diagrams:<br><br><br><br>May be rotated through 90, 180, 270 degrees |
