January 2017

Pearson International GCSE Mathematics A 4MAO/1F

Edexcel and BTEC Qualifications

Edexcel and BTEC qualifications come from Pearson, the world's leading learning company. We provide a wide range of qualifications including academic, vocational, occupational and specific programmes for employers. For further information, please visit our website at www.edexcel.com.

Our website subject pages hold useful resources, support material and live feeds from our subject advisors giving you access to a portal of information. If you have any subject specific questions about this specification that require the help of a subject specialist, you may find our Ask The Expert email service helpful.

Pearson: helping people progress, everywhere

Our aim is to help everyone progress in their lives through education. We believe in every kind of learning, for all kinds of people, wherever they are in the world. We've been involved in education for over 150 years, and by working across 70 countries, in 100 languages, we have built an international reputation for our commitment to high standards and raising achievement through innovation in education. Find out more about how we can help you and your students at: www.pearson.com/uk

General Marking Guidance

- All candidates must receive the same treatment. Examiners must mark the first candidate in exactly the same way as they mark the last.
- Mark schemes should be applied positively. Candidates must be rewarded for what they have shown they can do rather than penalised for omissions.
- Examiners should mark according to the mark scheme not according to their perception of where the grade boundaries may lie.
- There is no ceiling on achievement. All marks on the mark scheme should be used appropriately.
- All the marks on the mark scheme are designed to be awarded. Examiners should always award full marks if deserved, i.e. if the answer matches the mark scheme.
 Examiners should also be prepared to award zero marks if the candidate's response is not worthy of credit according to the mark scheme.
- Where some judgement is required, mark schemes will provide the principles by which marks will be awarded and exemplification may be limited.
- When examiners are in doubt regarding the application of the mark scheme to a candidate's response, the team leader must be consulted.
- Crossed out work should be marked UNLESS the candidate has replaced it with an alternative response.

Types of mark

- o M marks: method marks
- o A marks: accuracy marks
- B marks: unconditional accuracy marks (independent of M marks)

Abbreviations

- o cao correct answer only
- o ft follow through
- o isw ignore subsequent working
- o SC special case
- o oe or equivalent (and appropriate)
- o dep dependent
- o indep independent
- o eeoo each error or omission

No working

If no working is shown then correct answers normally score full marks

If no working is shown then incorrect (even though nearly correct) answers score no marks.

With working

If there is a wrong answer indicated on the answer line always check the working in the body of the script (and on any diagrams), and award any marks appropriate from the mark scheme.

If it is clear from the working that the "correct" answer has been obtained from incorrect working, award 0 marks.

Any case of suspected misread loses A (and B) marks on that part, but can gain the M marks.

If working is crossed out and still legible, then it should be given any appropriate marks, as long as it has not been replaced by alternative work.

If there is a choice of methods shown, then no marks should be awarded, unless the answer on the answer line makes clear the method that has been used.

If there is no answer on the answer line then check the working for an obvious answer.

· Ignoring subsequent work

It is appropriate to ignore subsequent work when the additional work does not change the answer in a way that is inappropriate for the question: eg. Incorrect cancelling of a fraction that would otherwise be correct.

It is not appropriate to ignore subsequent work when the additional work essentially makes the answer incorrect eg algebra.

Transcription errors occur when candidates present a correct answer in working, and write it incorrectly on the answer line; mark the correct answer.

Parts of questions

Unless allowed by the mark scheme, the marks allocated to one part of the question CANNOT be awarded in another.

International GCSE Maths

Apart from questions 15c, 19 & 21b (where the mark scheme states otherwise) the correct answer, unless clearly obtained from an incorrect method, should be taken to imply a correct method.

Q	Working	Answer	Mark	Notes
1 (a)		22.7	1	B1

				Total 4 marks

14	$(HD/JG =) 12 \div 3 (=4)$		4	M1	could be on diagram and may be part of a calculation eg 4×3=12
	(EB/JF/GC =) 10 - 3 (=7) or $(AH/EJ/BF =) 10 - "4" (=6)$			M1	could be on the diagram
	$10 \times 10 - 3 \times \text{``6''} - \text{``4''} \times \text{``7''} - 12 \text{ or}$ $(10 - \text{``4''}) \times \text{``7''}$			M1ft	dep on M2
		42		A1	cao
					Total 4 marks

15	(a)		4	1	B1	
	(b)	8 × 1024		2	M1	For 8 (from 2 ³) or 1024 or
						$2 \times 2 \times 2 \times 4 \times 4 \times 4 \times 4 \times 4$
			8192		A1	accept 2 ¹³
	(c)	$600 = 2 \times 300 = 2 \times 2 \times 150 = 2 \times 2 \times 2 \times 75 =$		3	M1	For at least 2 correct steps in repeated
		$2 \times 2 \times 2 \times 3 \times 25 = 2 \times 2 \times 2 \times 3 \times 5 \times 5$				factorisation (may be seen in a tree diagram)
					A1	for correct factors
						E.g.2, 2, 2, 3, 5, 5 (condone inclusion of 1)
			$2^3 \times 3 \times 5^2$		A 1	NB: Candidates showing no working score 0
						marks.
						Total 6 marks

16	3 × 7 (=21)		2	M1	or for 3 numbers with a total of 21 or 3 numbers with a median of 5 or 3 numbers with a range of 14 or $(a+c=) 3 \times 7 - 5$ (=16)
		1, 5, 15		A1	numbers can be in any order
					Total 2 marks

17	$\pi \times (70 - 2 \times 15)$ or $\pi \times 40 (=125(.6))$		4	M1	oe
	$4 \times 15 \ (=60) \ \text{and} \ 4 \times 70 \ (=280) \ \text{or} \ 340$			M1	independent
	"125.6" + "60" + "280"			M1	dan on M2
	123.0 + 00 + 280			IVII	dep on M2
		466		A1	for answer in range 465.6 – 466
					Total 4 marks

18	96 ÷ 3 (= 32)		3	M1	M2 for $\frac{5}{3} \times 96$
	9 × '32'(=288) or 4 × '32'(=128) or (9 - 4) × '32'			M1 dep	
		160		A1	
					Total 3 marks

19	17 19	3	M1	for correct improper fractions (subtraction sign not necessary)
	3 5			OR two improper fractions with a common denominator with at least one
				of the fractions correct
	E.g. $\frac{85}{15} - \frac{57}{15}$ or		M1	for correct fractions with a common denominator a multiple of 15
	15 15 1 5			i.e. in form $\frac{85a}{15a} - \frac{57a}{15a}$
	$\frac{17 \times 5 - 3 \times 19}{15}$ oe			15a $15a$
	15			
		shown	A1	dep on M2 for correct conclusion to $1\frac{13}{15}$ from correct working with sight of
				the result of the subtraction e.g. $\frac{28}{15}$
	Alternative method			10
		3	M1	for two correct fractions with a common denominator a multiple of 15
	$(5)\frac{10}{15} - (3)\frac{12}{15}$			1
	$-\frac{2}{15}$		M1	
		shown	A1	dep on M2 for correct conclusion to $1\frac{13}{15}$ from correct working with sight of
				the result of the subtraction e.g. $\frac{28}{15}$ or $2 - \frac{2}{15}$
	Alternative method			
	E.g. $5\frac{10}{15} - 3\frac{12}{15}$	3	M1	for two correct fractions with a common denominator a multiple of 15
	E.g. $4\frac{25}{15} - 3\frac{12}{15}$		M1	for a complete correct method
		shown	A1	dep on M2 for correct conclusion to $1\frac{13}{15}$ from correct working
				Total 3 marks

20 (a)	(-1, 6) (0, 4) (1, 2) (2, 0) (3, -2) (4, -4) (5, -6)	Correct line between $x = -1$ and $x = 5$	4	B4	For a correct line between $x = -1$ and $x = 5$
				В3	For a correct line through at least 3 of (-1, 6) (0, 4) (1, 2) (2, 0) (3, -2) (4, -4) (5, -6) OR for all of (-1, 6) (0, 4) (1, 2) (2, 0) (3, -2) (4, -4) (5, -6) plotted but not joined.
				B2	For at least 2 correct points plotted
				B1	For at least 2 correct points stated (may be in a table) or seen in working OR for a line drawn with a negative gradient through (0, 4) OR
4.)				3.61	for a line with the correct gradient.
(b)			3	M1	for $y = -4$ drawn; accept full or dashed line NB A shaded rectangle implies a choice of lines so M0
				M1	for <i>x</i> = 1 drawn; accept full or dashed line NB A shaded rectangle implies a choice of lines so M0
		For correct region identified		A1ft	for correct region identified. Condone no label if region clear. ft from an incorrect straight line in part (a)
					Total 7 marks
