## Marking Scheme and Support Notes for use with the Marking Scheme

In considering this marking scheme the following points should be noted:
The support notes presented are not exclusive or definitive and alternative answers may be acceptable if deemed valid;

They are support notes and not model or suggested answers;
The bookkeeping layout as presented in the support notes may be accepted as best practice. However, in some bookkeeping questions there can be a number of alternative approaches and formats that can be validly used by candidates;

Further relevant points of information presented by candidates are marked and rewarded on their merits;

The detail required in any answer is determined by the context and the manner in which the question is asked and by the number of marks assigned to the answer on the examination paper. Requirements and mark allocations may therefore vary from year to year.

(ii) Department of Finance/Public Expenditure and Reform.
(iii) Explain with example Opportunity Cost:

The opportunity cost of providing an item is the loss of the other item which could have been provided instead with the same money.

Example: if the Government chooses to build the National Children's Hospital (Financial Cost) then it will have to give up the opportunity (Opportunity Cost) to provide another project such as the Metro system in Dublin. There aren't enough funds to provide both.
(v) Explain Capital \& Current Expenditure and provide one example of each.

$$
2 \times(2+1)
$$

Capital expenditure is once off/long term expenditure which will have long term benefits for the country e.g. building new schools or hospitals.

Current expenditure is spending on a regular basis for the day to day running of the country e.g. wages of public servants, social welfare.
(v) Debt servicing is paying the interest on the National Debt.

Re: Woodgrain PVC Windows
Dear Sir/Madam,
I am writing to complain about 'Treble Glazed Woodgrain PVC Windows installed by you on $24^{\text {th }}$ April 2012, costing $€ 7,800$, copy of receipt enclosed.

After one month I noticed condensation patches on three windows as the seals had broken down.

I would like these windows replaced as they are not fit for purpose.
I look forward to a prompt response.
Yours faithfully,

| Report Title: | Advice on Sources of Finance, and Business Plans | 1 |
| Date: | 12 June 2012 | 1 |
| Introduction: | I have examined the different questions you requested me to consider and I have set out my answers below. | 1 |
| Main Body Answers to Questions | (i) The total amount of interest you will have to pay on the loan is $€ 2,160$. I have set out my workings in a separate sheet attached to the report. <br> (ii) The term collateral /security is an item of value given by a borrower to a lender which may be sold / taken over if the borrower fails to pay back the amount borrowed. The company might provide: buildings, land. <br> (iii) A delivery van is a medium term need and should therefore be financed by: <br> Hire Purchase, where O'REILLY Ltd will make a number of monthly payments and when the last payment is made it becomes the owner of the vans. <br> Leasing where O'REILLY Ltd could pay for the van as it uses them. It will never own the van but it can obtain a replacement van when there are a lot of kilometres up on the clock. | 12 <br> 10 <br>  <br>  <br> 10 |
| Follow Up | I am available to discuss any questions that the directors may have re the above answers. | 1 |
