## Get out of the bus lane, and into the fast lane

When three full buses in a row rush by you with a gleeful swoosh at 7.30am and you know you're going to be late... when your nice new work clothes are splattered in mud and your neat hair is a wet mess... when you're dying to get to the gig early but the bus doesn't show... when you get stuck sitting beside a smelly person on the bus... when it hits you that you spend over €15.50 a week - €62 a month, €744 a year - to squeeze onto a jam-packed bus and stand the whole way into work... this is when you should seriously start thinking about buying a car of your own.

If you want independence, if you want a comfy place to listen to your own tunes at your own volume, if you want to get to where you want, when you want, then start looking into insurance, finance and sale deals now.

Get off the bus and into the driver's seat
