Ellen Parker aged 15 years.
Mary Sellars aged 10 years.
Sarah Jukes aged 8 years.
Sarah Newton aged 8 years
and Elizabeth Clarkson aged 11 years, who was buried at the feet of her brother

There was a huge public outcry following this disaster and people demanded that laws be made to stop it happening again. This had not been the only accident in a mine that year. Accidents were common.

In 1842, the Mines Act became law and it said that

- ➔ Females were banned from working underground in mines
- ➔ Boys under ten were not to be allowed work in mines
- ➔ Apprentices between the ages of 10 and 18 could continue to work in the mines

1. The children were mostly working as ‘trappers’. What did ‘trappers’ do?

(1)

2. The youngest child who died was aged 7 years. What was his name?

(1) _____

3. There were many accidents in mines at that time. Why do you think this one made so many people demand a change in the laws?

(2)

4. State **ONE** change in the laws brought in by the Mines Act of 1842.

5. Write a paragraph about **ONE** of the following.

Changes in Medicine during the Industrial Revolution OR

QUESTION 4

24 marks

WORLD INEQUALITY – ACCESS TO EDUCATION

(24 marks)

Look at the graph, then read the information and answer the questions which follow.

The ‘median age’ is the age which divides a country’s population in half. For example, in this map, Ireland is shown as dark pink, so half our population is older than 30-35 years of age and half is younger than 30-35 years of age. Countries with a low median age can find it hard to provide good employment and education services, as there are so many people looking to use them.

1. What is the median age of most European countries?

(2)

2. Name **ONE** country (apart from Ireland) which has a median age of 35-40.

(2)

3. Which continent has the lowest median ages overall?

(2)

- 4.** Describe **THREE** differences between your life in Ireland and the life of a child in a poor country.
Hints - access to healthcare, access to education, life expectancy, exposure to disease, access to clean water, etc.

RECYCLING

Look at the photos, read the information and answer the questions which follow.

In East Africa, people recycle old tyres into sandals and shoes. These are known as 'ten-thousand-mile shoes'. They are sold to local people, but also to tourists and the money made can be used to equip schools in the villages. One old tyre costs 30c but can be made into six pairs of shoes costing 2 euro a pair. Old tyres can also be used to make cheap flooring and furniture.

- 5.** How much profit can a shoemaker make by selling six pairs of the ‘ten-thousand-mile shoes’?
Hint: Profit is the amount he makes by selling them, minus the cost of his materials.

6. Give **ONE** reason why you think the shoes are called 'ten-thousand-mile shoes'.

7. Describe **ONE** way in which we reuse or recycle tyres in Ireland.

_____ (2)

8. ***“Locally owned, sustainable businesses are the way forward for Africa.”***
