- 18.** Floorboards are often joined using the joint shown.
Name the joint.

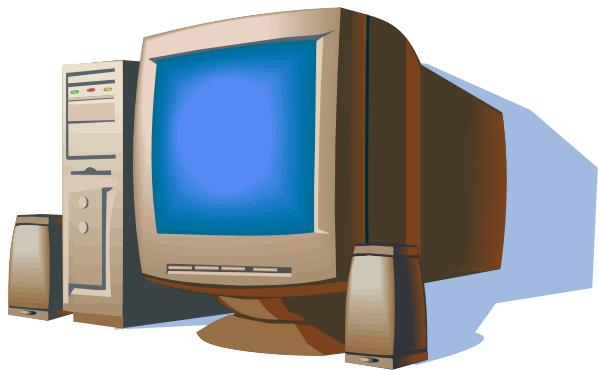

NAME

- 19** What is the claw of the hammer shown used for?

ANSWER

- 20.** Give one use for a computer in a Materials Technology Wood workshop?

ANSWER

**This booklet must be handed up at the end of
the examination.**

BLANK PAGE

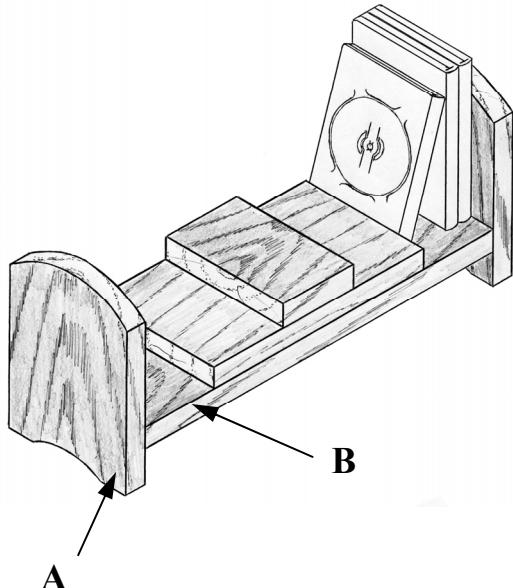

Junior Certificate Examination 2007

***Materials Technology Wood
Ordinary Level
Section B (60 Marks)***

Instructions

- (a) Answer any **three** questions. All questions carry equal marks.
- (b) Where sketches are required they may be done freehand or on the graph paper provided.
- (c) Write your examination number on the answer book and on all other pages used.

1. The diagram shows a stand for DVDs. The stand is made from solid pine.
 - (i) Describe, using notes and sketches, a suitable method of jointing the end **A** to the base **B**.
 - (ii) The top of piece **A** is curved, as shown. Using notes and sketches describe how this curve could be cut out and shaped to a smooth finish.
 - (iii) List **two** tools used to shape piece **A**. Make a neat diagram of **one** of these tools.

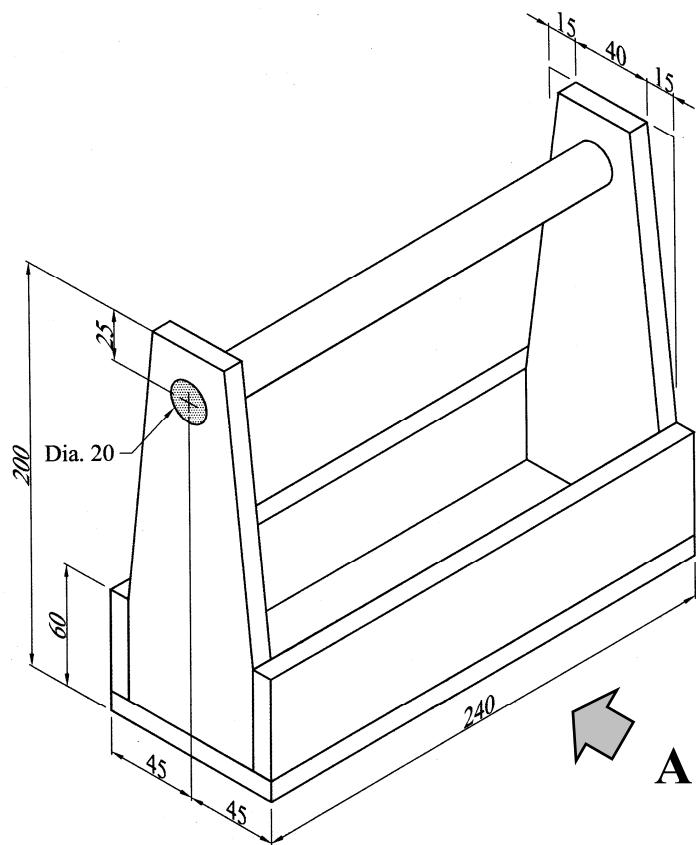

2. The diagram shows a pictorial drawing of a toolbox, for storing small household tools. All material is **10mm** thick.

(i) Draw, full size, a **Front Elevation** looking in the direction of arrow A.

(ii) Project an **End Elevation** from this view.

(iii) Include **four** main dimensions on the drawing, showing clearly dimension lines and arrowheads.

3. The diagram shows an image of the common furniture beetle (woodworm).

(i) Describe using notes and sketches the life cycle of the common furniture beetle under the following headings:

- (a) Eggs
- (b) Larva
- (c) Pupa
- (d) Adult beetle.

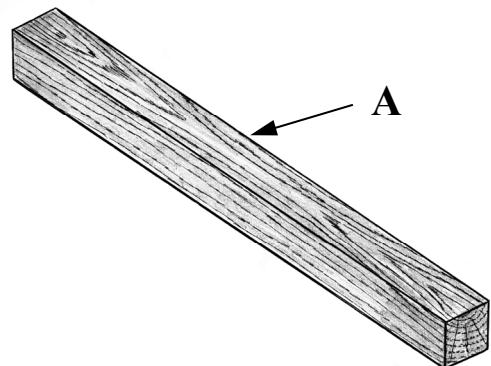

(ii) Explain how to treat a piece of furniture that has been attacked by woodworm.

4. Answer either A or B

- 4A. The diagram shows a baseball bat which has been turned on a lathe. The bat is to be made from the piece of wood shown at A.

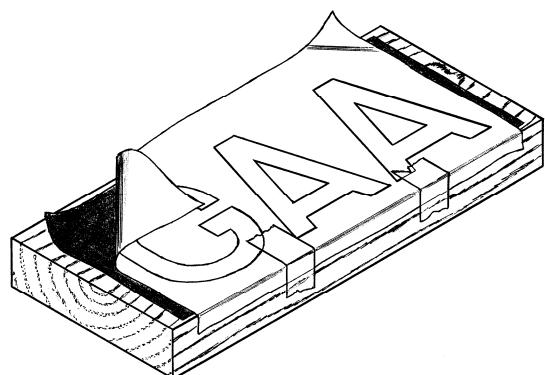

- (i) Describe using notes and sketches **three** steps that should be taken to prepare the wood for mounting on the lathe.
- (ii) Name one turning tool that would be used to turn this piece.
Make a neat diagram of this tool.
- (iii) List **two** safety rules that should be observed when using the lathe.

OR

- 4B. The diagram shows one method of transferring lettering from paper on to a piece of wood.

- (i) Explain this method, as shown in the diagram.
- (ii) Draw a neat freehand sketch of a suitable carving tool to carve these letters.
Name this tool.
- (iii) The finished plaque is to be fixed to a door using two countersunk head screws.
Using notes and sketches explain how you would prepare the wood to receive the screws.

5. The diagram shows an exercise stand for a kitten.

- (i) Suggest a suitable material for:

- (a) The platforms
(b) The central post.

In each case give **one** reason for your choice of material.

- (ii) Using notes and neat sketches suggest **two** design changes that would improve the appearance of this exercise stand.

- (iii) Suggest a suitable applied finish for the stand and give **two** reasons for your choice of finish.
