## Leaving Certificate Applied, 2012

## Vocational Specialism <br> Graphics and Construction Studies (240 marks)

Tuesday $12^{\text {th }}$ June, Morning, 9:30-11:00

## General Directions

1. Write your examination number in this space:
2. There are two sections in this paper.

Section 1 - Answer both questions. 105 marks
Q1 - Short answer questions
Q2 - Graphic Communication
Section 2 - Five questions - answer any three.

Q1 - Construction
Q2 - Building Services
Q3 - Woodcraft
Q4 - Design and Manufacture of Educational Toys
Q5 - Computer Aided Design
3. Write your answers in the spaces provided and include sketches as appropriate.

| For the Examiner only |  |  |
| :---: | :--- | :---: |
| 1. | Total of end of page totals |  |
| 2. | Aggregate total of all disallowed question(s) |  |
| 3. | Total mark awarded (1 minus 2) |  |
| 4. | Bonus mark for answering through Irish <br> (if applicable) |  |
| 5. | Total mark awarded if Irish Bonus <br> (3 plus 4) |  |
| Note: The mark in row 3 (or row 5 if Irish bonus is awarded) <br> must equal the mark in the Total mark box on the script. |  |  |

| For the Superintendent only |  |  |  |
| :---: | :---: | :---: | :---: |
| Centre Stamp |  |  |  |
| Section |  | Question | Mark |

| Total |  |  |  |

## 1. Answer any TWELVE of the following FIFTEEN short questions.

(a) The diagram shows a woodworking device. Name this device.

Name: $\qquad$
What is the function of the part labelled $\mathbf{A}$ in the diagram?

Function: $\qquad$

(b) In the space provided, sketch ONE wood jointing technique you used during your practical work in Graphics and Construction Studies.

(c) Name ONE woodworking hand tool that could be used for each of the following:

(d) The diagrams show five safety symbols associated with the construction industry. Explain what is meant by each symbol.

(f) Convert the following measurements to millimetres.

(g) The logo below is based on an equilateral triangle inside a hexagon.
Complete the drawing of the logo on the right. (You need not include the text surrounding the logo.)

USE A PENCIL ONLY
(h) Explain what is meant by the term 'Flat-pack' furniture.
$\qquad$
$\qquad$
$\qquad$
$\qquad$
(i) Name the manufactured board shown on the right.

Name: $\qquad$

This type of board is always made from an odd number of layers. Give a reason for this.

Reason: $\qquad$

$\qquad$
$\qquad$
(j) Name the electrical component shown, which is found in most woodwork rooms.

Name: $\qquad$
Give a reason for having such a component in a woodwork room.

Reason: $\qquad$
(k) Wood pellet stoves are an alternative to the traditional solid fuel stove.

List THREE advantages that wood pellets have over fossil fuels such as coal.

1. $\qquad$
2. $\qquad$
3. $\qquad$

(I) Tiles of various shapes and sizes were used to create the picture on the right. Identify the three different shape types involved and count how many of each type were used.

Name: $\qquad$

Number: $\square$

Name:
$\square$

Name: $\qquad$

Number: $\square$

(m) A mini-company are considering producing garden benches such as the one shown on the right.
Wood for the garden bench costs $€ 1.50$ per metre and labour costs $€ 10$ per hour.

Calculate the cost of making a garden bench which consists of 8 metres of wood and will take five and a half hours to make.

(n) The diagram shows pieces of wood being held by a G-cramp while gluing.

What is the correct name for the force being applied by the G-cramp to the pieces of wood?

Force: $\qquad$
(o) Evaluation is an important stage in a design process. Explain the term evaluation.

Answer: $\qquad$

## 2. Graphic Communication

(a) The graphic on the right shows a pictorial view of a Toy Truck.
(1) Complete the Elevation, Plan and End View of the Toy Truck on the drawing below.
(Hidden detail need not be shown.)
(2) Apply appropriate colour or shading to the Plan view, to represent wood grain.

(b) The Volvo Ocean Race finishes this Summer in Galway.
A company called "Key Golf
Supplies" has sponsored a boat for such a yacht race.

(1) Using the dimensions on the
 right, complete the drawing of the sail boat below.
(2) Design and sketch a logo on the sail of the boat, which reflects the company business.

(c) (1) The logo for this year's Olympic Games, which are to be held in London, is shown below. The logo is designed to reflect the year "2012".
Using the grid on the right, draw the enlarged logo. The logo has been partly started for you.
The "Iondon" text should be inserted freehand.

(c) (2) If the scale of the drawing shown
(c) $1: 2$, calculate the dimensions for $\mathbf{A}, \mathbf{B}$ and $\mathbf{C}$ below.
A

B

C

(c) (3) Apply the appropriate rendering and shading to the following shapes.

## Section 2

## Answer any THREE Questions from this section.

## 1. Construction

(a) Shown are a number of tools used by a blocklayer or plasterer.

Name the FIVE tools and say what each tool would be used for.

| TOOL | NAME | USE |
| :---: | :---: | :---: |
|  | - | - |
|  |  |  |

(b) The diagram shows a cut roof with six components labelled by number. Match the component names to the correct numbers below. (The first one is already done.)

(c) The dotted rectangle below shows the perimeter walls of a kitchen. The kitchen measures $3000 \mathrm{~mm} \times 4000 \mathrm{~mm}$.

Sketch, to scale of 1:20, a typical kitchen layout. Indicate the position of a door, two windows, a sink, a hob, kitchen base units and a table and chairs.
Shading and colouring should be used to enhance the presentation.

## 2. Building Services

(a) (1) Shown is a Solar Panel that is commonly installed in houses.

Describe, using notes and sketches, how this panel may be incorporated into a system for heating domestic water.

$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$
(a) (2) The diagram shows a common plumbing fitting.

Name the fitting and briefly describe how it functions.

Name: $\qquad$

Function: $\qquad$
$\qquad$
$\qquad$
$\qquad$
(b) (1) Explain what is meant by the term 'Building Energy Rating (BER)' as it relates to houses in Ireland.
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$

(2) A well insulated house, with a floor area of 200 square metres, has a Building Energy Rating value of 90 Kilowatt hours per square metre per year.
The house is to be heated by electricity, which costs $€ 0.12$ per Kilowatt hour. In the box below calculate the cost of heating this house each year.

(c) Two components which are used in a plumbing system are shown below. Name each of the components and briefly describe how each component could be best insulated.

Name: $\qquad$
Insulation
Method: $\qquad$
$\qquad$
$\qquad$

Name: $\qquad$
Insulation
Method: $\qquad$
$\qquad$
$\qquad$

## 3. Woodcraft

(a) The diagram shows a corner shelving unit made from oak.
(1) Name a tool that you could use to cut the curves on the side panels?

Tool: $\qquad$
(2) In the box below, describe, using notes and sketches, how you would ensure that the two side panels are identical in shape.

(3) In the box below, describe, using notes and sketches, a suitable method of jointing the shelves to the side panels.

(b) Name the FIVE handsaws shown.

(c) The diagram shows an outdoor wooden planter.
(1) Name a suitable native Irish wood that could be used to manufacture this planter.
(2) Suggest a suitable surface treatment/finish that could be applied to the wooden planter.
$\qquad$

(3) Describe TWO factors you would need to consider in the design of the base of the planter.

1. $\qquad$
2. $\qquad$

## 4. Design and Manufacture of Educational Toys

(a) (1) In order for toys to hold the interest of a child they often have more than one function.

Describe what you think would happen when this toy is pushed along the ground.

(2) Sketch a toy that you made as part of your course that incorporated a secondary movement. Include labels on the sketch to show how the secondary movement worked.
(b) Educational toys should be designed to cater for specific age groups.

State which age group each of the toys shown below would be suitable for and give a reason for your answer.

Age Group: $\qquad$
Reason: $\qquad$

Age Group: $\qquad$
Reason: $\qquad$
$\qquad$
$\qquad$

Age Group: $\qquad$
Reason: $\qquad$
$\qquad$
$\qquad$
(c) Name the THREE power sources needed to produce movement in the toys shown below.

5. Computer Aided Design
(a) (1) The CAD drawing below shows the outline of a referee's whistle. Using a ruler to measure, neatly insert on the drawing, an example of EACH of the following types of CAD dimension:
(i) Linear Dimension (Horizontal)
(ii) Linear Dimension (Vertical)
(iii) Leader Dimension
(iv) Angular Dimension
(v) Aligned Dimension
(vi) Radius Dimension.

(Arrowheads, extension lines, text, etc should be neatly included.)

(b) Online "Cloud" technology is rapidly gaining in popularity for data storage in preference to traditional media such as CDs, USB Drives, etc.
In the table below identify TWO advantages and TWO disadvantages for each storage medium.

| Traditional Media | Advantages | 1. |
| :---: | :---: | :---: |
|  |  | 2. |
|  | Disadvantages | 1. |
|  |  | 2. |
| Online Storage | Advantages | 1. |
|  |  | 2. |
|  | Disadvantages | 1. |
|  |  | 2. |

Page 18 of 19
(c) (1) Name a CAD package that you have used while studying Graphics and Construction Studies.

Package: $\qquad$
(2) The graphic on the right shows a data projector which is commonly found in modern classrooms.
The drawing below shows a pictorial view and a front elevation of the data projector.

List FIVE CAD commands/tools/features that would be used to produce the drawings below and briefly explain what each command/tool/feature does.

| Command/Tool/Feature |  | What it does |  |
| :--- | :--- | :--- | :---: |
| 1 |  | - |  |
| 2 |  | - |  |
| 3 |  | - |  |
|  |  | - |  |
| 4 |  |  |  |
| 5 |  | - |  |
|  |  |  |  |
