This q	uestion is on Using the Computer ar	nd Managing Files.	
(a)		pressed to capture a screen . This can ogram. Write down the name of this	
(b) (i	What do you understand by file	compression?	-
	-		-

2.

(ii) Give one **reason** why we may need to **compress a file**.

1

(iii) Circle the **program** that is normally used to compress a file.

Compzip Winzip PKzip Officezip

(c) The picture below shows the **System properties** of a particular computer.

Look carefully at the properties and then complete the following:

(1)	The operating system is	·
(ii)	The clock speed is	

(iii) The size of memory is ______.

(d) Suppose that the following are seven files stored on a particular computer. You can **search for a file** if you know only part of the file name.

ecdl results earth align school ecosystem earrings

Write down the answers to the following questions in the boxes provided.

(i) How many files are found if you type **a** ?

		(i)	Which program opens this file?	
		(ii)	Write down whether you can save any changes that you make to this file.	
	(g)	(i)	The picture below shows a number of printers that are installed on a computer. Write down the name of the default printer .	
			HP Laser Jet 1200 Series PCL (Copy 1)	
			HP LaserJet 1200 Series PCL 0 Ready	
			Default printer:	
			Fujitsu PrintPartner 10V (last) O Ready	
		(ii)	Give one reason why you may have to use the print option called ' Print to file '.	
3.	This	s quest	tion is on Word Processing.	
	(a)		"A special type of document file can be created once , saved and then customised as required. The file name of this document finishes with .dot ." What is this type of document file called?	
	(b)		The picture below shows some text and special characters after the button shown on the right is clicked.	
			The big bad wolf¶ ¶	
		(i)	What are these special characters called?	
		(ii)	Complete the following statements:	
			• The • represents a	
			• The Trepresents a/an	

c)		The picture below shows a section of the Formatting Toolbar .
		Normal ▼ Times New Roman ▼ 12 ▼ B I <u>U</u>
	(i)	What is the feature that has been set to Normal , called?
	(ii)	Provide one advantage of using this feature.
d)		Information can be stored in a table .
	(i)	Give one advantage of storing information in a table?
	(ii)	Write down the names of the two items which make up a table.
		<u>1.</u> <u>2.</u>
	(iii)	What happens if you click the button shown on the right?
	(iv)	Pictures A and B shown below are used when preparing a table.
		1/4 pt ————
		½ pt ———
		% pt
		1 ½ pt
		2 ¼ pt ———
		3 pt
		4 1/2 pt
		A B Write down what each picture is used for.
		Picture A:
		Picture B:
()		This part of the question is on Mail Merge .
	(i)	Fill in the blanks of the paragraph below using the following phrases. main document data source personalised letters
		Mail merge is the process of preparing and printing a series of
		Two files need to be created before
		you can merge them. The information that does not change is stored in the
		file while the data that changes
		during mail merge is stored in thefile.

		(ii)	Write down the name of the program where the main document is prepared.	1
		(iii)	Write down the name of a program where the data source is prepared.	1
		(iv)	Give an example to show where the school administration can use mail merge.	1
				2
4.	(a)	s quest	Use the following words to show the type of addressing (cell referencing) that was used in the spreadsheet formulas given below: Absolute Relative Relative and absolute	
			Formula Type of addressing (referencing)	
		(i)	=D2+F6	1
		(ii)	=D2+\$F\$6	1
		(iii)	=\$D\$2+\$F\$6	1
	(b)	(i) (ii)	Consider the following worksheet. A B C Examination 2 Name Mark Pass/Fail 3 Francesca 61 4 Jane 56 5 Sylvia 32 6 Carmen 78 7 The title of the worksheet (i.e. Examination) has been centered across columns A, B, C. Circle the button that was used for this formatting task. Write down the IF function that must be typed in cell C3 to display the word 'Pass' or 'Fail'. The pass mark is 50 and above.	1
	(c)	(i)	The pictures below show 2 different types of charts/graphs . Write down the name of each type of chart. Type: Type:	2

(ii) A quick way of creating charts/graphs is by using the **Chart Wizard**. Explain how the wizard helps you in preparing the chart.

1

To select **two non-adjacent rows/columns** for your chart/graph you must (iii) click the mouse button while holding down a **key** from the keyboard. Which key must be pressed?

1

5. This question is on the Presentation (PowerPoint) program.

The pictures below show **four different views** of the same presentation. (a) Write down beneath each picture, the type of view from the following list.

Normal outline view Normal slide view

Slide sorter view Slide show view

(b) The following **icons** are found in the toolbars. What are they **used** for?

(c) What do you understand by line spacing? 1

	(d)		When you click on the New Slide button the following win appears on the screen. What is the window pane used for the screen are the screen appears on the screen.	
	(e)		Each of the following pictures is used to change the form . Write down beneath each picture, the type of list that can be seen to the following pictures is used to change the form . Write down beneath each picture, the type of list that can be seen to the following pictures is used to change the form . None 1	
6.	This	quest	ion is on Information and Communication.	
	(a)		Write down whether the following statements are True or	
		(')	Statement	True or False
		(i)	The address of a web site is given by a URL.	
		(ii)	Cookies are files used in home economics.	
		(iii)	A digital certificate is a printed birth certificate.	
		(iv)	A protected site is one whose access is controlled.	
	(b)		Complete the sentences below using the following words:	
			credit card encryption spam firewall	virus
		(i)	is a method of scrambling an	email message. 1
		(ii)	An email file may infect your computer with a	1
		(iii)	mail is mail that is sent in bulk.	1
		(iv)	A is a protection against invasion	via the Internet. 1
		(v)	You must be cautious when sending yourover the Internet.	details 1

	difference between typing the following in the search engine?
	car driving lessons
	"car driving lessons"
	You want to email a printed photograph to a friend.
(i)	The 4 main tasks for sending the email are the following. However the tasks are not in the correct order.
	Attach the photo file Type the message Send the message Scan the photo
	Write them down below in the correct order.
	1.
	2
	3.
	4.
(ii)	You wish to send the same email to other friends using the Cc or Bcc features. What do the abbreviations stand for?
	Cc:
	Bcc:
(iii)
