## **JUNIOR LYCEUM ANNUAL EXAMINATIONS 2005**

Educational Assessment Unit - Education Division

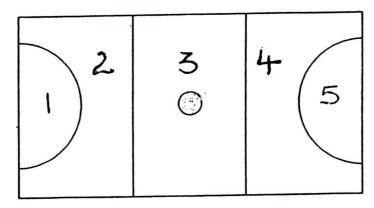

<u>FO</u>	RM	5 PHYSICAL EDUCATION	TIME: 1h 30min
TO	TAI	L MARK 80	
NA	ME:		CLASS:
Sec	tion	A – Movement and Physical Activities (12 marks)	
Cho	ose T	THREE questions from 1-12 in Section A.	
Ans	swer a	all parts of the chosen questions.	
1.	AT	HLETICS	
	(a)	In the 100m race, an athlete in lane 3 makes a false start. Followstart is made by an athlete in lane 5. What rule is applied in such a	_
			(1 mark)
	(b)	Just after leaving the starting blocks, what should an athlete do advantage?	in order to get the best
			(1 mark)
	(c)	Mention one characteristic which applies to field events.	
	(d)	Which throw may be both performed using either a linear of technique?	or a circular/rotational
			(1 mark)
2.	BA	DMINTON	
	(a)	Mention two ways in which an attacking player can win a point in	badminton.
		(i)	
		(ii)	(1 mark)
	(b)	What is a let?	
	(c)	Which part of the player's feet is used during play for utmost agili	ty?
			(1 mark)

(a) Mention <b>two</b> critical elements of the offensive stance. Con	sider only the lower part o
the body.	sider only the lower part of
	(1 n
(b) Mention one type of <b>shot</b> that may be used in a free throw.	
	(1 n
(c) (i) On the diagram below, indicate with Xs the 3-2 open o	r spread attacking formation
	(1 m
(ii) State one advantage of using this tactic.	(1 n
EDUCATIONAL DANCE	
(a) Music is the most popular form of stimulus used in dance. suitable to depict:	Suggest another stimulus
(i) flowing movements	(1 m
(ii) strong, direct movements	(1 m
(b) State two ways in which <b>contrast</b> between two routines is c	elear.
(i)	
(ii)	(1 m
FOOTBALL	
(a) A player has stopped a high pass using the block.  Mention the main critical element of the block.	
	(1 m
(b) Mention one formation which is usually adopted when play	
team.	(1 m

	(c)	disadvantage of this strategy.	non one
			(1 mark)
	(d)	How is a tall player best used during an attack?	(1 monts)
6.	GV	MNASTICS	(1 mark)
0.	GI	WINASTICS	
	(a)	During a routine the most difficult moves are usually done across the diagonals. <b>two</b> types of actions which are usually done when not crossing the diagonals.	
		(i)	(1 mark)
		(ii)	(1 mark)
	(b)	In the headspring, name the part of the body which is mainly used to 'flick' the bover.	oody
			(1 mark)
Ans	wer (	only question c) VAULTING or d) PARALLEL BARS	
	(c)	VAULTING:	
		What new equipment has replaced the vaulting horse?	(1
		OR	(1 mark)
	(d)	PARALLEL BARS: When rolling between the bars, on which part of the body is the roll done rebetween the bars?	
			(1 mark)
7.	НО	CKEY	
	(a)	Give <b>one</b> instance when the Bully is performed.	
			(1 mark)
	(b)	State <b>one</b> reason why triangular passes are better than dribbling the ball.	/1 1 1
			(1 mark)
(c)	Nar	ne <b>one</b> type of stroke which is allowed when giving a penalty for an intentional for the circle.	oul inside
			(1 mark)
	(d)	The drive is a stroke which requires a large force.  Name <b>one</b> critical element in the application of this stroke.	
			(1 mark)

## 8. NETBALL

(a) Choose **two** playing positions. Indicate their playing areas by using the numbers indicated on the court.

		<b>Playing Positions</b>	Playing Areas
		(i)	(1 mark)
		(ii)	(1 mark)
	(b)	Who takes the ball after a goal has b	een scored?
			(1 mark)
	(c)	Mention <b>one</b> method of dodging you	r opponent.
			(1 mark)
9.	RH	YTHMIC GYMNASTICS	
	(a)	Bouncing and rolling are two different linking movement that may be used	ent ball skills used in a sequence. Mention one to join the <b>two</b> actions.
			(1 mark)
	(b)	When throwing the ball up, it is not you catch it. Suggest <b>two</b> actions w	going high enough to give you time to turn before hich will make the ball go higher.
		(i)	(1 mark)
		(ii)	(1 mark)
	(c)	Mention the rule that relates to the f	nishing position of the ribbon.
			(1 mark)
10.	SW	IMMING	
	(a)	Mention one instance when a swimm event.	ner can be disqualified in an individual swimming
			(1 mark)

	b.	Put a number in the space provided to it backstroke start.	ndicatee the properr sequence fo	ollowing the
		arm pull		(1 mark)
		start of kicking motio	1	(1 mark)
		head positioning		(1 mark)
11.	TE	EAM HANDBALL		
	(a)	Describe the locomotor movements of the g	oalkeeper when guarding the goal	post.
				(1 mark)
	(b)	Mention two factors of the fast break attack		
		(i)		(1 mark)
		(ii)		(1 mark)
	(c)	Why is a player disqualified from a game?		
				(1 mark)
12.	VO	DLLEYBALL		
	(a)	Name <b>two</b> rules regarding the libero. Do no	ot refer to the substitution rules.	
		(i)		
				(1 mark)
		(ii)		
				(1 IIIaIK)
	(b)	You may illustrate your answer with a diagram	* <del>*</del>	
				(1 mark)
	(c)	Name <b>one</b> critical element of a good block.		
				(1 mark)
Sec	tion	B – Health Related Fitness (18 marl	(zs)	
Ans	wer a	all questions in Section B.		
1.	Naı	me <b>two</b> factors that have a positive influence	on health.	
		(i)		(1 mark)
		(ii)		(1 mark)
2.	Giv	ve <b>one</b> reason why it is important to shower a	fter exercise.	
				(1 mark)

	ng a meal just before a competition can <b>one</b> reason for this.	1	
Nam	e <b>one</b> exercise aimed to improve:		
	ngility		
(ii) s	speed		
	plete the table by filling in the type of s first <b>one</b> has been done for you.	trength used.	
	Activity Static	Explosive	Dynamic
(i)	Badminton Smash	X	
(ii)	Discus Rotation		
(iii)	Shoulder Stand		
(iv)	Start 100m freestyle		
	t is the difference between estive and m	assive stretching?	
What	t is the difference between active and pa		
Afteı	exercise the heart rate of an athlete ret	urns quickly to its re	sting heart rate. W
After this i	exercise the heart rate of an athlete ret		sting heart rate. W
Afterhis i	r exercise the heart rate of an athlete ret ndicate?  tion Time, Power, Agility, Speed ose the right word which matches the statement	atement.	sting heart rate. W

			(1 mark)
31.	Blo	od is pumped from the heart to the rest of the body and back to	o the heart.
	We	call this system "the	(1 mark)
32.	Cho	ne table below, fill in the correct term which describes the state ose from: reversibility, progression, plateauing, overtraining, a first one has been done for you.	
		Statement	Word
	A	Making the body work harder than normal	Overload
	В	Training the muscles for a certain sport	
	С	Increasing training in stages to avoid injury	
	D	Inability to progress after reaching a level of fitness	
		<u> </u>	(3 marks)
33.	Wha	at do we call that part of a training session where one practice	s something directly related
		is/her sport?	(1 mark)
4.	Do i	ntion two <b>types</b> of activities which should be included in a good not give examples of exercises.	(1 mark)
	(11)	<del></del>	(1 mark)
or	quest	tions 35 to 38 put A, B, C, D in the box to show the right ar	nswer.
35.	This	s is an aerobic sport	
	A	Long jump	
	В	Archery	
	C	Rowing	
	D	Shot put	(1 mark)
36.	A tr	aining method which means 'speed training'.	
	A	Aerobics	
	В	Fartlek	
	C	Power lifting	
	D	Sprinting	(1 mark)

37.	A ty	A type of training with short periods of rest between heavy workouts.					
	A	Continuous training					
	В	Interval training					
	C	Circuit training					
	D	Weight training	(1 mark)				
38.	A s	ystem of training using special equipment to vary effort.					
	A	Isometric					
	В	Isotonic					
	C	Isotopic					
	D	Isokinetic	(1 mark)				
39.	In a	'sit and reach' test, a student has a reading of +10.					
	Wh	at does this reading mean?					
			(1 mark)				
40.	Wh	at does the 'Cooper Test' measure?					
		•	(1 mark)				
41.	Wh	at instrument is used to measure the amount of fat tissue in a body?					
т1.	V V 11	at instrument is used to measure the amount of fat tissue in a body.	(1 mark)				
			(1 111111)				
42.	Wh	y is a compound fracture more serious than a simple fracture?	(4 1)				
			(1 mark)				
43.		ernally-caused injuries may be caused by a number of factors. Mention two tors.	of these				
	(i)		(1 mark)				
	(ii)		(1 mark)				
Sec	tion	C - Sport in Society (10 marks)					
1.	(a)	Draw up a table of a league competition for five teams named A to E.					
			(1 mark)				
	(b)	Name one advantage of a league competition.	(1 1)				
			(1 mark)				

a)	The Ancient Olympic Games started in Greece in 776 BC.	
	Where in Greece did these Games take place?	
		(
b)	The Modern Olympic Games started in 1896.	
	Mention <b>one</b> purpose for the setting up of these Games?	
		(
Var	ne <b>two</b> positive ways in which newspapers influence sport.	
i)		(
ii)		(

	Type of Drug	Effect
