ANSWER ALL QUESTIONS

(Questions 1 to 10 ... 4 marks each; questions 11 to 20 ... 6 marks each)

1. a) Work out:

$$\begin{array}{r} 8319 \\ -3275 \\ \hline \\ \hline \end{array}$$

b) The value of 3 in 8319 is: \_\_\_\_\_

c) Write in words: 8319

\_\_\_\_\_

\_\_\_\_\_

d) What number does the arrow point to?

2. a) What fraction of the shape is shaded?

b) i)

$$\frac{2}{3}$$

$$\frac{7}{12}$$

The smaller fraction is: \_\_\_\_\_

ii) Work out:  $1\frac{2}{3} - \frac{7}{12}$

3. a) Write in order of size, **largest** first.

4.07

0.47

4.7

0.74

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

b) i) Look at these patterns.

**Draw pattern 2.**

pattern 1

pattern 2

pattern 3

pattern 4

ii) How many squares do you need to draw **pattern 13**?

\_\_\_\_\_ squares

4. a) The diagram shows a **cube** of side 30 cm.  
Work out its **volume**.

\_\_\_\_\_ cm<sup>3</sup>

b) Fill in with **two odd** numbers:

$$\square + \square = 14$$

c) Fill in correctly:

$$250 \div 50 = \square$$

5. Fill in with  $+$ ,  $-$ ,  $\times$  or  $\div$  to make the statements true.

a)  $1m \square 4 = 25c$

b)  $630g \square 570g = 1.2kg$

c)  $90^\circ \square 4 = 360^\circ$

d)  $1.50 \square 75c = 75c$

6. Patrick draws 2 rectangles **A** and **B**.  
Both rectangles have the **same perimeter**.  
His sister Debbie spills some ink on rectangle **B**.

- a) Work out:  
i) the **perimeter** of rectangle **A**.

\_\_\_\_\_ cm

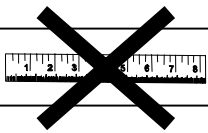

- ii) the **length** of rectangle **B**.

\_\_\_\_\_ cm

- b) Draw on the grid a **different** rectangle with the **same perimeter** as rectangle **A**.  
(Each square on the grid is of side 1 cm.)

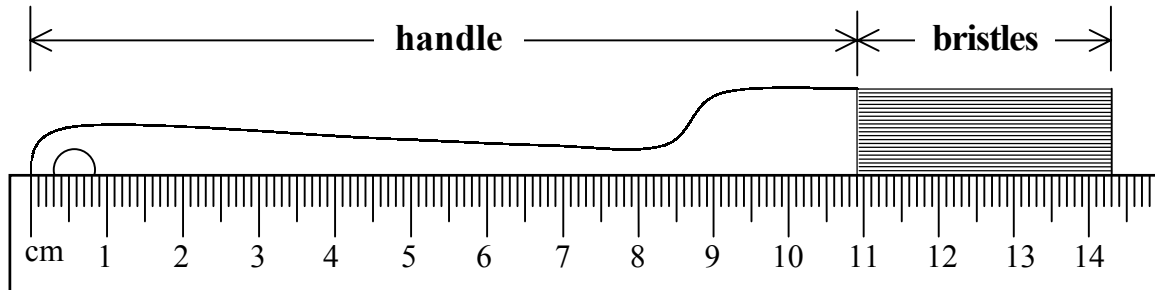

7.

**Do not use a ruler to answer this question.**

Look at the picture of this paintbrush.

a) Complete:

i) The **total length** of the paintbrush is \_\_\_\_\_ **cm**.

ii) The length of the **handle** is \_\_\_\_\_ **cm**.

b) Work out the length of the **bristles** in **millimetres**.

\_\_\_\_\_ **mm**

8. a)

Mariella's jet ski travels 180 km in 4 hours.  
Find the speed of the jet ski in **km/h**.

\_\_\_\_\_ **km/h**.

b) Harry's jet ski travels 2.5 km/h **faster** than Mariella's.  
Work out the **distance** Harry travels in 6 hours.

\_\_\_\_\_ **km**

9. a) Look at the drawing.  
The **shaded part** is \_\_\_\_\_ % of the whole shape.

b) Martin and Daphne share Lm15 between them.  
**Martin** receives **60%** of the money.

i) What **percentage** of the money does Daphne receive?

\_\_\_\_\_ %

ii) Work out the **amount** of money Daphne receives.

Lm \_\_\_\_\_

10. Petra buys a laptop costing Lm500.  
She pays a monthly sum of money.  
**Each month** she pays Lm27 **except for the last month**.

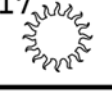

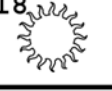

i) Work out the **total** number of **months** Petra takes to pay for the laptop.

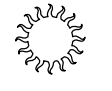

\_\_\_\_\_ **months**

ii) Petra's **last payment** is Lm \_\_\_\_\_.

11. This is the weather chart for April 2006.

Mon	Tue	Wed	Thu	Fri	Sat	Sun
					1 	2 
3 	4 	5 	6 	7 	8 	9 
10 	11 	12 	13 	14 	15 	16 
17 	18 	19 	20 	21 	22 	23 
24 	25 	26 	27 	28 	29 	30 

a) Fill in the table correctly:

	 Rainy	 Cloudy	 Partly Cloudy	 Sunny
Number of days		9		

b) Use the table to complete the graph.

c) What fraction of the whole month was cloudy?  
(Give your answer as a fraction in its **lowest terms**.)

12. Look at angle P.

a) The size of angle P is \_\_\_\_\_<sup>o</sup>

b) Look at these angles.

i) Use your **protractor** to fill in the following.

- The **smallest** angle is angle \_\_\_\_\_.
- Angle \_\_\_\_\_ and angle \_\_\_\_\_ are **equal**.

ii) Underline the correct word in the brackets.

- Angles A, B, C and D are all (**right, acute, obtuse**) angles.

c) Look at triangle FGH.

i) The sum of angles F, G and H is \_\_\_\_\_<sup>o</sup>

ii) Underline the correct word in the brackets:

- Triangle FGH is (**scalene, equilateral, isosceles**).

13. Look at this map.

**Each side of a square on the map stands for a length of 1.5 km.**

Captain Gold is at the **Bay**.

Fill in with the correct **compass directions**:

a) i) Captain Gold walks **directly**

\_\_\_\_\_ to go  
to the **cave**.

ii) Captain Gold is now at the **Cave**.

He then goes to find the **Treasure**.

He walks 1.5 km \_\_\_\_\_ and then 7.5 km \_\_\_\_\_.

b) Captain Gold is now at the **Treasure**.

He wants to get back to the **Bay**.

He can walk **4.5 km South** and then **4.5 km East**.

Use **distance** and **compass directions** to describe **another** way Captain Gold can take to get back to the Bay.

\_\_\_\_\_.

14. Silvio needs **8.75 litres** to paint **7 doors**.

a) Work out the number of litres of paint he needs to paint **1 door**.

\_\_\_\_\_ ℓ

b) Paint costs Lm8 per litre.

Silvio buys Lm60 worth of paint.

i) How many **litres** of paint did Silvio buy?

\_\_\_\_\_ ℓ

ii) How many doors did Silvio manage to finish with the paint he bought?

\_\_\_\_\_ **doors**

iii) How many **more** litres of paint does Silvio need to paint the **7 doors**?

\_\_\_\_\_ ℓ

15. The headteacher organised a school outing.

The numbers in the circles below show how many children are on each bus.

a) Work out the **average** number of children on each bus.

b)  $\frac{2}{3}$  of the children in **bus 1** are boys.  
 $\frac{3}{4}$  of the children in **bus 3** are boys.

In which of these two buses are there **more** boys?

\_\_\_\_\_ children

bus \_\_\_\_\_

16. a) The diagram shows how Mary spent last Sunday afternoon.  
 At what time did Mary **arrive home**?

\_\_\_\_\_

b) The diagram shows one of Peter's schooldays.  
 At what time does Peter **wake up**?

\_\_\_\_\_

17. Look at this shape.  
**All the sides are equal.**

- a) The side AB measures \_\_\_\_\_ **cm**.
- b) Use your **ruler** to:
- i) draw the **horizontal** line of symmetry of this shape.
  - ii) Join AD.
- c) i) Draw a circle **outside** the shape to pass through the vertices A, B, C, D, E and F.
- ii) Use your ruler to measure the **radius** of the circle.

\_\_\_\_\_ **cm**

18. A waiter is carrying a tray.  
 On the tray he has **3 bottles of lemonade** and **2 cups of coffee**.  
 The **total weight** he is carrying is 3.7 kg.  
 The **tray** weighs 450 g.  
 Each **cup of coffee** weighs 0.5 kg.  
 Work out the weight of **1 bottle of lemonade** in grams.

19. Mandy wants to put **either** advert A **or** advert B in the newspaper.

The adverts have a **rectangular border**.

Both borders have the **same perimeter**.

The **charge** for an advert is **25c for every square centimetre**.

a) i) the cost of **advert A** is Lm \_\_\_\_\_.

**advert A**

ii) the cost of **advert B** is Lm \_\_\_\_\_.

**advert B**

iii) The **cheaper** advert is \_\_\_\_\_.

b) Paul wants to put another **rectangular** advert with the **same perimeter** in the same newspaper.

He wants to pay **less** than Mandy for his advert.

Work out the **length** and **width** of Paul's advert.

(The **width** of each advert must be **more than 2 cm**.)

**length** \_\_\_\_\_ **width** \_\_\_\_\_

20. This is the menu at Fiona's Restaurant.  
Part of the menu is missing.

a) What is the bill for **egg, chips and tomatoes**?

\_\_\_\_\_ cents

 Fiona's Restaurant 	
Egg and bacon.....	Lm1.00
Egg and chips .....	85c
Egg and tomatoes .....	50c
Egg, bacon and tomatoes.....	Lm1.10
Egg, chips and tomatoes.....	
Egg, bacon, tomatoes and chips ...	

b) What is the bill for **egg, bacon, tomatoes and chips**?

Lm \_\_\_\_\_
