# Entrance Examination 2013 Arithmetic Paper 1

## 30 minutes

### Do not open this booklet until told to do so

#### Calculators may not be used

Write your names, school and candidate number in the spaces provided at the top of this page.

You have 30 minutes for this paper which is worth 20 marks.

Answer all the questions, attempting them in order and writing your answers clearly. If you find that you cannot answer a question straight away leave it blank and return to it later if you have time. Try not to leave blank answer spaces at the end, instead make the best attempt at an answer as you can.

If you need to change an answer cross it out neatly and write the new answer alongside the box. You may use rough paper for working out, this will not be marked.

	Marker 1	Marker 2	Agreed mark
Number correct			

#### Page 2

- 1. Write in figures the number two hundred and twelve thousand and fifty seven
- 2. Work out 675 428
- 3. Work out 254 x 80
