REKENAARTIK SG
(Tweede Vraestel)

TYD: 3 uur (sluit in
10 minute leestyd)

PUNTE: 240

INSTRUKSIES AAN KANDIDATE

1. Tensy ander instruksies aan jou gegee word, moet jy die volgende doen:

- Gebruik die standaardwaardes/verstekwaardes (*defaults*) vir die kantlyne (2.54 cm *of* 1").
- Gebruik A4-portret bladsygrootte (210 mm x 297 mm *of* 8.27" x 11.69").
- Gebruik Courier New 12.
- Gebruik Afrikaans as die taal.
- Stoor die lêer onder die naam wat in die vraestel aangedui word.
- Sleutel jou eksamennommer (links) en die vraagnommer (sentree) as 'n kopskrif (*header*) of voetskrif (*footer*) (1.27 cm *of* 0.5") op elke vraag in.
- Elke vraag moet as 'n afsonderlike dokument gedoen word.
- Rangskik jou antwoorde in die korrekte numeriese volgorde in die eksamenomslag.

2. Onthou om die volgende te doen:

- Stoor jou dokumente met gereelde tussenposes.
- Kontroleer spelling in elke dokument.
- Gebruik die voorskou-funksie (*print preview*) in elke dokument voordat jy die volgende vraag beantwoord.
- Jy mag net **een drukstuk van elke vraag inhandig**. Drukwerk mag óf in die loop van die eksamen, óf nadat die eksamentyd verstreke is, plaasvind, afhangende van die drukfasiliteite by die eksamensentrum.

3. Die lêers wat jy benodig vir **Vraag 2, Vraag 3, Vraag 4, Vraag 5 en Vraag 7** kan op die stoffie gekry word.

reading time)

MARKS: 240

INSTRUCTIONS TO CANDIDATES

1. **Unless you are given other instructions, you should do the following:**
 - Use the defaults for the margins (2.54 cm *or* 1").
 - Use A4 portrait page size (210 mm x 297 mm *or* 8.27" x 11.69").
 - Use Courier New 12.
 - Use English (SA/UK/British) as the language.
 - Save the file under the name indicated in the question paper.
 - Key in your examination number (left) and the question number (centred) as a header or footer (1.27 cm *or* 0.5") in each question.
 - Each question must be done as a separate document.
 - Arrange your answers in the correct numerical order in the examination folder.

2. **Remember to do the following:**
 - Save your documents regularly.
 - Check the spelling in each document.
 - Use the print preview function in each document before answering the following question.
 - You may submit **only one print-out of each question**. Printing may take place either in the course of the examination, or after the examination time has expired, depending on the printing facilities at the examination centre.

3. The files that you need for **Question 2, Question 3, Question 4 and Question 7**, can be found on the diskette provided.

4. ASCII-KODES

Om tyd te bespaar, kan die volgende ASCII-kodes in plaas van *Insert > Symbol* gebruik word.

ü Alt + 129	ä Alt + 132	é Alt + 130	ê Alt + 136
ë Alt + 137	è Alt + 138	ï Alt + 139	ö Alt + 148
ò Alt + 149	ó Alt + 162	È Alt + 0200	É Alt + 0201
Ë Alt + 0203	Ê Alt + 0202	† Alt + 0134	‡ Alt + 0135

5. TYDSKEDULE

Die volgende dien as 'n voorgestelde tydskedule vir die beantwoording van elke vraag. Probeer om nie hiervan af te wyk nie.

VRAAG	ONDERWERP	PUNTE	TYD (minute)
1	Tabel	35	25 min
2	Omsendbrief met Program	50	35 min
3	Kolomme – Redigeer	25	18 min
4	Teorie	30	21 min
5	Notule	40	28 min
6	Kontrak	40	28 min
7	Sakebrief – Redigeer	20	14 min
TOTAAL		240	169 min

4. ASCII CODES

To save time, you can use the following ASCII codes instead of *Insert > Symbol*.

ü Alt + 129	ä Alt + 132	é Alt + 130	ê Alt + 136
ë Alt + 137	è Alt + 138	ï Alt + 139	ö Alt + 148
ò Alt + 149	ó Alt + 162	È Alt + 0200	É Alt + 0201
Ë Alt + 0203	Ê Alt + 0202	† Alt + 0134	‡ Alt + 0135

5. TIME SCHEDULE

The following serves as a proposed time schedule for answering each question. Try not to deviate from this schedule.

QUESTION	TOPIC	MARKS	TIME (minutes)
1	Table	35	25 min
2	Circular letter with Programme	50	35 min
3	Columns – Edit	25	18 min
4	Theory	30	21 min
5	Minutes	40	28 min
6	Contract	40	28 min
7	Business letter – Edit	20	14 min
TOTAL		240	169 min

INSTRUKSIES AAN TOESIGHOUERS**LEES DIE ONDERSTAANDE INSTRUKSIES SORGVULDIG DEUR.**

1. Jy word verwys na die omsendbriewe wat die spesifieke instruksies vir die Rekenaartikeksamen bevat.
2. Maak seker dat daar genoeg papier en inkkassette vir die druk van die harde kopieë is.
3. Dit is noodsaaklik dat die Rekenaartikonderwyser(es) een van die toesighouers moet wees ten einde hulp te verleen indien daar probleme met die rekenaars is.
4. Leestyd van tien (10) minute word in die drie-uur tydtoekenning vir hierdie vraestel ingesluit. Kandidate mag nie die sleutelbord of die muis in hierdie tydperk gebruik nie.
5. Die tyd toegeken vir die praktiese insleuteling van die antwoorde op hierdie vraestel is 2 uur 50 minute.
6. Alle antwoorde moet op die hardeskyf en/of op stifie disket wat voorsien is, gestoor word.
7. Beweging deur toesighouers tussen die kandidate word beperk tot hulp ingeval daar probleme met rekenaars ondervind word.
8. Toesighouers moet te alle tye uiters bedag wees op die sekuriteit van kandidate se dokumente.

INSTRUCTIONS TO INVIGILATORS**READ THE FOLLOWING INSTRUCTIONS CAREFULLY.**

1. You are referred to the circulars which contain specific instructions for the Computyping examination.
2. The invigilator is to ensure that there is sufficient paper and spare ink cartridges for the printing of the hard copies.
3. It is essential that the Computyping teacher be one of the invigilators for the duration of the examination to assist with possible problems with the computers.
4. Reading time of ten (10) minutes is included in the three-hour allocation for this paper. Candidates are not allowed to use the keyboard or mouse during this time.
5. The time allowed for the practical keying in of the answers to this question paper is 2 hours 50 minutes.
6. All answers must be saved on the hard disk and/or on the stiffy disk provided.
7. Movement by invigilators among candidates should be restricted to assistance with faulty computers.
8. Invigilators should at all times be vigilant with regard to the security of the candidates' documents.

Shade [Attention] block 15% gray

A training programme for new vets has been drawn up by Dr Joanne Messel and will be presented in Johannesburg on 27-11-2006. The proposed programme is attached to this letter for you and your committee's comments and recommendations. The cost of this one-day course is R250, including refreshments. I would appreciate it if you could please give this matter your urgent attention, since it has unfortunately been delayed due to an oversight on our part.

U word herinner aan die Lipizzaner-perdeskou wat op 17 November by die Lipizzaner-sentrum in Kyalami gehou gaan word. Die organiseerders is op soek na veeartse wat ervaring het met groot diere, om by die skou beskikbaar te wees. Indien u kan help, kontak Lulu Delaware by 011 434 5678.

†

†

Hulle kry hul naam van die Keiserlike Stoet by Lipizza naby Triëst, die plek waar hulle die eerste keer in 1580 geteel is.

[Slegs hingse wat liggrys tot wit van kleur is, word vir opleiding gebruik.]

[Opleiding begin op vyfjarige ouderdom.]

'n Paar interessante feite oor Lipizzaners:

Change font to Times New Roman 12.

Insert an appropriate picture. Hint: Look in Healthcare. Place the picture in the middle column between the two paragraphs.

Bathing dogs ^{Title case} 22pt
↔
a Vet's perspective caps 16pt

Bathing the dog sounds easy. Let's just get the dog into a bath and use some of the shampoo that we used to wash our hair with last night. Stop right there!

3 columns

Bathing your dog is not a simple task. [In order to achieve the best results, one has to be clear about what one is doing and why.] There are numerous reasons for bathing dogs. It is important to distinguish between them.

- ⊕ Bath your dog because it is dirty? or
- ⊕ Bath your dog because it is smelly?
- ⊕ there is a skin disease, which needs treating?
- ⊕ you are preparing your dog for a show?
- ⊕ it has fleas or other parasites external? (trs)

Bulleted list in s/s in one column

DO YOU BATH YOUR DOG BECAUSE:

Each reason has a different approach → ital

Drop cap [Each] with 2 lines

NOTE

1. From ** - ** in three columns with a vertical line between the columns.
2. Indent the first line of each paragraph by 0,5 cm (0,2").
3. Justify the text in the columns.

**

You must bath your dog as often as you need to. If your dog gets dirty daily for a few days, then you may need to bath it daily for those few days. If it gets dirty once a week, or once every two weeks then that is how often you need to bath it. I always think of my own hair, which is what a dog's coat is similar to,

hare en onthou dat 'n hond se hare soortgelyk aan my eie is. Ek was my hare gereeld om dit skoon en gesond te hou met 'n vars reuk. Dieselfde goeie gewoonte moet jy onthou vir jou hond.

Moenie jou eie sjampoe gebruik nie. Dit word nie vir jou hond aanbeveel nie. Maak seker dat jy goeie kwaliteit sjampoe geskik vir honde, gebruik. Maak seker dat die verkoops personeel vir jou die regte advies gee. As dit enigszins suspisieus klink, skakel jou veearts. Lees alle instruksies op die bottel, en as daar 'n pamflet binne is, lees dit.

Nog 'n "moenie" is dat jy nie jou hond in jou eie bad moet was nie. Hulle hou nie daarvan om in 'n klein area aan 'n vreemde, /prosedure blootgestel te word nie. ^{snaakse}

Neem 'n groot emmer warm water, 'n spons, klein beker, die sjampoe, 'n leiband en die hond. / Maak die hond met die spons nat. Gooi sjampoe en was deeglik. [!]

~~Nog 'n "Moenie dit doen nie" is om jou hond in jou eie bad te bad. Hulle hou nie daarvan om in 'n klein are vasgekeer te wees nie.~~ ^{del}

Gebruik die beker of die spons om die skuim mee af te spoel. Ek gebruik gewoonlik 'n handdoek om die hond mee af te droog. 'n Haardroër droog die hond se vel uit en laat die hond jeuk. Moenie die hond laat gaan terwyl hy nog nat is nie, want hy gaan die vuilste, stowwerigste poeletjie kry en daarin rol. 'n Goue reël is om die hond aan sy leiband te hou, met 'n handdoek af te droog en dan in die son te loop totdat die hond heeltemal droog is.

* *

As jy die bogenoemde metode gebruik, gaan jy 'n gelukkige, skoon hond hê met 'n eenaar wat nie stres elke keer as hy "bad jou hond" hoor nie.

Sentreer die paragraaf oor die hele bladsy.

Voeg 'n geskikte simbool hier in om die einde van die artikel aan te dui, bv. ✨.

after all. I wash my hair regularly to keep it clean, healthy and smelling good, and the same approach must be applied to your dog.

Do not use your own shampoo. It is not indicated for your dog. Make sure it is a good quality veterinary shampoo. If you are purchasing the product from a source other than your vet, ensure that the salesperson gives you correct advice. If this seems suspect or irregular, then call your vet. Make sure that you read all the instructions on the bottle, and if there is a package insert, read it.

Another "don't do" is don't bathe your dog in your bath in the bathroom. They don't like being confined to a small area and having a strange procedure performed on them. *different*

Take a large bucket of warm water, a sponge and a small jug, the shampoo you have chosen and a lead and collar. Oh yes, don't forget the dog. Use the sponge or jug to decant water onto the dog to wet it. Then lather with the shampoo, and obey instructions given on the bottle. *!*

~~Another "don't do" is don't bathe your dog in your bath in the bathroom. They don't like being confined to a small area and having a strange procedure~~ *del*

Rinse the shampoo off using the sponge or jug. I use a towel to dry the dog. You will not be able to dry the dog completely, but you will be able to get a lot of the surface moisture off. Don't use a hairdryer, they seem to dry the skin out and make the dog itch. I also don't like just letting the dog go whilst soaking wet, because it will surely run and find the dirtiest, dustiest patch and roll in it. So a rule of thumb is to keep your dog on a lead and use a towel to dry it, and then walk it in the sun till it is dry.

* *

If you use the above method, you will have a happy clean dog and an owner who does not get stressed each time the phrase "bath the dog" is mentioned.

Centre this paragraph across the page.

Insert an appropriate symbol here to indicate the end of article e.g. * *.

2. Die Inligtingsnelweg (<i>Information Superhighway</i>) ...	A. gee jou die keuse tussen twee stelsels.	
	B. is 'n manier om inligting deur middel van rekenaars oor te dra	
	C. is 'n tegnologiese ontwikkeling van digitale netwerke van rekenaars en telekommunikasiestelsels oor die wêreld.	
3. Watter IKT (<i>ICT</i>) innovasie het 'n omwenteling in hoe ons inkopies doen, veroorsaak?	A. Databasisse	
	B. E-Handel	
	C. Stempos (voice mail)	
4. Watter rekenaartoeëpassing vereis dat die aanbieder die rekenaar aan 'n dataprojektor koppel?	A. Excel/QuattroPro	
	B. PowerPoint/Presentations	
	C. Access/Paradox	

QUESTION 4

THEORY

Retrieve the file called **QUESTION 4** and answer all the questions in the space provided. Save as **QUESTION 4A**. You may plan your answers on the question paper. **[21 min]**

SECTION A **6 x 2 = [12]**

Choose the correct answer to each question by typing a cross (**X**) in the relevant block.

QUESTIONS	POSSIBLE ANSWERS	X
1. Which application is used to produce mass mail of letters to customers?	A. Webpage	
	B. Presentation	
	C. Word processing	
2. The Information Superhighway ...	A. allows you to choose the best route between two systems	
	B. is a means of transmitting data to other computers	
	C. is a technological development of digital networks of computers and telecommunications systems around the world	
3. Which ICT innovation is changing how we shop?	A. Databases	
	B. E-Commerce	
	C. Voice mail	
4. Which computer application requires the presenter to connect a computer to a data projector?	A. Excel/QuattroPro	
	B. PowerPoint/Presentations	
	C. Access/Paradox	

AFDELING A (vervolg)

5. Herhaalde spanningsbesering (repetitive strain injury) kan veroorsaak word deur ...	A. swak postuur en verkeerde gebruik van die muis of sleutelbord	
	B. slegte ventilasie	
	C. beide A en B	
6. Hulle hoër stoorkapasiteit en die gerief om hulle saam met jou te dra, maak dit meer prakties vir groter rugsteuning.	A. 3½"-diskette	
	B. Addisionele harde skywe	
	C. Flitsskywe/Geheuestafies	

AFDELING B 4 x 1 = [4]

Beantwoord **WAAR** of **ONWAAR**:

1. Deur programme van die web af te laai, kan virusse oorgedra word.
2. Die sentrale verwerkingseenheid is die enigste komponent van die persoonlike rekenaar (PC).
3. Anti-virus-sagteware kontroleer alle lêers en verwyder virusse wat opgespoor word.
4. 'n Sleutelbord is 'n afvoertoestel.

AFDELING C 7 x 2 = [14]

Bestudeer Kolom A en Kolom B. Kies die korrekte antwoord uit Kolom B wat by Kolom A pas. Voltooi die vorm deur slegs die korrekte letter in die spasie te tik.

KOLOM A	KOLOM B
1. Knipbord (<i>Clipboard</i>)	A. MS Office
2. 'n Multigebruik-bedryfstelsel	B. Greep (<i>byte</i>)
3. Drukvoorskou (<i>Print preview</i>)	C. 'n Kortpad na die drukfunksie
4. Deelware (<i>Shareware</i>)	D. Linux

SECTION A (continued)

5. Repetitive strain injury can be caused by ...	A. poor posture and incorrect use of the mouse or keyboard	
	B. poor ventilation	
	C. both A and B	
6. Their higher storage capacity and the convenience of being able to carry them with you, makes them more practical for larger backups.	A. 3½" disks	
	B. Additional hard drives	
	C. Flash disks/Memory sticks	

SECTION B 4 x 1 = [4]

Answer **TRUE** or **FALSE**:

1. Downloading programs from websites can transmit viruses.
2. The central processing unit is the only component of the personal computer (PC).
3. Anti-virus software checks all your files and removes viruses found.
4. A keyboard is an output device.

SECTION C 7 x 2 = [14]

Study Column A and Column B. Choose the correct answer from Column B that fits Column A. Complete the form by typing the correct letter in the space provided.

COLUMN A	COLUMN B
1. Clipboard	A. MS Office
2. A multi-use operating system	B. Byte
3. Print preview	C. A shortcut to the print function
4. Shareware	D. Linux

AFDELING C (vervolg)

5. Internetadres	E. URL (<i>Uniform Resource Locator</i>)
6. Voorbeeld van sagteware (<i>software</i>)	F. Strek oor 'n hele land.
7. Dit is die eenheid wat gebruik word om die verwerkingspoed van 'n rekenaar te meet.	G. Sagteware wat verniet is en wat enigiemand kan gebruik.
	H. Sagteware wat slegs vir 'n sekere tydperk verniet gebruik kan word.
	I. Sluit die rekenaars en drukkers van 'n klein kantoor in.
	J. Geheuestelsel wat data tydelik stoor.
	K. Hertz
	L. Stel jou in staat om op die skerm te sien hoe jou gedrukte dokument gaan lyk.
	M. Stel jou in staat om veelvoudige items in <i>Office</i> -programme te versamel en te plak.

SECTION C (continued)

5. Internet address	E. URL (Uniform Resource Locator)
6. Example of software	F. Extends across a country
7. This is the unit used to measure the processing speed of a computer.	G. Software that is free and anyone can use.
	H. Software that you can use for free for a certain time period.
	I. Includes the computer and printers in a small office.
	J. Set of memory that holds data temporarily.
	K. Hertz
	L. Enables you to see on the screen what your printed document will look like.
	M. Enables you to collect and paste multiple items in Office programs.

Faks: (011) 987 6755

6 Oktober 2006

Sentreer
briefhoof-
besonderhede.

Me L Makunye, Posbus 56, Northcliff 2091 → Sit korrek uiteen.

Geagte me M Volbooi

Sjokolade en 'n Mens Se Beste Vriend blk

Dankie vir die navraag wat u gerig het. Die saad van Theobroma kakao bestaan uit twee persent theobromine en 'n klein bietjie kaffeïen wat die bestanddeel van kakao is vir sjokolade. Baker se sjokolade bevat / hoogste konsentraat van theobromine van alle sjokolade. Hierdie bestanddeel kan vir mense as 'n stimulant gebruik word en kan ook blokkasies voorkom deur / are te vergroot.

Hoeveel sjokolade is dodelik vir 'n hond?

Omraam slegs die teks met 'n 3D-raam.

Die dood as gevolg van vergiftiging kan dus uitgestel word totdat 'n kritiese vlak bereik is.

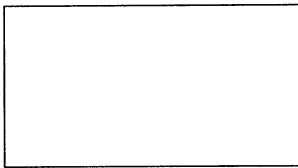

Twee worshonde is dood nadat hulle 600 g sjokolade tussen hulle twee verorber het. Omdat theobromine deur / spysverteringskanaal geabsorbeer word en stadig uitgeskei word sal selfs klein dosisse 'n kumulatiewe effek hê. Indien die dier so vergiftig word tree / dood skilik in.

Sommige honde het geen weerstand teen melksuiker nie, d.i. laktose, wat beteken dat hulle nie die ensieme het om die laktose te verwerk nie. Die onverwerkte melksuiker trek water deur osmose in die liggaam in en veroorsaak braking en diarree.

QUESTION 7

6 October 2006

Ms L Makunye, PO Box 56, Northcliff 2091 → Display correctly.

Dear Ms M Complete

Chocolates And A Man's Best Friend u/c

Thank you for your enquiry. The seed of Theobroma cacao which contains two percent theobromine and a little caffeine is the source of cacao for chocolate. Baker's chocolate contains / highest concentration of theobromine of all chocolate. This substance can be used in humans as a diuretic, cardiac stimulant and to dilate / coronary or peripheral arteries.

How much chocolate is fatal to dogs? Frame text only with a 3D frame.

Death from poisoning may thus be delayed until a critical level is reached.

Two dachshunds died after eating 600 g of chocolate between them. Since theobromine is completely absorbed from / alimentary tract and only slowly excreted, small doses can have a cumulative effect. When poisoned by / heart stimulant few signs are seen, death occurring suddenly.

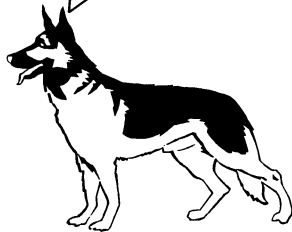

Some dogs are intolerant to milk sugar, i.e. lactose, which means that they don't have the enzyme, lactase to digest lactose. The undigested milk sugar draws water by osmosis into the intestinal tract from the body, resulting in vomiting and diarrhoea.

Een blokkie sjokolade vir 'n 15 kg hond is gelyk aan vyf sjokolades vir 'n 75 kilogram persoon. Dit sit onmiddelik om in vet, en loop aan gebruik afk.

o/k Sjokolade is sleg vir die tande.

Die uwe

Skuif die prentjie na die spasie in die briefhoof.

- Die brief word deur dr J Muller geteken.
