POSSIBLE ANSWERS FOR : TYPING SG (Second Paper)

QUESTION 1

The timed accuracy test is to be typed in 1½ or double line spacing on one side of the page. Use margins of 10°. A minimum of 35 w.p.m. is expected and the limits are marked by (...).

TIME: 10 minutes **[60]**

Most preschool children like television. Since the introduction of television in America, many studies have been carried out on the effect of television on young children. Very little has been proved so far, except that television affects some children negatively under certain circumstances, but that under the same circumstances other children are not noticeably affected at all.

Television does, however, change a family's lifestyle, because there is postulated that although a family may watch television together, the personal interaction between the members of the family drops drastically and the time they spend on such interaction is curtailed. By watching television, a child can therefore easily isolate himself and be forgotten by the rest of the family. Television furthermore curtails children's play time considerably and they are less willing to help with household chores.

The influence of television on the learning process of a child has also been investigated in depth. The opinion has been expressed that television can be of great educational value at preschool level. However it was found that education programmes are effective only when parents watch with the child and draw his attention to interesting aspects of the programme. If the child watches on his own, he becomes a passive viewer. If the tendency of passiveness already exists within the child, television reinforces it.

Aggression often occurs in television programmes and its effect on the social behaviour of children is significant. There are various ways in which television violence can cause aggression in children. ....35 w.p.m.

Firstly, children can identify with, or model an aggressive
hero. Secondly, television violence creates possibilities
for children to learn new aggression skills. Thirdly,
television violence can weaken the child's inhibitions
against ....40 w.p.m.
behaving in similar ways. Fourthly, vicarious conditioning
can take place because in his imagination, the child takes
part in the violent actions of television characters.
Fifthly, there are indications that television violence
can lead to ....45 w.p.m.
psychic numbing and reinforces the tendency to view the world
as a dangerous place.

It is, however, also important to note the pro-social
influence of television. In the scurry to prove the
negative influence of television, the advantages of ....50 w.p.m.
television have been totally relegated to a background
position. Researchers note that television can reinforce
pro-social behaviour such as friendliness, cooperation,
creativeness, empathy and tolerance towards other ethnic
groups. It is clear, ...55 w.p.m.

BE INFORMED, BEAT CANCER

Cancer Week has an important place in our cancer association calendar. It offers us an opportunity to share our knowledge with an ever-greater number of people, and adds momentum to the fight against cancer in every corner of our country.

More and more, it is [redacted] togetherness, that teamwork, that sharing of information and experience which is making the real difference in the fight against cancer. Behind the words BE INFORMED, BEAT CANCER lie decades of hands-on community work, research and experience, the hopes of thousands of individuals faced with their own cancer diagnosis, and the triumph of many courageous cancer survivors.

YOUR ROLE IN FIGHTING CANCER

* be cancer-aware: know the warning signs of cancer
* become a member of the Cancer Association
* make a donation, become a volunteer

1. CANSA - ADDING QUALITY TO LIFE

   Research shows that between 30% and 40% of cancer incidence worldwide is preventable through the adoption of a lifestyle which includes a healthy approach to eating, weight control and exercise. The Cancer Association of South Africa is committed to helping the public identify products proven to help reduce the risk of cancer.

[redacted]

2. WHAT MAKES YOU A VOLUNTEER?

Volunteers are very special people. They give freely of their time, experience and energy with only one aim: to make a difference in the lives of others - and it's an aim they most certainly achieve. They are, in fact, among the most valuable assets of the Cancer Association.

On a yearly basis we strive to recruit more volunteers to help us fulfil our vital role in communities all over South Africa.

If you'd like to become a CANSA volunteer, please contact your local office or phone us for more information.

Yours faithfully

QUESTION 6

NETPHON STEERING COMMITTEE REPORT

The objective of our report on Telephonic Communication is indeed one of the ways of demonstrating our commitment to continual improvement.

We at NETPHON strongly align ourselves with government's sustainable rural programme, thereby combining our efforts to providing access to phones.

1. PHONE CARDS

Phone cards are available in various denominations from R20 - R200. When all the units on the phone card have been used during a call, the card can be replaced with another without interrupting the call.

1.1 <u>Advertising Phone Cards</u>

Advertising phone cards can be used to promote products and services.

1.2 <u>Assistance for blind or partially sighted users</u>

All NETPHON cards have a special notch that enables the blind and partially sighted users to insert the phone card correctly into the card reader.

2. COIN PHONES

The new coin phone is the increasing market demand for public coin phones. It is a prepaid payphone that uses coins and is found in unsupervised and public areas for easy access. It is upgraded to a combination phone which uses both card and coin method of payment. It accepts coins from old and new coin range. It is targeted at customers that can afford a phone card but do not have one when needed to make a call.

3. SEMI-PUBLIC PAYPHONE

Semi-public payphones is a class of payphone service, not a payphone product.

MOONTLIKE ANTWOORDE VIR : TIK SG
(Tweede Vraestel)

VRAAG 1 [60]

Die tydnoukeurigheidstoets moet in dubbel- of 1½ reëlafstand op een kant van die bladsy getik word. Gebruik kantruimtes van 10°. 'n Minimum van 35 w.p.m. word verwag en die grense, word deur (...) aangedui.

TYD: 10 minute

Die meeste voorskoolse kinders hou van televisie. Sedert die instelling van televisie in die dertigerjare in Amerika is duisende studies gedoen oor die invloed van televisie op jong kinders. Min is egter bewys, behalwe dat televisie sommige kinders onder sekere omstandighede negatief beïnvloed, maar op ander kinders onder dieselfde omstandighede geensins 'n merkbare effek het nie.

Televisie verander egter beslis 'n gesin se lewenswyse, omdat daar gepostuleer word dat, hoewel 'n gesin saam televisie kyk, daardie gesin se interpersoonlike aktiwiteite drasties afneem en dat hulle minder tyd spandeer in hul interaksie met mekaar. 'n Kind kan hom dus baie maklik isoleer deur voor die televisie te sit en vergeet te word deur die res van die gesin. Daarby is gevind dat televisie die speeltyd van kinders drasties inkort en dat hulle minder geneë is om te help met die huishoudelike pligte.

Die invloed van televisie op die leerproses van die kind is ook breedvoerig ondersoek. Daar was die mening dat dit van baie opvoedkundige waarde op voorskoolse vlak kan wees.

Maar daar was egter gevind dat opvoedkundige programme slegs trefkrag het wanneer die ouers ook meedoen en die kind se aandag vestig op interessante aspekte van die program. Indien die kind alleen sit, word hy net 'n passiewe kyker. Indien die neiging tot passiwiteit reeds by 'n kind bestaan, versterk televisie dit verder.

Aggressie kom dikwels in televisieprogramme voor en die invloed daarvan op die sosiale gedrag van kinders is baie belangrik. Daar is verskeie maniere waarop televisiegeweld aggressie by 'n kind kan kweek.

Eerstens kan identifikasie met of modellering rakende 'n
aggressiewe held plaasvind. ....35 w.p.m.
Tweedens skep televisiegeweld vir die kind moontlikhede om
nuwe aggressiewe vaardighede aan te leer. Derdens kan die
kyk na televisiegeweld die kind se inhibisies om op dieselfde
wyse op te tree, afstomp. Vierdens kan aggressie
kondisionering .... 40 w.p.m.
plaasvind omdat die kind in sy verbeelding deelneem aan die
gewelddadige aksies van die televisiefiguur. Vyfdens is
daar aanduiding dat televisiegeweld tot psigologiese
afstomping rakende geweld by die kind kan lei en daarby ook
die ....45 w.p.m.
neiging by hom versterk dat die wêreld 'n gevaarlike plek is.

Dit is dus ook belangrik om op die pro-sosiale uitwerking
van televisie te let. In die haas om die negatiewe invloed
van televisie te bewys, is die voordele van televisie in
die meeste ....50 w.p.m.
ondersoeke totaal op die agtergrond geskuif. Navorsers meld
dat pro-sosiale gedrag wat deur televisiemedia versterk kan

WEES INGELIG, OORWIN KANKER

Kankerweek beklee 'n belangriker plek op ons kankervereni-gingkalender. Dit gee ons die geleentheid om ons kennis met al hoe meer mense te deel, en dit gee ook momentum aan die stryd teen kanker in al die uithoeke van ons land.

Dit is toenemend [redacted] samesyn, daardie spanwerk, daardie deel van inligting en ervaring wat die werklike verskil maak in die stryd teen kanker. Agter die woorde WEES INGE-LIG, OORWIN KANKER lê dekades van aktiewe gemeenskapswerk, navorsing en ondervinding, die hoop van duisende individue wat hul eie kanker diagnose in die gesig staar en die triomf van talle moedige kankeroorlewendes.

JOU ROL OM KANKER TE BESTRY

* wees bedag - ken die waarskuwingstekens van kanker
* word 'n lid van die Kankervereniging
* maak 'n donasie, word 'n vrywilliger

1. KANSA - VOEG GEHALTE BY DIE LEWE

Navorsing toon dat tussen 30 % en 40 % van kankergevalle wêreldwyd voorkom kan word deur 'n gesonde leefstyl wat 'n verstandige benadering tot dieet, massabeheer en oefening insluit. Die Kankervereniging van Suid-Afrika is daartoe verbind om die publiek te help om produkte te identifiseer wat kan help om die risiko van kanker te verminder.

2. HOE LYK 'n VRYWILLIGER?

Vrywilligers is baie spesiale mense. Hulle gee hul tyd, energie en ondervinding vrylik met net een doel: om 'n verskil te maak in die lewens van ander - en dit is 'n doel wat hulle beslis bereik. Trouens, hulle is onder die waardevolste bates van die Kanker-vereniging.

Ons probeer jaarliks meer vrywilligers werf om ons te help om ons wesenlike rol in gemeenskappe dwarsoor Suid-Afrika te vervul.

Indien jy 'n KANSA-vrywilliger wil word, kontak asseblief jou plaaslike kantoor of skakel ons vir meer inligting.

NETHON BESTURENDE KOMITEE

Die doelwit van ons verslag op Telefoniese Kommunikasie is inderdaad een van die maniere waarop ons toegewydheid aan voortdurende verbetering demonstreer.

Ons by NETHON stel onsself in lyn met die regering se hulp tot die landelike program, en daarby kombineer ons pogings om toegang tot telefone te voorsien.

1. FOONKAARTE

Foonkaarte is beskikbaar in verskeie bedrae vanaf R20 - R200. As al die eenhede op 'n foonkaart gedurende 'n oproep opgebruik is, kan die kaart vervang word met 'n ander sonder om die oproep te onderbreek.

1.1 <u>Advertensie Foonkaarte</u>

Advertensie foonkaarte kan gebruik word om produkte en dienste te adverteer.

1.2 <u>Bystand aan blinde of swaksiende gebruikers</u>

Alle NETPHON kaarte het 'n spesiale groef wat blinde en swaksiende gebruikers in staat stel om die foonkaart korrek in die kaartleser te druk.

2. MUNTFONE

Die nuwe muntfoon is die antwoord op die toenemende aanvraag na publieke muntfone. Dit is 'n vooruitbetaalde betaalfoon wat munte gebruik en maklike toegang bied in gebiede sonder toesig en openbare gebiede. Dit is opgradeerbaar tot 'n kombinasiefoon wat beide die kaart en munt metode van betaling gebruik. Dit aanvaar munte uit die ou en nuwe muntreeks. Dit is bedoel vir kliënte wat nie 'n foonkaart kan bekostig, maar nie een het wanneer hulle 'n oproep moet maak nie.

3. SEMI-PUBLIEK BETAALFONE

Semi-openbare betaalfone is 'n soort betaalfoondiens, nie 'n betaalfoonproduk nie.
