b	Jaci He He	k could increase the s could try and buy goo could reduce expense Stock – lower of cos	sales price for his goods. (1) ods more cheaply from suppliers. (1) es. (1)						
(•	.,	Trade debtors – exp	ected collectible amount (1)						
(ii) Prudence (conservatism) (1)									
	The correct valuation base ensures profit is not overstated (1) and assets are not overstated (1)								
		and assets are not o	verstated (1)						

 (d) Accountants work with generally accepted rules such as accounting standards (2) Accountants are expected by profession and public to produce reliable financial information (2) Professional standards are more important than individual organisations (2) Preparing accounts for the temporary benefit of one individual or organisation, even an employer, is against these rules and training (2) An accountant could be penalised legally or professionally for not following agreed practice (2) [max 4]

[Total marks 22]

- 5 (a) Authorised share capital is the amount a company may issue whereas called-up share capital is issued (2) [2]
 - (b) Preference shares are fixed rate capital; ordinary shares are not (1)

Preference share dividend is allocated out of profit before ordinary share dividend (1)

Preference shareholders do not usually have a vote but ordinary shareholders do (1)

Preference shareholders have priority rights in liquidation and ordinary shareholders do not (1)

[max 2]

(c) A general reserve separates retained profits which shareholders might expect to be distributed from those which are likely to be kept long term in the company. (1)
 OR

By transferring funds to a general reserve the company indicates retained profits are being reinvested long term. (1)

[max 1]

- (d) Both partnerships and companies may have fixed capital (1) Partners also have current accounts within the capital structure (1) The capital owned by each partner is shown on a partnership balance sheet but company capital is not divided between each shareholder (2) Retained profits and reserves are included in the capital and reserves of a company but not a partnership (2) Different types of ownership are shown in the capital structure of a company but not a partnership (2)
 (a) They improve comparability between financial statements. (1)
- (e) They improve comparability between financial statements. (1)
 Fewer rules make accounts more understandable. (1)
 Information is more reliable with fewer rules and practices to follow (1)
 [max 2]
