MARK SCHEME for the October/November 2010 question paper

for the guidance of teachers

5090 BIOLOGY

5090/32

Paper 3 (Practical Test), maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

• CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the October/November 2010 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

	Page 2	2 Mark Scheme: Teachers' version GCE O LEVEL – October/November 2010		Syllabus	Paper			
	Ŭ			5090	32			
1	(a) (ii)	fault or variation may give odd result / confirms first reading / avoiding any errors; R: ref to accuracy / fair testing						
	(iii)	ref. to	 because of differences (or converse); o average / mean length; can also be accepted in (ii) if not referred to here). 		[2]			
	(iv)	 marks for Table 1.1: (tick close to point) negative change in A; positive change in C; means correctly calculated and stated; (+) and – indicated in last column; 						
	(b) (i)	grapl	h marks:					
		2. 2 3. 3 4. 0	labelled (+) above, – below axis. x-axis labelled 'concentration / mol per dm ³ . y-axis labelled 'change in length / mm' . clear and accurate plotting of own data. connections ruled / line of best fit.		[5]			
	(ii)	accurately read from graph (±1 mm on <i>x</i> -axis); units (mol per dm ³);						
	(iii)	as ex	er potential the same (equal) / solution in cell(sap) sam xternal (ambient) solution ; <u>isotonic;</u> <u>et</u> exchange of <u>water;</u>	ne concentration				
		no change in length / size / dimensions;						
	• •	using concentrat	tion in (b) (ii) ;					
		pre accurate measurement of strips; replication / more strips; pasure mass; longer time;			[3 max]			
					[Total: 20]			
2	(a) (i)	draw	ing marks:					
		2. I	at least 6 cm, clear and realistic. legs (jointed / sections), wings (2), with one veined. segments (clear / complete) / head / eye / proboscis s	hown.	[3]			
		labels: leg and wing; head / thorax / abdomen; segment; proboscis / antenna;						
			[3 max]					
	(ii)		er outline / clear(er) / shows more detail; s in place / keeps flatter / spread out;		[2]
